**HASKIN ON THE PRESIDENT OF U. S.**

(Continued from previous page.)  
 felted twenty dollars collateral in the police court.  
 As far as the courts are concerned, the president may do as he pleases. There have been instances where interested parties sought to restrain him from doing certain things by injunction proceedings, and other instances where they have tried to compel him to do other things by mandamus proceedings. The courts uniformly refused to take any action restricting the discretionary power of the president. Congress and the president often have had clashes, but differences between the judiciary and the president have been few. In one instance chief justice Marshall handed down an opinion with reference to the Cherokee Indians in Georgia. It did not suit president Jackson and he declared: "John Marshall has made his decision, now let him enforce it."  
 Control of Salaries.  
 With full control over more than a billion dollars in salaries, with the right to suspend or extend the civil service regulations, the power to influence legislation by the use of patronage or resort to the veto, the direction of nine-tenths of the officials of the country, and the supervision of the expenditure of nearly four billion dollars, the president of the United States stands at the head of the list of influential leaders of the world. Since the beginning of the government his authority has grown and his influence has been extended until now he is a much more powerful executive than the framers of the constitution ever intended he should be.  
 Tomorrow—The State Department.  
 PICKPOCKETS BUST.  
 Dallas, Tex., Oct. 4.—During a circus parade Monday, pickpockets were busy. They robbed J. T. Duncan, of Dallas, of \$100, and a farmer lost a \$1200 check.

**IRRIGATION EXPERT AT CRUCES STATION**

Director of Stations Says Pamphlets Will Be Issued For Farmers.

Las Cruces, N. M., Oct. 4.—A. C. True, director of the United States experiment stations, with headquarters in Washington, D. C., has been in the city for the past three days, leaving last night for Tucson, Ariz. While here Mr. True visited the experiment station connected with the New Mexico college of agriculture and mechanic arts. He expressed himself as well pleased with the work which is being done under the supervision of director Luther Foster, and he was very agreeably surprised with the orchard and the balance of the horticultural department, which is under the direction of professor Fabian Garcia.

Mr. True states that his department, while it has nothing to do with the building of irrigation works, has been making a study of the irrigation systems in the arid regions of the United States with a view to determining how much water is wasted by bad management or through ignorance of water values, and is making extensive experiments so as to be able to give advice to the water user and show him how best to use the water and how to get the most good from the least amount. Mr. True states that so far as the investigations have gone, it has been found that at least 40 to 50 per cent of the water used for irrigation is wasted, and that if the farmer knew how to handle the water for the best result, there would be enough water carried by the streams of this country and conserved by the various reclamation projects to irrigate at least twice the acreage of land.

Mr. True's department is also studying the problems in regard to how small supplies of water, such as springs, small creeks and shallow wells can be profitably used, especially by the dry farmer. By utilizing to the most economical efficiency these small supplies the farmer on the dry farming land can always have a good orchard and a garden plot around his house which will help materially in carrying him through a bad season. The question of drainage is also one which is being taken up on a large basis by the department. This applies more specifically to the humid regions, but the department is of the opinion, backed up by experiments, that drainage in the arid regions would be of the greatest advantage. It has been found that many pieces of land which have been ruined by alkali and by flooding can be easily reclaimed and put back into good productive state by a system of underground drainage by means of a ditch. Because the irrigated regions of the west, southwest and northwest are receiving daily a great influx of eastern farmers, or those from the humid region, it has been found that 90 per cent of the failures with these new settlers is not attributable to the land, but because this humid region farmer does not know how to irrigate, when to irrigate, or how much water a crop needs. Neither does he understand how to prepare his fields and his ditches and his borders. In order to aid such people the department will put out pamphlets and bulletins intended to convey all the necessary information regarding the handling of irrigated lands and the water supply, and to distribute these among the various farmers.

**LAS CRUCES COURTS OPEN FOR TERM**

Judge Wright Presides; U. S. Grand and Petit Juries Are Empaneled.

