CHURCH SOCIETY.

Thursday night the Women's Aid society of Altura Park Presbyterian church met in business and social session, at the home of Mrs. Muedter. After the business of the evening was finished, refreshments were served and a social time enjoyed.

During the summer the Women's Aid of the First Christian church have been holding a series of "house social" meetings, which have been most enjoyable. With the coming of the cooler weather, the meetings will henceforth be held in the regular church parlors. The last of the house socials was held Thursday afternoon in the new home of Mrs. W. J. Spohn, on Espana avenue. Refreshing dainties were served at the close of a pleasant afternoon.

The organization of a new Sunday school class with Mr. Bernard as the teacher, of the First Christian church, has resulted in the desire to have regular monthly social meetings of the class and its friends, to meet at the homes of the members. The first of these meetings was enjoyed Thursday night at the home of Miss Fruit, at 225 Nevada street, about 40 being present. The evening was delightfully spent in music, and with guessing games and contests. Unexpected ability in conversation was developed in the "conversation" game, where each was permitted only three minutes in which to converse. Candy and punch were served throughout the evening, also less and cakes.

YOU CAN'T ADVANCE IF YOUR FEET HURT Speaking about advancing, it is rather slow work if you have corns. It seems that corn hurts connect directly with the brain center. You cannot do justice to your work when you have corns. Having corns also shows lack of advancement. People of advanced ideas spend 15c for a bottle of White's Corn Cure. Made, sold and guaranteed by Scott White Co., 204 Mills street. (Mail orders filled).

The "shower" given Friday afternoon in honor of Miss Nellie Leighton by Miss Constance Pateman at her home on Montana street, was a very dainty affair. The house decorations were in yellow, sunflowers being used in gorgeous profusion throughout the house. Progressive hearts made a merry game. Miss Essie Darbyshire being the fortunate winner of the first prize, and Miss Christa Fogarth of the second, the consolation going to Miss Nellie Leighton. Pretty handpainted tally cards in design of silver wedding bells were tied with yellow ribbon, and made dainty souvenirs.

After the refreshments of tea and cakes, carried out in the color plan and formed in heart shape, a lingerie bag filled with the many flirts from her friends was handed to the bride-to-be, and everyone enjoyed the pleasure of seeing the pretty "shower."

Those present were: Misses Nellie Leighton, Mazie Cole, Violet Aitkin, Louise Sanburn, Ethel Rowe, Essie Darbyshire, Gertrude Leighton, Mary Leighton, Nellie Gaillard, Meta Ormsby, Lillian Cole, Gertrude Yale, Chrysta Fogarth, Rena Shea, Mesdames C. M. Kyman and E. H. Yale.

We Are Advancing All the Time—

But Stick Strictly to the Following System

Something Worth Reading

THE early approach of the Fall season leads us to give publicity to the way we do business. We believe it will be to your advantage to read it. OCCASIONALLY a new customer complains because we won't cut a price and tells us that we are no better than other jewelers and that other jewelers will cut the price for him. To "cut" a price here is impossible, for the following reasons: WE know that it is true that some jewelers ask considerable more than they have any idea of selling the goods for, and then if they find that their customer is not "easy" they will reduce the price to the right figures. This means that the best customers—those who pay what is marked—get the worst of it and pay the highest prices, and we never have thought that this was right.

OUR idea is that all customers should pay the same price for the same article, and our theory in marking goods is to put them at such a low price that no one could possibly sell a similar article for less. IT took us some time to get the public to understand our system, but practically everyone now realizes that marked prices at the Spender Jewelry Co. mean just what they say and that they are the lowest figures to be had anywhere for the same grade of article.

SINCE this non-cutting has become recognized as a basic principle of our store, we have been able to sell goods at a smaller expense for clerk hire than would be possible had we a sliding scale of prices. This results in a decided saving to you, the customer, and we know that it pays us to save you money whenever we possibly can.

HAVING a fixed rate of profit is also good for us, for it enables us to know just what we are doing. We are not in the dark about our business and can tell just how we stand. You will find that in the end it is best to give your patronage to a house that conducts its business intelligently and knows exactly what profit they are getting and what expense they are under. Such a house will not ask one customer twice as much profit as he should pay and then sell the next customer at cost. Each customer will pay a just and right price, and, after all, we have found El Paso people satisfied when they knew that they were getting as square a deal as anyone else could get.

Our Removal Sale continues. We want to close out present stock before moving to our new quarters.
