

WORK OF THE SHELTON IS TO BE OPEN BY CHRISTMAS

Furnishings of New Hotel Are of the Finest—Workmen Rushing the Job.

IS TO BE OPEN BY CHRISTMAS

The white marble workers are rapidly converting the lobby and basement of the rebuilt Hotel Sheldon into a place of beauty.

It will be a transformation that will astonish most El Pasoans when the task is completed.

All the interior woodwork is being done in white and the walls are being papered and painted in light colors.

Many additional bathrooms have been installed and every stick of furniture and every foot of carpet and drapery is new.

The lobby and basement are being finished in marble wallcovering with the floors.

One of the modern features will be a rest room and waiting room and toilet on the first floor for women.

The new fast elevator has already been installed to lead from the lobby to the rooms above.

Both entrances will have big cement columns supporting the porticos and the main entrance on Pioneer plaza will have wide marble steps leading up from the sidewalk.

The lobby office will have few partitions in point of elegance in the entire country.

At the American National the rubbernecks are given a free exhibition of ground and lofty terra cotta work.

The bricklayers are putting the final layer of terra cotta on the bank building and it is necessary for them to do all kinds of acrobatic stunts to get the big pieces in place.

CLAIM COURT METHOD IS TOO SLOW

Local Lawyers Plan Asking For New Judicial Procedure Here.

THINK MORE CASES SHOULD BE HEARD

Considerable dissatisfaction is being expressed by a number of local attorneys over the fact that they are unable to obtain hearings in cases pending in the 24th and 41st district courts.

Under the present arrangement, the cases are set for hearing by a committee of lawyers selected from the membership of the bar.

Ordinarily, the hearing of one case, or two at least, furnishes more than enough work for one week.

ARMY BOARD PREPARING REPORTS

Delighted With Salt River and Elephant Butte Irrigation Projects.

WILL BE NO SCARCITY OF FUNDS FOR WORK

Washington, D. C., Nov. 19.—Gen. Marshall, the board of army engineers and director Newell, speak only in words of the greatest satisfaction over their long trip of inspection.

All speak in the highest terms at what they saw and the reception received at the Salt River project in Arizona and at the Rio Grande project in New Mexico.

The army board is very busy and working early and late in preparing reports to the secretary of the interior.

The Salt River project was a source of special gratification, where it was demonstrated during the last season that had it not been for the dam there would have been a serious damage to crops.

On the Rio Grande project there will be a great saving over the Salt River project owing to the fact of having railroad transportation instead of by wagon.

OIL TRUST DODGING A TEXAS FINE, SHIPS OIL AROUND EL PASO

Because the state of Texas had a judgment of several millions against the Standard Oil company, all the oil which was shipped to Douglas and Bisbee has been routed by way of the Santa Fe to Deming, and from there over the Southwestern in order to avoid having the tank cars which are owned by the Standard, pass through Texas.

RACETRACK GAMBLERS OFFERED BIG BRIBES

New York, N. Y., Nov. 19.—One hundred thousand dollars to vote against the anti-race track betting bills in 1908 was offered to state senator Eugene M. Travis of Brooklyn, so he swore on the stand Friday, testifying before the legislative commission.

A mysterious little man, whose name he does not recall, made the offer in the lobby of the senate, he said, in behalf of former senator Frank J. Gardner.

Gardner is now under indictment, charged with having attempted similarly, though with a smaller amount, to influence Otto G. Folker of Brooklyn, now a congressman, but then a senator.

As did Travis, and it was passed, notwithstanding the frantic efforts of the race track interests and the alleged use of a fund which previous testimony has placed at \$500,000.
