

MAKES TURNIPS PAY ON IRRIGATED LAND

Fort Stockton Man Makes \$600 on One-Fourth Acre of Turnips.

Fort Stockton, Texas, Dec. 10.—The most remarkable crop ever known on the irrigated lands near here, is a crop of turnips grown by W. B. Hubbard, who lives about three miles north of town.

RETURN FROM OKLAHOMA TO MAKE CROPS IN NEW MEXICO

Tucumcari, N. M., Dec. 10.—W. A. and J. P. Walter, of Sepulpa, Oklahoma, B. H. Ninemier and L. P. Fritsell, of Shawnee, Oklahoma, J. A. Young, of Erick, Oklahoma, and Ed. Ely, of Kingfisher, Oklahoma, are among those returning to Quay county claims in order to get the land ready for spring crops.

FARMERS AT FT. SUMNER ARE TRYING BEE CULTURE

Fort Sumner, N. M., Dec. 10.—A number of the farmers here have sown wheat, bees are being brought into the valley, and other enterprising farmers are preparing to try out various other things.

SELLS HIS APPLE CROP IN PORTALES FOR \$250 A BOX

Portales, N. M., Dec. 10.—J. P. Morgan, who lives west of town, brought in some apples that were raised on his place, which brought him \$2.50 per box. They were pronounced superior in flavor to Pecos valley apples, while his orchard will compare favorably with anything in New Mexico.

SHIP 750 CARS OF ALFALFA DURING YEAR FROM ANTHONY

Anthony, N. M., Dec. 10.—Secretary Bowden, of the Berino-Anthony Farmers' association, reports 750 carloads of alfalfa shipped during the season and estimates 1500 carloads for next season in view of increased acreage this year.

RAISES 1000 TONS OF HAY

Hibber, Ariz., Dec. 10.—The hay crop of the Warren ranch has been found to total 1000 tons, or 25,000 bales.

HEAVY SHIPMENTS MADE FROM ALPINE

Train Loads of Cattle Are Being Sent to Fort Worth.

Alpine, Tex., Dec. 10.—Eugene Parr shipped one car of calves to Fort Worth, and A. S. Gage eight cars of mixed cattle to the same market.

PIMA CATTLE BRING IN NEARLY MILLION

Tucson, Ariz., Dec. 10.—During the past 12 months the cattle industry of Pima county has netted the owners \$42,850, which does not include cattle butchered for local use.

PREPARING FOR MEETING OF CATTLEMEN NEXT MARCH

Dalhart, Tex., Dec. 10.—The cattlemen's convention to be held here in March is being arranged for by the committee in charge, Judge W. B. Slaughter, president of the First National bank, an old time cowman, and a successful business man, will be at the head of the convention, assisted by the business men and will have the city in shape to give the visiting cattle men and their friends the time of their life.

SHIPPING ALTO CATTLE TO KANSAS CITY MARKET

Alto, N. M., Dec. 10.—Watt and Matt Gilmore have left with several carloads of cattle to be loaded at Carrizozo for Kansas City markets. W. L. Rutherford, of Alamogordo, is the purchaser of the cattle.

BIG SHIPMENTS WILL BE MADE BY ODESSA CATTLEMEN

Odessa, Tex., Dec. 10.—J. T. McElroy is arranging to ship about 3000 head of cattle from this place this month.

ELECTED BY CATTLEMEN

Tombstone, Ariz., Dec. 10.—William Riggs, of Dos Cabezas, has been elected first vice-president of the Arizona Cattle Growers' association.

MARFA SHIPMENTS

Marfa, Tex., Dec. 10.—J. K. Brown has shipped three cars of cows and calves to Fort Worth.

AFFIRMS DECISION IN MOCK GUNG CASE

U. S. Goen received a telegram Friday from New Orleans stating that the United States circuit court of appeals had affirmed the decision of Judge T. S. Maxey in the case of Mock Gung, whom Maxey had ordered released.

By Request we repeat our How to Prevent Having Consumption and Cancer, with quotations from President Von Czerny's inaugural address at International Conference for the Study of Cancers at Paris in October. Published in New York Medical Record of December third. Which verifies our idea of cancers and shows the inability of the medical world to cope with it and consumption, and that there ought to be a law forbidding the giving of any more drugs.

How To Keep From Having Consumption Or Cancers

Since thirty-five per cent of the deaths in Iowa, Illinois and Minnesota are from these diseases and the greatest per cent of cancers come from the lumbermen and the wealthy, we must look for some other cause than poverty and close confinement for their cause. On account of the vast increase of these diseases it proves the tubercular conference of doctors have signally failed to find the cause and preventative.

