GIBSON COPPER READY FOR SECOND SUPPLEMENT OF CHALCOPRITE ORE

Work Is Resumed on Goodwin's Mine; the Kingdon Shaft Being Lined.

Globe, Ariz., March 15.—The Gibson Copper company is working the Gibson mine, 16 miles west of Globe, with a force of 12 men under Tip Henderson. It is preparing to make its second shipment of chalcoprite ore since the mine started from the Summit Copper company. The ore now being mined comes from the south 400 level on the Pasquale vein and will probably average 20 percent copper. The south drift is being extended on this level and an eight-inch streak of ore is reported to be showing in the face. Drifting has also been started on the 500 level, which is reached by a raise from the crosscut on the 400 level. The ore is being hauled eight miles to the town of Miami, where it is loaded on cars and shipped to the Old Dominion smelter at Globe.

The Globe-Hay Development company has started work on the property formerly owned by Robert Goodwin, 22 miles southwest of Globe. Sullivan & Wayne and John C. Diamond until recently were leasing the Copper Hill mine of the Arizona Commercial Copper company, are the controlling interests in the Globe-Hay company. The mine was at one time under lease to Thomas Parish and associates, who shipped 400 tons of copper ore to the Old Dominion smelter at Globe that netted about \$10 per ton, but was closed down during the 1907 panic. The property was purchased by the present company two years ago. The claims are traversed by a fissure vein in the final setting which is about 200 feet from the shaft. The distance of 200 feet from the shaft has been finished. About 20 men are employed, working two shifts, and the work is advanced at the rate of about 12 feet vertically per day. It is proposed to line the shaft to a depth of 1900 feet in this manner. The work is being supervised by Paul Michaelson and C. H. Weldman, construction engineer.

The Needles group of 27 claims and 13 adjoining claims, owned by various parties, have been bought by W. F. Kennedy, of New York. These claims are situated four miles west of Miami and are joined on the east by the Barney group, now being explored with chalcoprite by the Lewishans, and the Montezuma group. A diamond drill churning drilled by the Southwestern Mining Development company. They are joined on the west by the Schmitt group, under option to the South Live Oak Development company.

The Five Points mine, 15 miles west of Globe, is being developed by a force of seven men under A. T. Hammons, manager for the Matton Copper company. The chalcoprite vein is being worked and is now 130 feet deep. It is proposed to crosscut at 200 feet. The ground is traversed by two fissure veins in the grade. The chalcoprite vein, which some high grade copper ore has been shipped in the past.

The Arizona-Colorado mine, three miles north of Globe, now owned by the German Copper company, is being unwinded preparatory to resuming development work. The property consists of 21 claims, traversed by a crosscut fissure vein in diabase, quartzite and limestone. The principal opening is a vertical shaft 600 feet deep from which crosscuts to the vein have been run at several levels. It is claimed that 50,000 tons of chalcoprite ore have been developed on the 300 foot level, assaying 2 1/2 percent copper.

At the Superior & Boston mine, the east drift on the 12th level on the Great Eastern vein has been advanced 30 feet from the crosscut and is breasted in chalcoprite ore for its full width. The width of the ore is unknown, as the hanging wall is not exposed. The ore is reported to assay three and one-half percent copper and about 40 percent iron. The chalcoprite being imbedded in a gangue consisting mostly of hematite. Discovery of ore in this part of the vein is considered very important. The west drift is in 160 feet and breasted in shattered, iron-rich diabase. The crosscut, which has been continued beyond the Great Eastern vein to strike the

Old Dominion vein, is in 550 feet. The crosscut being driven southeastward from the shaft is in 85 feet.

