Baleful Influence Of the "Jinx" Is the Worst Foe Of the Athlete

By Lewis Arms

It is called a "jinx" and it is the worst foe that can befall an athlete or team. Ever hear of the baseball "jinx"?

When these objects are sighted a metaphysical tremor shoots through the whole team as an individual. It is all off for the day. The game is as good as lost.

But the "jinx" is manifest in a number of other ways also. There is the "jinx" which every member of the team seems sooner or later to have.

Baseball, a baseball periodical, dedicates its current number to Tyrone Raymond Cobb. If a sporting celebrity demanded more adulation than Cobb receives in this number he must be egregiously vain.

There are pitchers who have the Indian sign on certain teams, therefore they are known to that team whose batting and team percentage is affected.

Speaking of "jinxes" and ball players superstitions a baseball periodical gives the following "weakness" of some of the start players of the big circuit.

Chief Bender, the brainy Indian pitcher of the Athletics, never throws to anyone save Ira Thomas, when warming up. Rather than pitch to another, or to the first baseman, he juggles the ball until Thomas has donned his shin guards and protector.

Merchant, the latest English lightweight to come "hacross" demonstrated in New York the other night that he knows what his two hands were made for.

Personally, we would rather write that he is a professional. August Herrmann, chairman of the national baseball commission, says or writes that he is not hostile to the newly formed, Columbian and United States leagues.

Well, it had to come. The report is that Jack Curley has finally decided that without further ado he "big

After receiving the ball from the pitcher Coombs usually juggles it several times before putting on the plate. "Bill Donovan dislikes to strike out the first batter. He believes it the forerunner of bad luck."

There is lots of logic in this! Mike Donlin, the Boston National outfielder, has a good word to say about Red Murray of the Giants, who proved such a dismal failure in the last world's series.

Donlin saw only two of the Athletics-Giants games. He feels sorry for Murray and declares that Jack is referred to as the "fall guy" only because the Giants lost.

Even big managers make mistakes occasionally. One of the forest spots on Hugh Jennings' body is the fact that he let Jimmy Archer go to the Cubs. Archer, who pitched for the Cubs, never pitched for the Cubs.

DISADVANTAGES OF TRAINING IN THE ARISTOCRATS OF THE DAYS OF OLD

Sunny Climate of South Unfits Players For Rigors of the North.

Says Baseball, editorially: "There are two problems in baseball which annually come up for discussion at this season of the year. One concerns the training trip, with its advantages and disadvantages; the other involves the length of the playing season."

The training trip as it is at present is both an innovation of new baseball and a relic of former decades. It is an admirable device, but it has many defects. It is easy to say that a disorganized group of players must be whipped into shape by the public, a major league brand of baseball from the very start of the season.

Even big managers make mistakes occasionally. One of the forest spots on Hugh Jennings' body is the fact that he let Jimmy Archer go to the Cubs. Archer, who pitched for the Cubs, never pitched for the Cubs.

TO FINISH WORK FOR SOAP

Attell and Kilbane Are Both Pronounced "in the Pink" For Title Bout.

Los Angeles, Cal., Feb. 20.—Trained to that physical fitness which is characterized as the "pink of condition," Abe Attell and Johnny Kilbane will finish their work today for the Thurston battle, the stow of which is the featherweight championship of the world.

Attell rules a 10 to 4 and a 2 to 1 favorite, and all Kilbane money is being rapidly absorbed. Fans here make Attell their idol and they adhere to his every credence in the story of the champion's advertised injuries.

Attell has demonstrated much hitting power in his sparring practice, tipping over his trial horses regularly. Kilbane is saying little and saving wood. He says he is in the best possible condition and expects to annex the title.

"Attell has gone back," says Jimmy Evans, who was in Lincoln yesterday, was asked if his mission had to do with the possible transfer of the Denver franchise from Denver to Chicago in an effort to decrease the mileage of the eastern clubs in the league.

He would not confirm the rumor, but said he was looking ahead to the future interests of the league. "I don't believe the Western league is looking for an opportunity to increase its mileage," is the most suggestive remark he would make.

The suggestion that a ten club league was under consideration, adding Chicago and Oklahoma City, brought no confirmation from the league president, Mr. O'Neil had only good words to say for Denver as a baseball town. He left for Denver last night. His visit here, he said, was chiefly to confer with president Despain, of the Lincoln club.

