MAN DROWNED IN IRRIGATION DITCH

Leaves Home Saturday; Body Found by Wife on Thursday.

Last Saturday night Jesus Jaramillo, 25 years of age, left his home at 1008 Tava street and Thursday morning about six o'clock his wife found his body in the canal near Tava street, about 200 feet east of a bridge which crosses the canal at that place. The police were notified, the body removed to a local undertaking establishment and coroner E. B. McIntock, holding an inquest, determined that the man had been drowned. There was no evidence of foul play. In company with a companion he had visited several saloons on Saturday night, and at a late hour he stopped at the White Elephant saloon on Ochoa and Overland streets. His left there for home, but on his way evidently fell into the canal and was drowned. The water was let out of the canal Wednesday evening and Thursday morning the body was found. Jaramillo had lived in El Paso for 10 years or more. He was 25 years of age and had been employed by Nick H. Carson, a cement contractor, having worked steadily during that time. PREACHES SERMON ON IRRIGATION

Minister Says the Church Needs Arousing, a Waking Up.

Last night Dr. Bishop preached one of the strongest sermons he has yet preached in the series at the First Presbyterian church. His text was Ps. 48:4. "There is a river, the streams whereof shall make glad the city of God." "El Paso's greatest need, or spiritual irrigation," was his theme. All through the old testament and the new the power of the Holy Spirit is represented by the figure of a river. He said, "This river emanates from God, that is, from the throne of God, from beneath the temple. It broadens and deepens as it flows. In Ezekiel's vision, it flowed out through a hard and barren land, but brought life wherever it flowed." Dr. Bishop carried out the irrigation idea throughout his discourse. The water that gladdens and moistens dry places is from God, but the channels and direction of the streams belong to man. He said, "The Holy Spirit is the spirit; men are the channels of the water, and as the spirit flows into them, they are to carry the life giving power to the world."

"If there is a spiritual drought in El Paso," he said, "don't pray for the spirit. He is already here, but clean up the ditches of your lives and let the stream of life reach out to the thirsty souls about you. The churches of El Paso are in the grip of a drought, and are eminently respectable. We are along the lines of least resistance. The course of the river mentioned by the prophet, was the hardest possible course. "Every state of society must be represented in the church, if we would carry out the program of Christ. The church today is losing out because it has failed to carry out the vision of the Lord. There is no single command in the Bible for the unconverted man to come to church, but many for God's people to go out into the world, ways and hedges. There is too much deference paid to the man with the gold ring. Invite people to come, but don't fail to go out into the world, ways and hedges. Go and get the man farthest away."

Cogshall sang the "Glorious Song," accompanied by the chorus and congregation. Dr. Bishop spoke this afternoon to women in "The Life of woman's aid." Friday afternoon at four o'clock he speaks to children at the First Presbyterian church. There are many demands being made on Dr. Bishop's time. He spoke Wednesday at the High school, at the noon meeting for men at the Crystal theater, and at the Y. W. C. A. He is booked for the Military institute, business college and other places. Dr. Bishop never fails to make a marked impression wherever he goes.

The subject for the children's meeting is "Giants." All children of the city are invited. Tonight's subject will be "The Achan's in the camp." The quartet will sing. Parvin Witte is leader.

THINK SILVER CITY FIRES INCENDIARY

Thieves Believed to Be Responsible for Epidemic of Blazes.

Silver City, N. M., March 14.—Four or five fires following the disastrous one of January 27, which caused a loss of nearly \$27,000, is creating the impression on some minds that an incendiary is getting in his work, and officers will keep a sharp eye on all night prowlers. The fire Monday night is believed incendiary, as rags saturated with kerosene were found in the room where the fire originated, the door of the room was left open and the cash register had been robbed of several bank checks representing \$75. Several burglaries have occurred recently and robbery, the officers think, was at the bottom of the fire Monday night. The 24 hours of rain that fell here has made stockmen and farmers rejoice, as it insures plenty of good grass.