Hole No. 1 of the Southwestern Mining Development company is 300 feet deep and is in silicified schist formation. The 6-1/2 inch tools and casing are now being used. Hole No. 2 is in schist and is 170 feet deep. The two new chalcoprite veins will be drilled in a few days by the Star Drilling company. All drilling tools will be furnished by the Union Tool company of Los Angeles. A carload of casing and all necessary cables, etc., have been ordered, also a steel derrick 50 feet high that can be erected over a hole while the machine is running so that if it becomes necessary to drill an unusually deep hole, it can be accomplished without difficulty or delay. This derrick will be about 30 feet higher than the one on the drilling machine. Plans have been drawn for the erection of a new warehouse, in addition to the existing building, a building for storing samples and six tent houses for the workmen.

Hole No. 1 on the Barney group is 1550 feet deep and still in the red, hematite-stained schist formation that it encountered at 1100 feet. Water which was encountered in the schist formation at a depth of 360 feet, is still flowing out over the top of the casing and is being used by the drilling machines.

The Apache Box mine is shipping ore by burro to the Clear Lake mill. The company has armed men protecting the ore from high graders. The Apache Box mine is shipping ore by burro to the Clear Lake mill. The company has armed men protecting the ore from high graders.

APACHE BOX ORE HEAVILY GUARDED

Jack Bennett, at Steins, Sells a Gold Mine For \$15,000.

Lordsburg, N. M., March 15.—Twenty-one cars of ore were shipped during the past week from Lordsburg. The Apache Box mine is shipping ore by burro to the Clear Lake mill. The company has armed men protecting the ore from high graders.

Jack Steen sells his mine. The Western Liberal tells the following story: "Jack Steen, of Lordsburg, has been selling about a wonderful gold proposition he had north of the Apache Box mine. He had a prospect that attracted no attention. His gold mine was considered a joke by the people here. He had a prospect that he had bought for \$15,000. He had a prospect that he had bought for \$15,000. He had a prospect that he had bought for \$15,000.

At the First Christian church, corner North Oregon and Franklin streets, two blocks north of the Steins, Rev. J. Rice, pastor, services will be held on Sunday as follows: Sunday school at 9 a. m.; morning prayer at 10 a. m.; preaching at 11 a. m.; Christian Endeavor service at 6:30 p. m. Preaching at 7:30 p. m. The subject for the morning sermon will be "The Birth of Christ." The hymns in the opening service will be thrown upon the screen with the stereopticon. Miss Stanhope will sing a gospel solo.

WHITE OAKS COAL MINE IS DEVELOPED

Santa Fe, N. M., March 16.—A new coal mine is being developed by the Wild Cat owners at White Oaks to furnish fuel for their power plant. The coal property belongs to Watson, Lund & Hoyte.

MINING MEN VISIT GUAYMAS

Guaymas, Sonora, Mexico, March 15.—M. A. Newman, general manager of the Jesus Maria y Anexa mine at San Jose de Guaymas, passed through Guaymas, en route to the states. M. S. Howard and W. E. Blackmer of the Palmarito Mining company, near McQuirio, Sonora, are spending a few days in the city. Their mine is temporarily closed down awaiting some engine repair parts. Stuart L. Hawkins, a mining man from San Diana, Durango, passed through Guaymas with his family en route to San Francisco. J. O. Hulen, superintendent of the Santa Rosa mine, at Toledo, Sonora, is stopping at the Alameda hotel.

THE LATEST RECORD RECAMPAIGN TO START

President Watson, of Southwestern Conference, to Tell of Adventist Work.

Evangelist George F. Watson, of Keene, Texas, president of the Southwestern Union conference of Seventh Day Adventists, will give a number of public lectures beginning Sunday night, March 17, and continuing each night through the week at 7:45, at the Woman's Club hall, 411 Boulevard. The subject of these lectures will be upon present day conditions in light of Bible principles and prophecies and the relation the people of today should sustain to them. The lectures will be free.

Mr. Watson will be accompanied by his son, who will render some songs. The younger Mr. Watson, a member of the Keene Glee club quartet that toured many cities of Texas in the interest of prohibition during the recent campaign.

