

**SCHOOL CENSUS OF CITY HAS STARTED**

Will Cost But Half as Much This Year as It Did Last.

The census of school children in El Paso will cost only \$250 or \$300 this year, while last May it cost the city \$500. The work started Monday morning under the direction of F. E. Sawyer, auditor of the school board, will be finished in two weeks and will require another two weeks for checking. Sawyer, with three assistants, H. A. Donnelly, Joe Grant and C. M. Murray, started the work near Old Fort Plaza Monday morning. The men will work eastward covering all of the territory north of the railroad tracks and then coming back through the southern part of the city. The census will include all the names of children between the ages of 7 and 17 years and for each of these names properly listed the city of El Paso will receive \$5.50 from the state. Therefore Mr. Sawyer says: "It is to the interest of taxpayers to see that we get all the names of the children, for if we do not, the city will have to make up the amount we will lose by missing names. If there are any children overlooked and the parents will notify me after May 15 I will go out and get them for it means much to the city of El Paso."

**The Texas Sheep**

The sheep is the greatest politician of all animals. He has entered every campaign since the beginning of government and in a number of elections his fleece has been the paramount issue. Sheep have been mentioned in the platform of every political party and wool has been listed in the tariff schedules of every nation on the globe. As a statesman he has pretty well held his own and although occasionally beaten at the polls and ejected from legislative halls, his friends invariably resubmit the issue, and today his fleece is protected by a tariff of 11 cents per pound.

1910 VALUE PER HEAD \$2.90.

He is the most economical of all animals; his flesh is the purest of foods and has always been an acceptable sacrifice to the gods; his fleece makes the finest of garments and has clothed mankind since the creation of the world. He is a very prolific animal and while furnishing food and clothing rapidly replenishes his kind. He is the only animal that possesses three natural and unfailing sources of revenue—food, clothing and reproduction—and he has so successfully managed these gigantic lines of industry since the beginning of time that today he is a captain of industry among the animals.

The sheep is the only animal that has been humiliated by being compelled to compete with vegetable fibre on the markets, but notwithstanding the progress of his powerful rival, King Cotton, he has held his own and today he is worth more on the market than at any time during the past half a century and his fleece is the yard-stick for computing values of all vegetable fibres, and King Cotton must get prices from the sheep before entering the market.

According to the Federal agricultural department census report on Jan. 1, 1910, we had 1,000,000 head of sheep and the latest estimate placed upon them is \$5,536,000. During the past decade we have shown an increase in number of sheep of half a million head in total value of approximately \$2,500,000.

Texas is the home of the sheep and the mountain regions afford cheap grazing and the mild climate is well adapted to sheep raising and wool growing.

**WOULD ENLARGE THE FEDERAL BUILDING**

Congressman W. R. Smith has introduced a bill in congress for the enlargement of the El Paso federal building to accommodate the increase in business in the postoffice, custom house and federal court. The bill calls for an appropriation of \$50,000 and has been referred to the committee on public buildings for a report. Should the bill pass congress, the federal building will be extended 25 feet to the east and will be made three stories high giving additional room on each floor of the government building.

**'RUBBER KID'S' OUTFIT IS CONFISCATED BY OFFICERS.**

The last of the "Rubber Kid's" opium smoking outfit was turned over to the custom officials Monday morning. The "Rubber Kid" was a notorious opium dive operator on South Kansas street who escaped to Mexico before he could be arrested. The outfit consisted of a tin bucket filled with opium pipe bowls, a quantity of opium ready for smoking, lamps for soaking the dope and other attachments for a first class opium joint. "Rubber Kid," who is not known by any other name, is also wanted by the police on a burglary charge.

**HUMANE SOCIETY MEETS.**

The El Paso Humane society will hold its regular monthly meeting at the chamber of commerce, Monday evening at 8 o'clock.

G. S. Waid, superintendent of the G. H. & S. A., returned to El Paso from Houston, Tex., Monday. Mr. Waid has been on a business trip at Houston.

**The Smallest Depositor**

is entitled to absolute safety, adequate facilities, unvarying courtesy—and gets them all at the FIRST, which is seeking just such business.

