CHILDREN SPOIL CONCERT WITH THEIR NOISE

Parents Appealed to; Police Will Take Action Next Tuesday.

When one pays for a theater seat, and a prattling infant ruins the tenor's solo or the leading man's last scene, that one is very, very angry—always.

And many in Cleveland square Tuesday night were equally angry, although they did not pay for a seat on an iron bench or on the grass.

Since the beginning of El Paso's free open air concerts, which are for good music for only the trouble of going, there have been many complaints of the racket while the municipal band plays.

"Children's voices make sweet music," say the kickers, "but their combination with a brass band is not pleasing and spoils one's enjoyment."

Selection Spoiled by Noise.

During the soft shoe parts of Rossini's "William Tell" in Tuesday night's program, children's voices, not in laughter, but in wild screams, caused such a bedlam that conductor John R. Kindig himself turned to the audience and begged for his hands to be held up.

Many parents sat placidly with tolerant satisfaction of their children's racket, but a few called their little ones and proceeded on a lecture regarding "other people's feelings."

And then to cap the climax, a tallish party of young folk passed and proceeded with great mirth, to blow a trumpet in rivalry to the instruments of the band. As reward, the faithful few insisted on an encore of the selection, and the conductor graciously repeated the dashing finale of the overture.

Parents at Fault.

"It seems to me that there is enough time for noise between the selections," said Prof. Kindig, as he mopped his brow, half in exhaustion after his work, half in vexation at the interruption. "And it seems to me that El Paso fathers and mothers should teach their children to have some consistency for others' feelings, if they can not make them love music."

The conductor explained that many tourists had expressed their surprise at the good music to be enjoyed for nothing in a western border city, and that he was more than a little ashamed of the racket which sometimes exceeds in volume the applause.

"There is nothing but help from the parents that can stop the noise," continued the conductor. "The police can help, if it is true, but it is wrong that they should have to be called. I can do nothing."

Police to Interfere.

So many complaints have found the ear of chief of police Jenkins, that next week two policemen will be stationed in the park. A single policeman Tuesday night succeeded in quieting much of the racket, but the children romped over the park and played in spite of the blucet.

Tuesday night's concert was especially pleasing. Espinosa's "Moriana," a charming serenade, caused much appreciation. The park was filled every evening, occupied, the grass covered with loungers, and the walks crowded with walkers.

HOW HE CURED HIS SKIN DISEASE

About twenty years ago I began to break out with Eczema on my head, legs and arms, and commenced treatment with the local doctors, but did not get much relief. I continued to treat the disease under the direction of different physicians for two years, and at the end of that time they said the disease was chronic. I then quit them and tried various ointments, salves, lotions, etc., for another two years, but soon I was as bad off as before, so I finally decided to let medicine alone, and for twelve or thirteen years I suffered intensely from the Eczema. During the time I lost about half of my hair. At last I began S. S. S., doubtful of a cure, because the disease had run on so long, but I soon discovered that your medicine was doing me good, and continued to take it. After taking S. S. S. for awhile I was completely cured of the Eczema, not having a single spot left on my body, which before was almost completely covered with the eruption. I waited until the Spring to see if it would return, but have seen no signs of it, and am satisfied the cure is permanent. It has been several years now and I do not believe I will ever have any return of the trouble.

1017 Hackberry St., Ottumwa, Iowa. P. C. NORFOLK.

What S. S. S. did for Mr. Norfolk it can do for every one who is afflicted with a Skin Disease. He is just one of the many thousands who have cured themselves by the simple process of purifying the blood and removing the cause from the circulation. We want you to be cured if you have any skin trouble, and shall endeavor in this short talk to tell you just why S. S. S. will accomplish the desired result.

The skin is composed of two distinct layers. One is known as the epidermis or outer skin, which has no fibres, and serves principally as a covering to the body. The other is known as the derma or true skin, and is composed of elastic fibres, fat tissue, glands, lymphatics, nerves, etc. The thousands of tiny veins and arteries with which this lower section is interlaced, supplies the cuticle with healthful properties from the circulation to keep the skin smooth and healthy. We can therefore readily see how necessary it is for the blood to be pure if the skin remain free from disease, and also why humors and acids in the circulation always find their way to the surface and cause skin affections.