Seventh Day Adventists began their work in the year 1845 in the New England states. They were organized into a conference in 1848 with about 3,000 members and took the name Seventh Day Adventists, which designates the two leading features of their faith, viz: the observance of the Sabbath, and the observance of the seventh day of the week (Saturday) as the Sabbath day. Their membership in 1911 was about 100,000, scattered in all the countries of the world, and there being 80,000 in the United States.

In 1873 they began their first foreign missionary work in Switzerland, which has grown until there are now 30,000 believers in Europe and Great Britain. Their most active missionary efforts now are being centered in the far east, South America and Africa. The denomination now operates missions in 47 different countries in 65 of the great languages of the world. The United States contributed in 1911 two million dollars for the support of their evangelic work. Their publishing department operates 23 publishing houses in the world printing gospel literature in 53 different languages; and the sales of this literature for 1911 were \$1,500,000.00.

They have a medical department operating 80 sanitariums, employing 3,000 nurses and doctors, which treated over 35,000 patients last year.

Recognizing the value of good education they have established scores of schools and colleges, from which hundreds of well-trained young people go forth to swell the ranks of the workers of this small, yet powerful, denomination, whose motto is the evangelization of the world in this generation.

Seventh Day Adventists began their work in El Paso two years ago with four members and met in a pastor's house. Under the efforts of pastor R. Proctor and wife, a membership of 25 now exists, with a regular meeting place in the Woman's club hall, 411 Boulevard.

The Adventists of the city have arranged with the Woman's club to use their hall at 411 Boulevard for its regular services. Sabbath school will be held Saturday at 10 o'clock, preaching service at 11 o'clock.

At First Christian. At the First Christian church, corner North Oregon and Franklin streets, two blocks north of the Steins, Rev. J. Rice, pastor, services will be held on Sunday as follows: Sunday school at 9 a. m.; morning prayer at 10 a. m.; preaching at 11 a. m.; Christian Endeavor service at 6:30 p. m. Preaching at 7:30 p. m. The subject for the morning sermon will be "The Birth of Christ." The hymns in the opening service will be thrown upon the screen with the stereopticon. Miss Stanhope will sing a gospel solo.

rus choir. Cordial welcome to strangers and visitors.

Dr. Bishop's Revival.

Dr. Arthur F. Bishop spoke at the First Presbyterian church, last night on the subject of "Church members and the duties they owe." His sermon was based on the account in the seventh chapter of Exodus, where the Israelites fought against the Amalekites in Rephidim: "When Moses held up his hands, Israel prevailed. When he let down his hands, Amalek prevailed, and when his hands were heavy, Hur and Aaron stayed up his hands."

"The only difference," said Dr. Bishop, "between the church member and the non-professor is that a real church member is a shepherd, but a non-member is a sheep of God's pasture and, as such, are not only to feed upon the good things provided by the good shepherd, but are to follow where he leads. They are not only to stand and wait for His orders, but to carry them out."

Dr. Bishop related the story of the company during the civil strife that advanced one step, and turning to the ministers on the platform, said: "How it would thrill our hearts to see every single member of our churches so-berly a step, instead of 'holding back'."

Church members owe it to their church and to their God to support the entire body of the church, to sustain all the appointed means of grace, he said.

Dr. Bishop speaks at both the morning and evening service at the First Presbyterian church Sunday. His morning theme will be "Christianities" and his evening theme will be "How it speaks on 'Is life worth living'."

PHI DELTA THETA ALUMNI CLUB FORMED

Dinner in Celebration of Founder's Day Precedes Club's Organization.

The El Paso Alumni club of Phi Delta Theta, the first alumni club of the Phi Delta Theta was organized Friday evening at a dinner given by the local alumni chapter at the El Paso Hotel. The dinner was given by the local alumni chapter at the El Paso Hotel. The dinner was given by the local alumni chapter at the El Paso Hotel.

NEW DEVELOPMENTS IN PREVENTION OF CONSUMPTION.

Dr. Harvey Wiley, the government pure food chemist who has done so much for the infants of America, by preventing them from getting various soothing syrups, which always contain various opiates and paralyze the nerves and plant the seed of future disease.

