## RECALL GOES INTO ARIZONA LAWS

The Measure Is Extended Even to the Judiciary by Constitutional Convention

### ALL PAPERS ARE OPPOSED TO IT

Phoenix, Ariz., Dec. 1.—The constitutional convention adopted the recall including the judiciary this morning. The vote was 35 to 11. All Republicans and three Democrats voted against it.

The proposition for a separate submission of the recall was defeated. This was the bitterest fight of all. The judiciary recall is opposed by every paper in the territory save the Arizona Gazette, insurgent Republican, at Phoenix, and the Daily Globe, Democrat, at Globe.

### FIND CHILD'S DOG IN DEBRIS OF FIRE

Little Girl's Pet, Crippled by Wagon, Loses Life in Tent Blaze.

Frances Bedford, 9 years of age, had a dog. It was a little white dog, and Frances Bedford, aged 9, was very, very fond of her dog.

The little white dog came to the little girl's home and just made its home there.

A few weeks ago there was a runaway in the neighborhood, and the little dog was run down by the wheels of a delivery wagon. The horse was killed in the runaway, while the little dog received some broken bones and became a cripple.

After the accident, little Frances carried a hospital at the rear of her home at 605 Mesa avenue. The injured dog was nursed in a tent.

There was a fire at the rear of the little girl's home Wednesday afternoon, and the tent was burned to the ground. After the firemen had gone away, some children playing in the puddles of water about the debris of the tent found the body of a little dog.

So it was that Frances Bedford, playing with the tent, found what remained of her little white dog. She leaned over the charred body and wept.

The little dog no longer was white. It was a little black dog.

## INSURRECTOS CONTROL TO TOWNS ALONG LINE OF CHIHUAHUA AND PACIFIC SAID TO BE IN THEIR HANDS.

Towns Along Line of Chihuahua and Pacific Said to Be in Their Hands.

### GUERRERO HAS BEEN RECAPTURED

It is certain from all reports received from reliable sources, that the whole section covered by the Mexico North Western division between the city of Chihuahua and Madera is in the hands of insurrectionary forces.

The first train of a week from Madera arrived in Chihuahua Wednesday, bringing news of the movements of the forces. Since the battle near Chihuahua Sunday no move has been made by either side, but the lull appears only to be the wait for federal troops. In the meantime the insurrectos are drilling on the table lands, and picking men to handle the rifles in their possession.

The district in arms, but quite orderly and well governed, lies along the North Western from a short distance below the city of Chihuahua, where the hills begin, to Madera, the terminal of the road. At La Junta, where the road makes a detour, 20 soldiers are held captive. The only federal troops in the district are at Guerrero, which is soon to be the scene of fighting. They number 25 men, Wednesday morning a force of nearly 300 insurrectos departed from Madera with intent of capturing Guerrero, which lies off the road many miles from the railroad.

Soldiers Reported Lost. Many reports have reached El Paso of the loss of a detachment of soldiers sent into this territory. Only four of the men returned to the city. They could not tell whether their fellows had been killed, captured or deserted. It is said. Since the battle of Sunday, the federal troops have made no rally into the territory in arms.

Perfect order is reported as existing in the district and every indication is that the officers in charge of the insurrectionary forces are practical men. No Americans have been molested. As the result of conference with representatives from the unidentified commander of the insurrectos, the Mexico North Western has been permitted to run its trains to and from Chihuahua.

American Not Molested. A. S. Hovren, engineer of maintenance of way for the North Western, arrived in El Paso Thursday morning. While making no comment on conditions generally, he said:

"We ran some freight trains Tuesday. They were stopped at many points, but no harm was done. The first passenger train of just a week arrived in Chihuahua Wednesday. The train was not molested. We are sure that no carry federal troops.

"I can safely say that no Americans will be molested in any way. I have seen many instances where could have been stolen. Not one act of violence or theft has been done that I have heard of."

T. R. Ryan, traffic manager of the North Western, is also a visitor in the city.

### Passengers Bring Reports.

The first train out of Madera in more than a week departed Wednesday morning, arriving from the engine, and at every point only kindness and consideration greeted the travelers. The passengers declare that every point but one on the Mexico North Western line, of which Madera is the present terminus, is held by the insurrectos. The number of fighting men in arms is only speculative, but it appears to be rapidly increasing, passengers say.

One point, retaken and now held by the federal forces, is Guerrero. When the train left Madera a force of 175 men were starting to march on that point. The number of the government forces there is not known. At La Junta 26 federal soldiers are held captive, it is stated.