Capital .....\$600,000.00  
Surplus .....\$200,000.00  
Deposits ....\$4,000,000.00

**MANY SPECIMENS FROM SOUTHWEST**

**New Mexico, Arizona and Texas People Contribute to National Museum.**

Washington, D. C., May 1.—The annual report of the board of regents of the Smithsonian Institution has been made public. It contains also a report of the United States National museum which is a part of the Smithsonian. The only biological expedition sent out by the museum during the year was sent out into the southwest in search of botanical specimens. It was under the direction of Dr. J. N. Rose, accompanied by F. C. Stanley and P. G. Russell. They spent ten weeks in west Texas, southern New Mexico, southern Arizona and northern Mexico and made a collection of plants of that section, comprising over 10,000 specimens, many of them belonging to hitherto undescribed species.

One significant fact is evident in going over the report. In addition the following individual contributions were received from the southwest:

- Lieut. Stephen Abbot, Fort Bayard, N. M., pottery fragments excavated near Fort Bayard.
- C. L. Adams, Globe, Ariz., specimen of muntjac.
- C. N. Ainslie, Cimarron, N. M., 300 specimens of winged insects found in the territory. Also specimens of cactus plants, prickly pear, etc.
- Rev. R. W. Anderson, Uvalde, Texas, species of moth.
- W. W. Bass, Grand Canyon, Ariz., massive and shredded specimens of asbestos.
- C. E. Biederman, Palmerlee, Cochise county, Ariz., four specimens of insects.
- J. C. Blumer, Tucson, Ariz., 16 specimens of plants.
- Herbert Brown, Tucson, Ariz., skin of a rattlesnake, horned lizard, and specimens of cactus.
- Hugh E. Campbell, Seligman, Ariz., specimen of wheelbug and horned lizard.
- Walter Charnley, Nueva Casas Grandes, Mexico, three small clay heads and one skull.
- J. F. Derrick, Cherry, Ariz., cocoon of basket worm.
- Gen. H. C. Dunwoody, retired, Washington, D. C., specimen of cerussite from Stephenson-Bennet mine, Dona Ana county, N. M.
- Miss Charlotte C. Ellis, Piacitas, N. M., two living specimens of cactus.
- Domingo Gonzales, governor of the pueblo of Taos, N. M., ceremonial pipe.
- S. J. Holstinger, Meteor, Ariz., meteorites and associations from meteor crater and series of fresh water shells from lake beds in bottom of meteor crater, known as Coon Butte, Coconino county, Ariz.
- Stephen Janis, Tuba, Ariz., specimens of pottery.
- Dr. R. E. Kurze, Phoenix, Ariz., specimens of cactus.
- Fred L. Kurze, Pecos, Texas, two teeth of fossil shark.
- Carl Lunnholtz, Tucson, Ariz., specimen of prickly pear and other cactus.
- O. J. McConnell, Prescott, Ariz., specimen of alga.
- Bernard Mackensen, Kerrville, Texas, 35 specimens of living cactus, eight specimens of plants.
- Wilton Newell, College Station, Texas, 1299 specimens of mosquitoes.
- New Mexico Agricultural college, 17 plants from New Mexico.
- Charles Norton, Mohawk, Ariz., two specimens of arachnida (spiders).
- Mrs. John F. Paret, Sweetwater, Texas, six specimens of living cactus.
- A. H. Pinyan, Bisbee, Ariz., specimen of American silk moth.
- C. F. Saunders, Santa Fe, N. M., plants from Arizona.
- ohn F. Seaman, Tucumcari, N. M., specimens of fossil teeth and bones from New Mexico.
- Elmer Stearns, El Paso, Texas, two specimens of cactus.
- Prof. E. O. Wooton, Agricultural college, N. M., seven specimens of living cactus.
- Dr. D. T. Mac Dougal, Tucson, specimens of cactus.

**EIGHTH BANK IN EL PASO IS OPENED**

El Paso's eighth bank, the Union Bank and Trust company, opened for business Monday morning in the American bank building.

The bank will have a formal opening Monday evening and will receive its friends in the new banking room. E. Moye, president, Max Moye, secretary, and Adolph Schutz, treasurer, are in charge of the bank affairs.

**COUNTERFEITING OUTFIT TO BE MADE INTO SCRAP IRON.**

The counterfeiting outfit which was used by Celso Perez, the Mexican who was sentenced to prison by Judge Stacey, was taken from the basement of the federal building Monday morning and will be converted into scrap iron. The outfit includes a stamp machine, a set of rollers, dies for stamping the suspicious dimes and gas ovens for heating the metal.

Dr. Charles A. Bailey, of Saltillo, Coahuila, is here on his way to California to visit his mother for the summer. Dr. Bailey is connected with the Breckenridge sanatorium at Saltillo and has been employed on a number of the railroads of Mexico as surgeon.