Las Cruces, N. M., Oct. 4.—Judge Wright convened the United States and territorial courts for the third judicial district yesterday in the court house at Las Cruces. The morning was taken up with empaneling the juries, and appointing the various court officers. Pedro Gonzales was appointed clerk for the United States court and Elias Speare for the territorial court. Octaviano Perez was appointed as court interpreter, Jesus Arvizio as bailiff for the United States grand jury, Serapio Torres and Charles Geck as bailiffs for the United States court, Estevan Bagnas bailiff for the territorial grand jury, William Lerma as interpreter, and

**NEW MACHINERY IS IN USE AT COLLEGE**

New Mexico A. & M. Boys Now Have Modern Air Pump at College.

Las Cruces, N. M., Oct. 4.—The students in the engineering department of the New Mexico college of agriculture and mechanic arts have several new machines. One of these is an Ingersoll-Rand two-stage air compressor. Beside being used for class instruction and shop work, this compressor will probably be utilized in maintaining the artificial lake which will be made out upon the basement of the old Meffe hall. The plan is to use the compressor as an air-lift pump and by means of it to operate a large fountain which will be placed in the center of the lake. The expert will be an interesting one on account of the fact that air lifts have never been used in this section of the country. In the machine shop two new engine lathes have been installed and a large number of smaller instruments added to the equipment. New and improved tools are on hand for the use of the students.

**NEW USE IS MADE OF CRUCES PHONES**

Company Arranges to Notify Farmers of Weather Forecasts by Phone.

Las Cruces, N. M., Oct. 4.—Manager Thorpe, of the local exchange of the Tri-State Telephone system, states that arrangements are being made whereby the exchange will telephone to every farmer having a telephone the daily weather forecast. This plan is now being used in Colorado, where the farmers declare that it is one of the best things possible. By means of this daily service the Mesilla valley farmer will be able to cut his hay with more certainty than he is now able to do. The plan is to put off his cutting if the report shows that rain can be expected. The service will probably be installed within the next few days so that the farmers will have the benefit of it for their last cut of the year, which will come about the middle of the latter part of this month.

**LAS CRUCES DAILY RECORD.**

Las Cruces, N. M., Oct. 4.—The following deeds and other papers of record have been filed in the office of the probate clerk of Dona Ana county:

**Deeds Filed.**  
 The incorporation of Mesilla to National Cattle Co., No. 89 acres of land within the limits of the Mesilla City Colony grant. Consideration \$260.97.  
 J. T. Smith to Leo Hensch, of Santa Fe, warranty deed to lots 31, 32, 33, 34, 35, 36 and 37, in block 34, of the Sunnyside addition to the town of Las Cruces. Consideration \$1 and other valuable considerations.  
 Esquilupa Lucero to Adela F. Douglas, warranty deed to a tract of land 50 by 75 varas, situated in precinct 20, in the town of Las Cruces. Consideration \$400.  
 The board of regents of the agricultural college of New Mexico, C. P. Phelps, warranty deed to lots 7 and 8, in block 5, lying wholly in the northeast quarter of the southeast quarter of section 29, township 23, south of range 2 east. Consideration \$40.  
 H. Hollaway, of Mineral Wells, Tex., warranty deed to lots 35 and 36 in block 52, of Miller's Washington Park addition to the town of Las Cruces. Consideration \$1 and other valuable considerations.  
 L. H. Vanderwerf, of El Paso, to O. Simmons, of Mineral Wells, Tex., warranty deed to lots 7 to 12, inclusive, in block 27, of Miller's Washington Park addition to the town of Las Cruces. Consideration \$1 and other valuable considerations.  
 L. H. Vanderwerf, of El Paso, to Geo. J. Wolff, of Groom, Tex., warranty deed to lots 1 to 6, both inclusive, in block 75, and lots 13 to 24, both inclusive, in block 76, of Miller's Washington Park addition to the town of Las Cruces. Consideration \$1 and other valuable considerations.  
 L. H. Vanderwerf, of El Paso, to J. M. Phillips, of Mineral Wells, Tex., warranty deed to lots 29 and 40, in block 54, of Miller's Washington Park addition to the town of Las Cruces. Consideration \$1 and other valuable considerations.  
 L. H. Vanderwerf, of El Paso, to George W. Rapier, of Mineral Wells, Tex., warranty deed to lots 29 and 40, in block 52, of Miller's Washington Park addition to the town of Las Cruces. Consideration \$1 and other valuable considerations.  
 United States of America to Bernabe Gomez, patent under homestead certificate No. 1884, and application No. 3217, to lot 1, the west half of the northeast quarter and the southeast quarter of the northeast quarter of section 18, township 23, south of range 4 west, containing 158.84 acres.  
 Mortgage.  
 Two mortgage deeds have been filed in the probate clerk's office.  
**Birth Return.**  
 September 6—Son, born to C. T. Turney and wife, at Mesilla.