All skin troubles are due to a humor or acid in the blood. Instead of supplying rich, nutritive properties to the cuticle, the circulation constantly deposits an acid impurity into the sensitive fibres and tissues. This causes inflammation of the under layer of the skin which splits or breaks the thin outer tissue and causes an ulceration of the glands, producing a discharge upon the surface, in the form of Eczema, Tetter, Salt Rheum, etc. There is likewise a dry form of skin disease such as Acne, Psoriasis, etc. In these varieties the humor in the blood diseases the pores, hair follicles, etc., causing them to swell and protrude to the outer surface. Pimples, rashes, eruptions and like troubles are all due to impure blood, and only a blood purifier can cure them. Salves, washes, lotions, etc., will perhaps afford some temporary relief from the itching, and assist in keeping the skin clean, but such treatment can have no effect on the humors in the blood, and therefore never do any permanent good.

S. S. S. cures skin diseases of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its rich, nutritious corpuscles, and adds to its purity and nourishing qualities in every way. Then the skin, instead of being irritated and inflamed by fiery humors and acids, is nourished, soothed and softened by a plentiful supply of rich, pure blood. S. S. S. is the greatest of all blood purifiers and therein lies its ability to cure skin diseases. It cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, rashes and all eruptions of the cuticle. These troubles cannot remain when the cause has been removed, and S. S. S. will certainly remove the cause by purifying the blood. Book on Skin Diseases free to all who write.

MORMONS WILL DOUBLE LUMBER MILL CAPACITY
Demand Greater Than the Supply at Colonia Dublin; New Mill Sites Selected; General News.

Colonia Dublin, Mex., May 25.—The hustle and bustle of the Booker-Women Lumber company and the steady stream of freighting outfits coming and going daily to and from the mills is making considerable business. There are at present 145 men employed in various capacities. The output in the telephone posts and lath will aggregate 75,000 feet daily, and yet the orders far exceed. Plans are being made to increase the capacity as soon as possible. Two new sites have been chosen in close proximity to the present location, which will produce an aggregate of 6,000,000 feet of logs and arrangements are being made to move one mill in the near future.

Religious meetings have been neglected for some weeks on account of president elder James Carroll and his first councillor, G. M. Haws, having moved away.

The young folks enjoyed a dance in the new meeting house Saturday evening.

AMUSEMENTS.

AT THE AIRDOME.

The Airdome company will have to be worked over. Manager Rich has the nucleus of a musical comedy company, but he will have to replace some of his people to get results. The lack of direction is the principal fault; the absence of voices and histrionic ability of some of the members of the cast is another fault.

The Airdome was packed Tuesday night for the opening performance by the Ollie Mack musical comedy company, and, while allowances should be made for the fact that it was the first time the company had worked together and both the stage and play were new to them, still there are shortcomings that can only be remedied through "two weeks notices" to some of the members of the company, and a general tightening of discipline and stage direction. There was an absence of snap and activity in the chorus work and the general work of the company that could be remedied by strict stage direction and a good chorus leader.

Ollie Mack was the same Ollie of old and to those who like Mack's work, he is still as satisfactory as ever, and gave as good a performance as he has ever done. The comedy as he ever did. Billy Onslow, who replaces Murray, is not at all bad and one of his songs made a big hit. Eddie O'Brien, lately in vaudeville, got away with the character of Sgt. Guver sufficiently to please the audience, and in a specialty with Onslow made good.

Miss Charlotte Stole leads the women principals as an actress and a singer. Miss Fannie Adler is rather good looking and wears her clothes well, but her voice is not strong enough for the Airdome, unless she can remedy this. If she can, she should be able to do satisfactory work.

The chorus is good looking and wears some good looking costumes and ought to be satisfactory with a little more hard work and better drilling.

But the entire company would show to much better advantage under better instruction and with more ginger and action throughout the show. This may be brought about in a night or two, in which event the company ought to be much more satisfactory, even as it is. Special scenery has been made for the production.

The bill will be changed next Sunday night.

LAST NIGHT FOR EIGHT PICTURES.

Tonight will be last opportunity to see the Wolcott-Nelson fight pictures which have proved such a drawing card at the Happy Hour. Tomorrow night there will be new pictures as well as a complete change of vaudeville. The fight picture is famous to his belt or the entertainment itself as the film is 4000 feet in length. "The pictures are exceptionally bright and those who enjoy fight pictures should not fall to

attend the Happy Hour tonight," says the management.

NEW PROGRAM AT MAJESTIC.

An entire change of program starts at the Majestic tonight, where Ableman's Human Talking pictures are pleasing large crowds. The talking picture will be the comedy drama, "A Trap for Santa Claus." This is one of the newest of the moving pictures and with two other new pictures should make a splendid program.