FEB. LESLIE'S.

Now comes Wisconsin specialist and claims that the cause of one-third in that state dying with consumption is exhaustion by cough medicines and phisics.

Kansas Board of Health asks that law be enforced to prevent the sale of headache powders as they only deaden the nerves and do not cure the cause of the disease, and produce fatal heart and lung troubles.

While AMERICAN MEDICAL ASSOCIATION comes forward and asks for suppression of sale of all patent medicines, THEY FORGET THAT they give their medicine in same size doses and use the identical stuff the doctors do, get it out of the same box. And if it is so fatal in the hands of the druggist it will produce consumption by exhausting the system just the same when the medical doctors give it. All that hurts him is the druggist gets the money for making a consumptive out of the PATIENT, AND HE DONT. NO CHRISTIAN SCIENTIST, NOR OSTEOPATH WHO LIVE UP TO THEIR BELIEF, EVER CONTRACTED CONSUMPTION AFTER CRASING TO TAKE DRUGS. THERE'S A REASON. For they believe in "being temperate in all things."

PILES CURED AT HOME BY NEW ABSORPTION METHOD.

If you suffer from bleeding, itching, blind or protruding piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment, and free also send some of this home treatment. Or trial with reference from your locality if requested. Immediate relief and permanent cure assured. Send no money. See full particulars in booklet, free today to Mrs. M. Summers, Box P. News Dame, Ind.

Why People Are Dying With Consumption or Heart Failure

You have a few pains around your neck and shoulders and drop over dead or are found dead in bed. Your friends wonder what the trouble was--you didn't seem unwell.

Heart Exhaustion

was the secret. From over-eating and exhausting with drugs and stimulants, you seem to have a cold and it hangs on and you are surprised when told you have consumption and no hope. Exhaustion of general nervous system from drugs and stimulants, leaving poor circulation, which exhausts the lungs or kidneys if they are weakest and Bright's disease results. Consumption or Bright's disease results every time from exhaustion. No wonder one-third are stricken down with it in the prime of life.

No Osteopath nor Christian Scientist ever contracted consumption, cancer or Bright's disease if they lived up to their teachings unless from injury. Think about that! There's a reason. They do not exhaust themselves. "Be temperate in all things."--Bible. God never lies. You who don't believe Him, reap His wrath, and die like flies in the prime of life.

Go to An Osteopath Now!

and have these nerves freed and restore the circulation, and be cured of whatever troubles you have, for the blood made everything about you in the first place and it only can restore you. "For in the blood is the life of all flesh."--Bible. And the laws of nature are the laws of God.

Light is vibrations. Colors are but various vibrations of light. He said, let there be light. And the very echo of his voice as it went reverberating among the hills of chaos died away into beautiful green fields and lovely tinted flowers. Wonderful creative God! Every atom and every molecule of organic life took its form and hue at the twirling of his breath. He simply breathed and the atoms of earth stirred and marshalled into molecules of human blood that have gone thrilling and twirling on their creative way down through the centuries of time, molding and shaping every form of human life. Propelled by the same breath that breathed upon the clod on creation's morn when it trembled, shuddered and arose, a living image of himself. With eyes that were but delicately tuned Eolian harps that vibrate to the music of his voice that died away in beautiful tints on chaos hills. Man can perpetuate. But that drop of blood alone can create, mixed by his breath on creation's morn. Give it undisputed sway by restoring circulation and it will throw every impurity out and build you up again, and you are whole. That's why Eight Thousand people who, like the woman, "had suffered many things of many doctors," was made whole again at the Dr. A. T. Still Osteopathic Infirmary, by restoring them to normal by the laws of Nature, which are the laws of God. And has enabled them to make the greatest percent of cures ever known of every human disease.

strongest and fairest of all in the kingdom. Think of that you ladies who want to look fair, and you men who want to be strong. FOR GOD NEVER LIES. And you cannot violate a single law of his, either in Nature or the Book of Books, but you must reap its awful consequences. Like America is today in being stricken dead from heart failure or filling consumptive graves, with one-third in the prime of life, because of the use of these nerve exhausting drugs and stimulants.

