CRUELTY TO THE MOUNTAIN HORSES

El Pasoans Protest at Hard
Riding at Cloudcroft.
Many Texans There.

(By Mrs. W. S. Tilton.)
Cloudcroft, N. M., Aug. 16.—The Herald correspondent has been visited upon by a delegation of members of the El Paso Humane society protesting against the inhumane riding of the horses up here by the summer visitors.

As many of the riders are El Paso young folk, the delegation felt that a protest through The Herald will put a stop to the cruel practice of the cavaliers that leave the resort daily, going to Mountain park, racing the horses back all the way against the train. It is up steep grade all the way. One young woman who expects to be a teacher of little children next year in the El Paso schools, proudly boasted of beating the train by six minutes. The horse, a beautiful black, stands out in the field completely ruined for the rest of the season.

The cruel practice of leaving dogs and cats up here to starve and freeze at the end of the season when the families returned home has been cured by threats of having their names published. A committee from the El Paso Humane society is keeping a list of the families who have household pets.

The Oliver family of Alamogordo gave a concert in the pavilion last night, which delighted a large audience. Selections from the operas as well as some of the popular airs were played by this talented family. Mr. and Mrs. M. L. Oliver and their four children, Avera, Ankie, Horrie and only son, G. B., have cultivated their gift of music to its highest quality for the pleasure of themselves and friends, and have been induced to give an evening of pleasure at the Chautauqua.

DAYTON DECIDES TO HAVE MUNICIPAL PUMPING PLANT.

Committee Appointed to Take Charge
of Work—Old Rancher Found Dead
at His Home—Visitors.

Dayton, N. M., Aug. 16.—The citizens of Dayton held a mass meeting to take the final step in effecting an organization to put in a municipal pumping plant. The necessary funds have already been subscribed and a site selected for the first well. W. F. Daugherty was elected president of the organization; A. W. Henry, secretary; J. E. Randolph, J. B. Stallings and A. W. Henry a working committee to take active charge. The shallow well proposition has long been looked upon as the most feasible and economical solution of the city water question for Dayton, and the results of this first attempt will be watched with interest. Once the feasibility of this source for a water supply is proven, the entire citizenship of the town will unite in an effort to make a "city beautiful."

Dan Meadows, the old hermit ranchman, who lived in the foothills west of here, was found dead near his cave. He had evidently been dead several days, but as there were no evidences of foul play, death probably resulted from old age. The remains were buried in the Upper Hogue cemetery.

Another good man fell here. W. Harmon, living two miles south of town, is receiving much praise over the appearance of his 200 acres of corn. G. W. Chisholm is visiting at his former home, Sherman, Texas. Dr. J. N. Platt, of Anson, Tex., is spending a few days at the Hotel Dayton.

James Dawson and family, of Colorado City, Tex., are visiting his parents, Mr. and Mrs. S. R. Dawson. A. S. Durrum, local agent of the Santa Fe here, was called to Los Angeles by a telegram announcing the serious illness of his wife, who is visiting in that city.

Rev. H. L. Wheeler, of Hope, visited his parents here. Mrs. Lucy H. Williams, Louisville, Ky., was in Dayton looking over property and will probably make some substantial improvements soon.

Miss Lavinia Cumming of Santa Cruz, Cal., arrived here to attend her father, D. W. Cumming, and will visit her aunt, Mrs. Prudence Cumming for some time. Julia Harter has returned from his vacation trip to Arizona.

A. Tracy Bird, Jr., is spending several days in Hermosillo. Mrs. F. B. Brown, who has been the guest of Mrs. A. T. Bird, has returned to her home in El Paso, Texas, has arrived here to take the position of vice consul with American consul Dye.

Consul Dye of this port has inquiry as to the whereabouts of C. J. Baden, who was working at El Oro, Sonora, last June and has been missing since. The property of Mrs. A. Bartlett is being graded for cement sidewalks.

B. Hunter and family are here from Hermosillo for a visit. The Mexican government has added a female inspector to the customs force in Nogales, Sonora.

For the Old Fashioned Coffee was Killing.

"I always drank coffee with the rest of the family for it seemed as if there was nothing for breakfast if we did not have it on the table."

"I had been troubled for some time with my heart, which did not feel right. This trouble grew worse and worse."

"Some time it would beat fast and at other times very slowly, so that I would hardly be able to do work for an hour or two after breakfast, and if I walked up a hill it gave me a severe pain."

"I had no idea of what the trouble was until a friend suggested that perhaps it might be caused by coffee drinking. I tried leaving off the coffee and began drinking Postum. The change came quickly. I am now glad to say that I am entirely well of the heart trouble and attribute the cure to leaving off coffee and the use of Postum."

"A number of my friends have abandoned coffee and have taken up with Postum, which they are using steadily. There are some people that make Postum very weak and tasteless, but if it is boiled long enough, according to directions, it is a very delicious beverage. We have never used any of the old fashioned coffee since Postum was first started in our house."