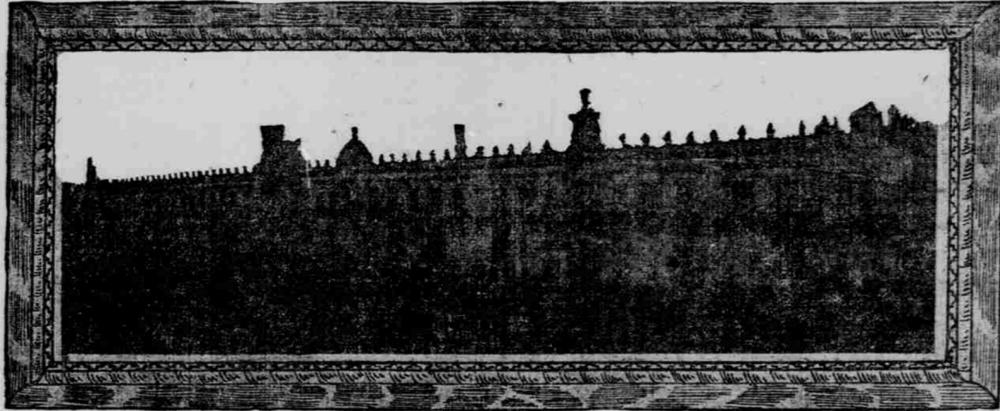

Americans need have no fear from anybody," said one of the travelers. "The revolutionists are very considerate. I talked with many of the officers. We have had no news in Madera for a week, no papers or anything. So much that we hear is rumor that it is difficult to get the truth."

Much Fighting. "There seems to have been much fighting. We saw many wounded men coming through. I saw an insurgent officer who carried a private's rifle, a captain's sword and rode a colonel's horse. I heard that the insurrectos broke into a store in a little town on the line and stole some dynamite. Next day an insurgent officer went into the store and insisted on paying for the powder and the locks that were broken."

There are about 250 Americans at Madera, and 30 or 40 at Dolores. Yet a few boarded the first train out of the district. This seems to prove no fear of the insurrectos in power there.

### SHERIFF FINDS ALL QUIET ABOUT CHISOS

Marfa, Texas, Dec. 1.—Sheriff J. B. Walton, of Brewster county, and superintendent Hawley, of the mines at Chisos, Texas, phoned in this morning from the Chisos mining camp at Terlingua that there was absolutely no truth in report concerning armed insurrectos at or near that camp.

There has been no trouble there and so far as known none in the "big bend" anywhere.

Sheriff Walton was called to Chisos yesterday on a telephone message and made a hard ride to the place overnight, only to find no trouble and his services not required.

It is believed that the Mexicans seen near Chisos yesterday came across the border to steal horses to be used by the insurrectos.

Sheriff Walton and his deputies will remain at the border for a few days until they are sure that everything will be safe.

### MATAMORAS IS NOT CUT OFF

Laredo, Tex., Dec. 1.—Telegraphic communication with the town of Matamoros, Mexico, which was interrupted Tuesday night, has been restored and conditions in that vicinity are reported tranquil.

An order issued by the commanding officer a week ago prohibiting all United States soldiers from crossing over to the Mexican side of the river, has been rescinded.

Everything is quiet along the border.

### FULL CONFIDENCE IN GOVERNMENT

Citizens of Juarez Send Telegram to Federal Government.

Action which probably will result in like manner throughout the state of Chihuahua was preceded by the common council of Ciudad Juarez at its regular meeting Wednesday.

Strong resolutions were adopted to condemn the disorders in Mexico, and to assure faith in the strength and justice of the government. The resolutions in toto were telegraphed to Ramon Corral, secretary of the interior of Mexico, with request that they be transmitted to the president.

It was suggested that other cities of the state take similar action. A translation of the telegram follows:

"Taking into consideration the wrongs that are done the country by the few insurrectionists of the public peace that have raised in arms for different excuses tending to disturb the peace and order; that our first magistrate of the republic, president general Porfirio Diaz, who is known to have led the destinies of the nation developing our elements of progress and maintaining the peace and tranquility for so many years, that having passed the period of the electoral struggle and having been designated by public vote as president, and Don Ramon Corral as vice president, it is the duty of all citizens to sustain the constituted order being likewise anti-patriotic and illegal the rise to arms being from any pretension at all against the constituted authorities; the honorable city council in usual meeting which took place today have accorded the following:

"First—To solemnly protest against any disturbance made without any foundation and for the only object of disorder.

"Second—To express a vote of confidence to the first magistrate of the nation, declaring for his kind of government, the honest neighborhood of this municipality manifesting its respect to the law and to the authorities.

"Fourth—To consider of great importance the said resolutions and to call on all the city councils of the state with the object of their seconding in this manifestation if they consider it convenient.

"Fifth—To communicate this resolution by wire to the secretary of the interior, begging him to elevate this to the knowledge of the president of the republic.

"Francisco Portillo, 'Jefe Politico.' Mrs. Geo. Rogers and daughter have arrived from San Antonio to join Mr. Rogers, assistant chief clerk in the railway mail service.

### Ceremonies Are Simple Owing to Fact of the Insurrection.

Mexico City, Mex., Dec. 1.—For the eighth time, Porfirio Diaz today took the oath of president of Mexico, and, although already holding the world's record for length of service as the ruler of a nation embracing the re-

necessarily be to me a great stimulus. The Mexican public continues to honor me with the confidence with which for many years they have distinguished me and I shall continue to consecrate all my attention and all my energies to peace and the cause of national progress."