He would not confirm the rumor, but said he was looking ahead to the future interests of the league. "I don't believe the Western league is looking for an opportunity to increase its mileage," is the most suggestive remark he would make.

MUSCULAR BLACKSMITH WANTED TO BE FIGHTER

Could Bend Tenpenny Nails With His Fingers, Therefore, Declared His Friends, He Logically Must Be a Real "White Hope"—A Bout Staged by Pugilist John L. Sullivan.

The writer must be pardoned this story, but as an amateur raconteur it appeals to him in the light of the new "white hopes" who are constantly being unearthed from here, there and everywhere, until now it is a country barren of physical prowess indeed, which has not the illuminating figure of one of these "dopes"—we mean "hoppers"—behind it.

It was in Detroit several years ago when John L. Sullivan was on tour there packing about the country with a burlesque show and giving a boxing exhibition with a stalwart young man, whom for want of a better title we shall call Mark.

John L. had just climbed aboard the water cart for the fifty-eighth public and one thousandth private time and he declared that in the hereafter he would take nothing stronger than that which contained his multitudinous ailments. It may be parenthetically added that John L. stuck to his guns and saved aloft in the white shirt of exhibition for many blue moons after this particular vow.

The Smith a Mighty Man is He. There was a time in Detroit, a blacksmith, yeelpot Potter, who was possessed of the prodigious strength that he could bend tenpenny nails with his finger muscles. Hence his sobriquet the "Nail Bender."

Was there ever anything more natural in the world than that the well-meaning friends of this Sandow smithy should kid him into the idea that he was a likely aspirant for heavyweight honors?

A heavyweight champion must have strength. Potter was absolutely fit and in his respect, it doesn't therefore take a geometrical demonstration to prove that the logical deduction was that Potter should give from his festive vocation of outfitting horses, or equine haberdasher, as it were, and go into the realm of heavyweight pugilism.

At this time the adipsos Sullivan was giving adipsos publicity to his man, Mark, as the coming champion. Every Detroit sporting page announced that Mark would meet all comers any night at the "Avon" burlesque house.

His "Friends" Fix It. Can you picture to yourself Potter's friends assuring him that this was his chance. He must get a toe hold on old man Opportunity that would send his (Potter's) name booming down the centuries as the only genuine incumbent of the fight game. He was to out-pug, Jim Fix.

Again his stunned friends yelled at him. This time Potter evidently thought he would take matters into his own hands and violating all the precepts of ring ethics he started on his knees and knees to crawl between the ropes out of the ring, anywhere to get away from the silencers of that right wing.

Potter crawled through the ropes amid a pandemonium and with the ring-side fans trying to kick him back into the arena. They trooped the curtain and the show ended.

Automobilists Follow It Avidly—Section of Proposed Route.

The proposition of a national boulevard is being followed with avidity by automobilists across the whole country. The unanimity of sentiment for the paving of this trans-continental highway is a guarantee that its materialization is assured without a hitch.

Pertaining to this section of the route the following interesting dispatch comes from Douglas, Ariz.: "The interest of El Paso in the proposed 'Trans-Continental Road' is shown by a blue print map, the work of the El Paso Chamber of Commerce, which is being distributed by the local chamber of commerce."

The route shows the road from El Paso to Deming, a distance of 80 miles; from Deming to Lordsburg, 60 miles; Lordsburg to Rodeo, 45 miles; Rodeo to Douglas, 35 miles; Douglas to Bisbee, 24 miles; Bisbee to Tucson, 110 miles; Tucson to Florence, 60 miles; Florence to Phoenix, 60 miles. This is the route along which the El Paso-to-Phoenix pathfinder journey is being made.

East of El Paso, there are three routes proposed. One by way of Lordsburg and Alamogordo, N. M., into El Paso.

His friends were in a turmoil. There lay their hope of the hope of the exhibition bout at the big smoker to be given in the chamber of commerce building the last night of the Panhandle convention, March 27, conference was held this morning before Judge A. S. J. Elyar, Art Hickman and C. A. Kline, and a telegram was sent to Charlie Cavanaugh, the big boy's trainer, to see what terms could be agreed upon. The purse for the bout will be provided by the directors of the convention committee, as there will be no admission charge. The boxes to travel a six round mill, and no decision to be rendered.
