"JUST LIKE PAPA." Children Glad to Have Their Drink Like Their Parents.

More than any of the old folks realize, the little folks at the table like to have food and drink the same as Father and Mother.

Perhaps you can remember the time when a fork-full of the meat or potato or a sip from the cup that your Father or Mother was using seemed to possess some remarkable merit and flavor.

If children can be given a strong nourishing food drink such as Postum it satisfies their desire to have things like the older folks, and at the same time gives them a drink they love and fatten on.

A lady up in Oakes, N. D., says that since their family have been drinking Postum the children are stronger and better than ever before, and as a glad that they can have coffee to drink "just like papa."

The husband and father was taken sick with a very severe attack of stomach trouble and had to give up work, being confined to the house for some weeks, suffering greatly. For some time he had been in the habit of drinking coffee for breakfast, and tea for dinner and supper. The wife writes: "After reading some of your advertisements we wondered if coffee and tea had not been the cause of his sickness."

"We finally decided to have him quit tea and coffee and try Postum. He dates his recovery from the day he commenced to drink Postum, and has not had to stop work from sickness since then."

"Some years ago I tried a package of Postum and did not like it. But I know now that it was because I did not make it right. It is easy to make good Postum if the simple directions on the package are followed. The only failure is when people do not boil it long enough."