No Festivities. In view of the recent disturbances, the inauguration was not marked by the festivities that have accompanied it in former years, but was conducted with the same formal dignity and impressiveness.

The ceremonies occurred at 10 o'clock this morning in the hall of the Palace of Mines, where the chamber of deputies has been holding its sessions pending the completion of its new home. Only the diplomatic corps and a few other distinguished persons, in addition to the high Mexican officials, attended.

Following the induction of president Diaz, the oath was administered to Ramon Corral, reelected to the vice presidency.

The president and vice president then proceeded to the national palace, where they received the congratulations of the diplomats, government officials and private delegations.

Torreon Caution. Torreon, Mex., Dec. 1.—Official celebration of the inauguration of president Diaz and vice president Corral was held at the municipal palace here today. The authorities exercised the greatest vigilance to guard against any surprise.

The roads leading into Torreon are guarded by rurales and the jefe politico of both this city and Gomez Palacio made ample preparations to stop any demonstration.

With the day safely passed, a feeling of relief will be experienced, however, in this vicinity.

### DR. COOK'S STORY WAS HARD TO SELL

Slipped Over to America From London to Peddle His Writings.

New York, N. Y., Dec. 1.—Dr. Frederick A. Cook, who now confesses that he does not know whether or not he reached the north pole, had no easy task in disposing of what he describes as "the story of Cook's trip to the north pole." According to reports from London.

The Brooklyn explorer, it is stated, is living in the seclusion of an obscure boarding house in Bloomsbury, a London suburb, and there wrote the story which he hopes will restore him to a degree of favor in this country.

It appears that for weeks Dr. Cook, eager to return to his home in Brooklyn, tried unsuccessfully to sell the story for \$1000 to London publishers.

It was learned today that Dr. Cook came to the United States by way of Canada early in November and concluded arrangements with the magazine for the publication of his story.

### MEXICAN LOSS IS REPORTED HEAVY

Battle Occurs 50 Miles West of Chihuahua on Line Held by the Insurrectos.

MANY TROOPS NOT ACCOUNTED FOR

Mexican Government Says Nine of Its Men and 27 Insurgents Met Death.

Chihuahua, Mex., Dec. 1.—Just how great the loss of life in the last battle fought in the present insurrection is not known; there are many rumors of heavier losses than the government admits.

The clash took place Tuesday at Pedernales, 50 miles west of here between 150 government troops and a somewhat larger body of insurrectos.

The soldiers are said to have been fired upon from roofs and windows, while marching through the streets of the town. Passengers arriving last night by train declare that those of the government forces who were not killed or wounded were taken prisoner.

Talk among the soldiers at the barracks is of the same tenor, but Gen. Plata, in command of this military zone, states that his report has it that only nine of the government soldiers were killed and that 27 of the insurrectos were slain.

Pedernales is located on the line of the Kansas City, Mexico & Orient road, between Casca Colorado and Faras, and is only a small station.

It is admitted here that the entire railroad line is in the hands of insurrectos.

### MEXICAN LABORERS DO NOT WANT WORK

Hundreds of Them Passing Through Decline Good Offers Here.

It may be that the insurrection in Mexico has nothing to do with it, but there is a great demand for Mexican labor in El Paso and the demand cannot be filled. This is the time of year when the Mexican laborer who has worked in Kansas or Colorado is on his way home. The exodus appears to be normal for this period from the United States immigration reports.

But labor agents declare that never before have the Mexicans passing through this city been so unwilling to work. There is a demand for men on the Southern Pacific in California, while the Santa Fe needs hands in Oklahoma. Instead of \$1 or \$1.25, from \$1.50 to \$2 is being offered for special work. Still the workmen who are flocking into Mexico refused to be stopped by the agents who would ship them into profitable territory.

Since the fall and early winter has not been especially cold; the reason is a matter of speculation. Insurrectionary agitators have had easy access at the Mexican laborers while they have been sojourning in the United States, and it is believed by many that the workmen now are proceeding home, filled with the spirit of revolt.

### UPRISING REPORTED NOW IN YUCATAN

Mexico City, Mex., Dec. 1.—Fifty government troops were killed and a large number wounded in an uprising in Yucatan, according to dispatches received here. The reports say a large quantity of arms and ammunition was captured by the Indians.

The 29th cavalry was sent from here to Yucatan and the 14th cavalry was sent to Chihuahua, where revolutionists have fled to the mountains. Madero is said to be with them and another battle between the government troops and the revolutionists is anticipated soon, as a large number of federal troops are searching for Madero. Many arrests have been made.

No details have been received of the Yucatan insurrection, as the government has taken the wires for official business.

It is predicted that the government will succeed in eventually throttling the revolt, but quiet will not be restored for some time—at least not as long as Madero is free.

Everything is quiet here in the city. The troops are on guard day and night.