Pres. Von Czerny

How to Keep From Having Consumption and Cancer. My cousin, one of the leading physicians of Kentucky, says more consumption is caused by paralyzing the nerves to the lungs with cough medicines than from any other cause. That is, after they have eaten so much that the kidneys are stopped up and can no longer purify the blood. Now, we know this is true, from the fact that consumption and cancers do not attack stock on the ranges where food is at times scarce and where they are not valuable enough that they are doped for every ailment, but among high priced stock, where they are stuffed and then given drugs to make the organs work off the excess they also become consumptive and cancerous and the same is true among people who live away from civilization where no drugs are taken. Such a thing as cancer and tuberculosis is unknown. All anyone needs to do is eat temperately according to the amount of physical exercise you take. Take no drugs but have an Osteopath free the nerves so the circulation will become normal in whatever part drugs have weakened the nerve to, and you will be restored to normal health and can never contract cancer or tuberculosis. I will present any one with a thousand dollars who will contract either of these diseases without taking drugs, unless by injury. The blood often tries to purify itself by means of sores, such as varicose veins, hemorrhoids, eczema and various boils and ulcers, which have been caused by the taking of drugs until they have paralyzed and weakened the nerves and poor circulation is the result. Now, these sores help rest the kidneys and lungs by carrying out the impurities. Now, if these are healed up by salves and so-called blood purifiers, which only whip up the exhausted nerves for a time until these sores heal up, then they have no means of escape and consumption is always the result. An Osteopath always frees the nerve to these parts so no more stagnant blood can accumulate. Then the sores heal up themselves. That is why we have cured 6000 in El Paso of every kind of disease and only lost six, while the medical doctors have lost 7000 in the same length of time. If you want to die a premature death in El Paso it is your own fault. For nothing but prejudice and listening to medical doctors that we are taking all the patients away from, keeps you suffering and dying in El Paso. For the Dr. A. T. Still Osteopathic Infirmary has so clearly demonstrated the fact that we can cure by the greatest percent ever known, and that after the nerves have been so deadened by poisonous drugs that it takes us a long time to restore them. While in acute diseases Osteopathy works like lightning—as in the case of spinal meningitis in Rev. Robert's son, and in typhoid fever, etc. Just read what the Notary Public says about it who took the statements of all these good El Paso people who have been cured of every kind of troubles: INVESTIGATION OF THE PATIENTS OF THE DR. A. T. STILL

How to Keep From Having Consumption and Cancer.

anything else in life, we would all be a long lived, healthy people. For instance, when your arm is tired from writing several letters, do you force it to write more until it cramps and becomes paralyzed, or do you rest it? You simply rest it, of course. When you have eaten meat until the liver can furnish no more bile to digest it, do you cease eating so much meat and rest the liver, or do you take some kind of stimulant or poison like calomel until you burn and irritate all the organs into ulcers, until the nerves are exhausted and paralyzed at the spine? Then when these nerves are paralyzed, poor circulation is the result and stagnant blood naturally accumulates. Now this stagnant blood overtaxes the kidneys, doesn't it? Now, the person who stimulates these deadened nerves up by the use of whiskey, wines, peppers and mineral waters, they generate cancers either of liver or bladder, or female organs. That is why Rockefeller Institute for Cancers says they usually come from a well-to-do class of people who use stimulants and mineral waters, and from the lumbermen who use whiskey for every ailment. Now, ladies, after using some kind of physics until nerves are exhausted to digestive organs, have prolapsus or a flabby condition of digestive organs until they rest on the bladder and other organs and press them down and misplace them and then when they are so twisted and pressed on until they cannot empty themselves they whip them up with ergot and quinine and various poisons. This ergot is a poison from shriveled rye and it rots the blood vessels the same as quinine. Then these blood vessels burst when they whip up the nerve to them with some kind of stimulant or poison, and this forms ulcers, and when the nerve is paralyzed at the spine forms running sores and cancers. Rockefeller Institute says all cancers are formed from irritations and exhausted nerves. All drugs irritate and exhaust nerves and thus form cancers. Now you will notice that these well-to-do people and lumbermen have a chance to get plenty of fresh air, so this stagnant blood cannot attack the lungs. Now, in Iowa and Illinois, and other agricultural states, and among the mechanics, 25 percent of whom die with consumption, a different condition exists. Now, these farmers in the winter sit around the fire in close rooms and eat as heartily as when at hard work and the mechanics do the same. This soon chokes the kidneys with carrying off too much waste material. Then the blood becomes impure and so much of this rushes to the lungs and they begin to pour down the cough medicine and paralyze the nerve to the lung so the cough which was keeping the lungs active and free when the nerve is deadened by the cough medicine ceases and they fill up and lung trouble is the result.

