SMALL TAXPAYERS SHOULD VOTE FOR MUNICIPAL OWNERSHIP

The Robert W. Hunt Company in its report to the first water committee recommended that the water supply be owned by the city. The water service is available for the owners of unimproved real estate, even though they have not yet become consumers of water, and they should pay a part of the cost of maintaining the municipal water system.

VOTE FOR MUNICIPAL WATERWORKS

"The present company has from time to time supplied the city from Watts well just as any private corporation that might hereafter succeed to the franchise would do, vitally bringing about conditions necessitating the pumping of cheap water instead of mesa water for the profit there might be in it. In other words, we should always be at the mercy of any private corporation operating our water system."—From the report of the second water committee, James R. Harper, chairman.