**THE FIRST STEAM PASSENGER TRAIN.**

By Rev. Thomas B. Gregory.  
 THE first steam passenger train that the world ever saw was started over the tracks of the Stockton & Darlington railway, England, 85 years ago—September 27, 1825. That wonderful man, George Stephenson, procured an act providing for the operation of a railway "with horses or otherwise," and the "other" was Stephenson had his mind on was the steam locomotive, which was to revolutionize the ages.  
 This pioneer railroad, with its three branches, was 28 miles in length. It consisted of 34 vehicles, making a gross load of 90 tons, drawn by one engine driven by Stephenson himself. One of the 34 vehicles was for passengers, the rest being used for freight.  
 George Stephenson, upon whose shoulders the whole responsibility of the great undertaking rested, was determined that all due precaution should be taken, and accordingly, the train was preceded by a signalman on a horseback. But this John Baptist, sent on ahead to announce the coming of the train, had never had to get out of the way, for the iron horse was snorting along the iron track at a speed of 15 miles an hour—a pace that was altogether too much for the other horse.  
 The passenger coach, with the appropriate name of "Experiment," carried six passengers inside and 15 outside, each passenger being allowed 15 cents for his fare and paying a fare of 1 shilling. The cost of transportation of merchandise fell from 5 pence to one-fifth of a penny per ton per mile, and the success of the steam railroad was assured.

**TUCUMCARI MAN PLANS TO BUILD PICKLE FACTORY.**

New Hotel Building Nearing Completion; Residents of West Marry; Methodists Entertain.  
 Tucumcari, N. M., Oct. 4.—William Heinz, of Nara Vista, says that with the present success in farming in this neighborhood, it is his intention to establish a pickle plant here. Mr. Heinz is said to be a nephew of the well-known pickle man, and considers this a good place to open such a plant.  
 C. W. Harrison, former president of the International Bank of Commerce, has gone to Pueblo, Colo., where he recently purchased the Bank of Commerce. He will make that his future home as he has disposed of all of his holdings in this city.  
 The framework is about all in for the new addition to the Cover hotel. As soon as the roof is completed, the connecting opening will be made with the old building and remodeling of that structure will begin. New furnishings will be used throughout.  
 Eurlie West and Annie Lobley of West, N. M., were married at the parsonage of the M. E. church south, the Rev. Chas. L. Brooks officiating. They returned once to the home of their parents.  
 The Methodist church gave an entertainment at the Arcade theater for the benefit of the church. Among those on the program were Mrs. R. C. Stubbins with a vocal solo, and Miss Koch with a violin selection.  
 Postoffice inspector Clark, of Austin, Texas, is in the city attending federal court.

**BILLIARD TOURNEY AT CRUCES.**

Las Cruces, N. M., Oct. 4.—A billiard tournament has been arranged among the players of Las Cruces, eight teams to compete. The games will be played at the Mission pool and billiard hall and the owners of that place have put up a silver trophy cup to go to the winning team. The cup is now on exhibition.

