DECISION DOES NOT INVOLVE THE PLANT

El Paso Brick Company's Buildings and Yards Not Affected.

Judge Frank W. Parker, of Las Cruces has found in favor of the plaintiff in the suit of John H. McKnight vs. the El Paso Brick company involving the ownership of 100 acres of land in Dona Ana county, New Mexico, just west of and adjacent to the El Paso brick plant, across from the smelter.

Attorneys for the defendant have taken exception to the findings and will appeal the case.

The land in question is designated by the government as mineral land as it contains fire clay. McKnight filed on the claims, the Lulu, Agnes, Lynch, Aurora and Tip Top, in 1906, and has done the required assessment work of $100 per year each year since then.

The property is located west of and adjacent to the brick plant and does not involve the land on which buildings have been erected nor the land which the company is using for brick.

The brick company bought the land as public land from the Las Cruces land office, but the court held in favor of the man who had filed a mining claim.