OSTEOPATHIC INFIRMARY, UNDER DR. IRA W. COLLINS, BY A NOTARY PUBLIC, MEETS WITH THE FOLLOWING RESULTS IN FAVOR OF DR. IRA W. COLLINS.

This certifies that I, G. L. Hannan, am a notary public in and for El Paso County, State of Texas, and that I took the statements of the leading people of El Paso who had been treated at the Dr. A. T. Still Osteopathic Infirmary under Dr. Ira W. Collins, for nearly every disease you can think of, and they verified the fact that they were cured, and were enthusiastic in praise of the Osteopathic treatment. G. L. Hannan, Notary Public in and for El Paso County. Subscribed and sworn to before me, this 26th day of October, A. D. 1910. A. S. Thurmond, Notary Public in and for El Paso County.

CATARRH.

I took the statements of catarrhal patients, who had shed the adenoids, and some who had had large mastoid abscesses, and all were cured.

FITS.

I took the statements of those who had had fits, and they are now perfectly well and were loud in praises of the treatment.

CONSUMPTION.

I took the statements of consumptives and others formerly afflicted with throat troubles, and they are now perfectly well and had been for years.

ASTHMA.

I took the statements of asthmatics who had been given up by physicians, and they are now well.

BLINDNESS.

I took the statement of a lady who had been afflicted with blindness and others who had been treated for other eye troubles, and who can now see to read and are perfectly well.

FEMALE DISEASES.

I took the statements of ladies who had suffered with female diseases; they are now strong and well, and some of them had continued so for years, since taking treatment. They were all enthusiastic in its praise. No operations given in any instance. Tumors had been shed by several.

DEAFNESS.

I took the statements of the deaf, who can now hear as well as any one else.

PARALYSIS.

I took the statements of paralytics who can now use their limbs perfectly.

BRIGHT'S DISEASE.

I took the statements of people who had Bright's Disease in their families, who had been given up by physicians and after treatment by Dr. Collins, were wonderfully cured.

RHEUMATISM.

I took the statements of those who

had suffered with several different kinds of rheumatism, and they claim that they are now perfectly well and have never had it since—in one instance the patient had been treated eight years ago without having had a return of the disease.

SPINAL MENINGITIS.

I took the statement of those who formerly suffered with spinal meningitis, and they were loud in their praises of the treatment.

CHILDREN'S DISEASES.

I took the statement of mothers whose children were cured of all kinds of children's diseases, and they were enthusiastic in their praise of the Osteopathic treatment.

TUBERCULAR AND SHRIVELED LIMBS.

I took the statement of mothers whose children had been crippled for years with tubercular and shriveled limbs, who have recovered so completely that they say that no one could tell which limb it was. One young lady assured me that she had been a cripple for nine years, and would still be so, but for Dr. Collins's treatment.

TYPHOID FEVER.

I took the statements of those who had gone through typhoid fever, and all were loud in their praise of the treatment of Dr. Collins which had cured them.

SCARLET FEVER.

I took the statement of mothers who had children cured of this dreaded disease by the Osteopathic treatment, and they were enthusiastic in its praise.

BLOOD POISONING AND OLD SORES.

I took the statement of those who had had blood poisoning ranging from nail in foot to old sores of several years' standing, and it was remarkable how well they recovered after trying all other kinds of remedies.

NEURALGIA AND HEADACHES.

I took the statements of those who had suffered with neuralgia in its worst form for years, and all kinds of headache, and they in each instance claimed to be cured.

APPENDICITIS AND ABSCESSES.

I took the statements of those who had been cured of appendicitis, and they were each cured. No operation in any instance. Some had abscesses which opened up and drained and healed nicely. Think of those you have known who have been foolish enough to let a surgeon scare them into an operation. They are nearly all dead now. Why should you resort to surgery, which cannot cure as great a percent of diseases as Osteopathy can, and no danger from Osteopathy?

Dr. A. T. Still Osteopathic Infirmary. Dr. IRA W. COLLINS, Physician in chief. cor. Missouri and El Paso Streets, El Paso, Texas.