**EL PASO THEATER OPENS OCT. 4.**

Grand concert El Paso Theater October 4; benefit Humane society. Tickets 50 and 75 cents. Usual place.  
**DANDRUFF AND ITCHING SCALP YIELD TO THIS TREATMENT**  
 Why experiment trying to drive the dandruff germ from underneath the skin with greasy lotions or fancy hairdressing, when the Knoblauch Drug Store will guarantee ZEMO and ZEMO SOAP will entirely rid the scalp of the germ life that causes the trouble.  
 ZEMO and ZEMO SOAP can be obtained in any city or town in America and are recognized the best and most economical treatment for all affections of the skin or scalp whether on infant or grown person. One shampoo with ZEMO SOAP and application of ZEMO will stop itching and cleanse the scalp of dandruff and seborrhea.  
 We invite you to try ZEMO and ZEMO

**IRON BAR CRUSHES MAN'S HAND AT ENGLE DAM.**

Las Cruces, N. M., Oct. 4.—Jeff Lewis, who is employed at the Elephant Butte dam at Engle, is suffering from a badly crushed hand, the result of a steel bar falling upon him. The bar is one that is being used in the bed of the river as a preliminary dam work and it weighed 300 pounds. In handling it so as to get it into place, it slipped and fell, catching Lewis' right hand. It struck the ground. Although no bones were broken, the flesh was cut away so as to expose the bones and Mr. Lewis had the injury treated here yesterday in order to avoid hospital.

**LAS CRUCES HOTEL ARRIVALS.**

Las Cruces, N. M., Oct. 4.—Arrivals at the Don Bernardo hotel: H. W. Clark, Las Vegas; A. Ellis Barnes, New York City; B. Welch, El Paso; F. J. Conlan, Fort Bayard; J. F. Lewis, Kansas City; Charles Herrick, Denver; W. J. Patterson, Albuquerque; D. E. Connor, El Paso; J. A. Quinn, Iowa, Ohio; S. D. Wilson, Chicago; J. H. Wallis, El Paso; C. L. Keep, El Paso; J. P. Lawler, El Paso; H. K. DuBois, El Paso; L. Levinson, Dragoon, Ariz.; Charles DeWoody, Washington, D. C.; J. H. Smith, Albuquerque; C. E. Newcomb, Albuquerque; E. P. Rankin Jr., El Paso; E. C. Lewis, Denver.

**GAME WARDEN NAMED.**

La Mesa, N. M., Oct. 4.—Thos. P. Gable, territorial game and fish warden, has appointed Gen. E. J. Viljoen, of La Mesa, a deputy game and fish warden for the territory, with headquarters at La Mesa, with power also to issue licenses for the convenience of those who can not go to Las Cruces. Mr. Gable issued severe instructions that the deputy warden should act strictly and without fear or favor.  
 Harry Hannum, of San Miguel, is quite ill.  
 The community ditches are all being dug for next spring and everybody is kept busy.

**WOMAN'S CHARITY ELECTS OFFICERS**

Report of Treasurer Shows Large Balance on Hand For Ensuing Year.

Monday afternoon the members of the Women's Charity association met at the Y. M. C. A. for the purpose of holding their regular annual election and selected the following officers for the ensuing year: President, Mrs. Van C. Wilson; first vice president, Mrs. W. R. Brown; second vice president, Mrs. James C. Lackland; treasurer, Mrs. Thomas Neal; secretary, Mrs. R. C. Canby.  
 The annual report of the treasurer, which shows a balance on hand amounting to \$995.83, was submitted by Mrs. Wm. H. F. Judd, the retiring treasurer, and received with applause. It showed that while the association during the past year had started with a balance of only \$161.91, yet it had been able to attend to many cases of want and had made large disbursements, but still was able to turn over a goodly sum on which to commence the winter work this year. The treasurer's report for the 12 months ending Sept. 30, follows:

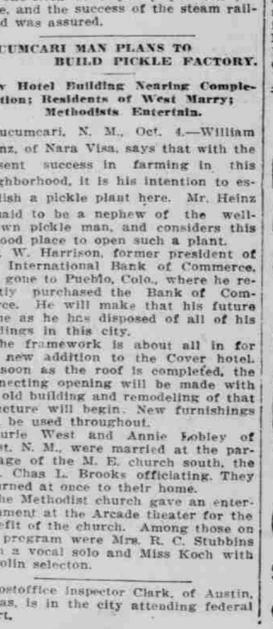

Balance on hand	\$ 161.91
Receipts:	
City of El Paso	\$ 260.00
County of El Paso	800.00
Refunds	1,350.16
Charity Ball	1,244.00
Subscriptions	967.30
Dues	690.75
	5,312.21
	\$5,474.12
Disbursements:	
Pensions	\$ 85.00
Transportations	813.95
Relief	621.77
Groceries and meat	871.37
Milk	122.89
Fuel	76.10
Medical Expenses	289.03
Salaries	1,232.00
Office Expenses	124.55
Telephone, telegraph and express	143.68
Charity Ball	76.00
Contribution boxes	22.00
	4,478.29
Balance on hand	995.83
	\$5,474.12

**Y. W. C. A. GYM CLASSES ARE OPEN**

New Feature for the Young Women Is Inaugurated Tuesday.  
 Season of gymnastic activity of the Y. W. C. A. begins today. Classes are being organized by Miss Ruth Wilbur Davis, physical director, and the committee on physical education. Morning classes will be held Tuesdays and Thursdays at 10 o'clock. Time of the evening classes has not been set. The girls' class will meet Saturday mornings at 10 o'clock, and the Juniors at 9 o'clock Saturday mornings. Following is the committee in charge: Dr. M. I. Hill, chairman; Mrs. Geo. R. LeBaron, Miss Wanda Race, Miss Katherine Poake, Miss Chloe Calhoun, Miss Mabel Falvey.

**LETTERS To the HERALD**

(All communications must bear the signature of the writer, but the name will not be published where such a request is made.)  
**EL PASO'S WATER SUPPLY.**  
 El Paso, Tex., Oct. 3.  
 Editor El Paso Herald:  
 In your issue of Saturday, October 2, Mr. Martin Fishback discusses a plan for supplying El Paso with water from the Sacramento river. This stream is called a river by courtesy. It is a very small ravine running down a very narrow valley. There is not, never has been and never will be sufficient water in the Sacramento, for the needs of El Paso.  
 Quantity and quality considered, the most available water supply lies under the ground immediately surrounding El Paso. Yours truly,  
 J. L. Campbell.

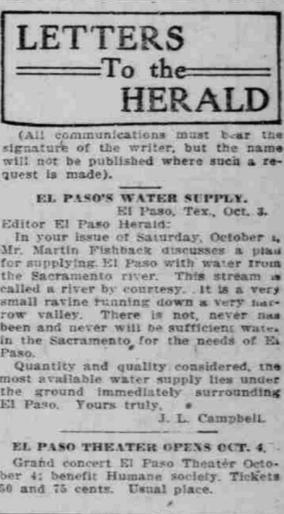

**WOMAN'S CHARITY ELECTS OFFICERS**

Report of Treasurer Shows Large Balance on Hand For Ensuing Year.  
 Monday afternoon the members of the Women's Charity association met at the Y. M. C. A. for the purpose of holding their regular annual election and selected the following officers for the ensuing year: President, Mrs. Van C. Wilson; first vice president, Mrs. W. R. Brown; second vice president, Mrs. James C. Lackland; treasurer, Mrs. Thomas Neal; secretary, Mrs. R. C. Canby.  
 The annual report of the treasurer, which shows a balance on hand amounting to \$995.83, was submitted by Mrs. Wm. H. F. Judd, the retiring treasurer, and received with applause. It showed that while the association during the past year had started with a balance of only \$161.91, yet it had been able to attend to many cases of want and had made large disbursements, but still was able to turn over a goodly sum on which to commence the winter work this year. The treasurer's report for the 12 months ending Sept. 30, follows:

**Silence!**

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indecicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.  
 It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.  
 Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.  
**It Makes Weak Women Strong, Sick Women Well.**  
 You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of KNOWN COMPOSITION.