IF YOU WANT TO LIVE and enjoy life QUIT IT RIGHT NOW.

If your liver don't work right REST IT. Eat fluid foods and vegetables that don't require so much bile. Eat plenty of fruits and fruit juices; they will digest the food and don't need bile. The same with your stomach and other digestive organs. Then you will not have a lot of stagnant blood in your system to overtax your lungs to purify it and break them down in consumption, for the vigorous nerves from spine will keep your blood circulating and purified. If you have made a mistake and exhausted your nerves, go to the Osteopath and have the nerves and blood vessels freed and be RESTORED TO PERFECT HEALTH. LIKE GRANDPA JOHN'S HEALTH OF DENVER, ARIZONA. JOHN'S HEALTH OF DENVER, ARIZONA. JOHN'S HEALTH OF DENVER, ARIZONA.

ASK MR. BUCHANAN ABOUT HIS BLIND EYES that were like bloody beef-steaks and no one could give him relief from his awful suffering that was LIKE THE AGONIES OF DEATH. He is now at work for Nations great Meat Market.

ASK MR. BEN POWELL ABOUT HIS BOY who suffered with FITS and 20 of these so-called specialists had gotten all the money they could out of him and left him worse than ever. He is now as sound and well as he ever was in his life.

ASK MR. WILLIAMS OF MORENO ABOUT RHEUMATISM, and Mr. Smith RIGHT HERE IN EL PASO. ASK ANY OF THESE 8000 PATIENTS ABOUT LUNG AND THROAT TROUBLES, ASTHMA, Heart Disease, Rheumatism, Appendicitis, EYE TROUBLES, HEADACHE, NEURALGIA, LIVER TROUBLES, STOMACH TROUBLES, KIDNEY TROUBLES OF EVERY DESCRIPTION, Blood Poison, Paralysis, Female Diseases. Any disease on earth you can think of.

AFTER EVERYBODY ELSE HAS GIVEN YOU UP, WE WILL CURE YOU. ASK THE PATIENTS WE HAVE CURED. But it is so much easier if we can get you at first, in such simple diseases as Pneumonia, Grippe, Appendicitis, Weak Hearts and Poor Digestion, etc.; it is just play then to cure you.

Go to Dr. A. T. Still's Osteopathic Infirmary, El Paso, Texas, before it is too late.

ASK MRS. CROSSWHITE AT THEIR STORE on Alameda street, what we

Most Certainly--Go To Your Doctor And why not? Yet some people act as if a medicine could take the place of a doctor! The best medicine in the world cannot do this. Have a family doctor, consult him frequently. If we did not believe doctors endorsed Ayer's Cherry Pectoral for coughs and colds, we would not offer it to you.

COUPON Save it for a copy of The American Government By FREDERIC J. HASKIN The Book That Shows Uncle Sam at Work MARCH 16

Desiring to render a great educational service to its readers, The Herald has arranged with Mr. Haskin to handle, without profit, to itself, the exclusive output of his valuable book for the El Paso district. Cut this Coupon from consecutive issues of The Herald, and present them, with fifty cents to cover the bare cost of manufacture, freight and handling, and a copy will be presented to you without additional cost. Bear in mind that this book has been most carefully written; that every chapter in it is vouched for by an authority; that it is illustrated from photographs taken especially for it; that it is printed in large, clear type on fine book paper and bound in an attractive durable manner. A two dollar value for fifty cents. Act quickly if you want a copy.

Save six coupons of consecutive dates and present them at The Herald office, first floor, corner El Paso and San Francisco streets. Each Book by Mail Fifteen Cents Extra for Postage. Remittances by mail should be made by postoffice or express money order or two cent stamps. We will not be responsible for coin sent in letters.
