WORLD'S GREATEST MARINE DISASTER

New York, N. Y., April 16.—In the melancholy roll of marine tragedies, that which overlooked the Titanic is the first on record wherein a conspicuous vessel has met disaster on her maiden voyage. The nearest approach to such an unfortunate fate was the cruise of the Naronic, which belonged to the same line. She went to the port of missing ships on her second voyage. Captain Balfour, all told, she steamed out of this port on her return trip nearly 20 years ago and since then there has never been a word as to how she met her fate. The loss of life on the Titanic is as great as now believed is the heaviest in the history of marine disasters. Among the important marine disasters recorded are: 1911, Sept. 25—French battleship Liberté sunk by explosion in Toulon harbor; 233 lives lost. 1909, Jan. 21—Collision between the Italian steamer Florida and the White Star liner Republic, about 170 miles east of New York during a fog; large number of lives were saved by arrival of the steamer Baltic, which received the "C. Q. D." or distress signal sent up by wireless by the Republic operator Jan. 22. The nearest sinking which being towed six lives lost. 1909, Aug. 1—British steamer Waratah, from Sydney via Port Natal, for London, sank from leaving Port Natal on July 25, 300 lives lost. 1908, April 30—Japanese training vessel Matsushima sunk off the Pea-ocean west to an explosion; 200 lives lost. 1908, March 25—Japanese steamer Mitsui Maru sunk in collision near Hakodate; 200 lives lost. 1907, July 26—American steamers Columbia and San Pedro collided on the coast of California; 45 lives lost. 1906, Jan. 27—Steamship Valencia wrecked on cape Beale, Vancouver Island, B. C.; 117 lives lost. 1906, August 4—Italian emigrant ship Silvio struck a rock off cape Patro; 220 lives lost. 1904, Jan. 21—Brazilian battleship

GREAT WEALTH WAS REPRESENTED ABOARD

New York, N. Y., April 15.—Untold wealth was represented among the passengers of the Titanic, their belongings being valued at least \$50,000,000, whose fortunes might be reckoned in tens of millions of dollars. A rough estimate of the total wealth represented in the first-class passenger list will reach over half a billion dollars. The wealthiest of the list is Col. John Jacob Astor, who is reported to be worth \$150,000,000. Mr. Astor was returning from a tour of Egypt with his bride, who was Miss Madeline Force, whom he married in Providence, R. I., on September 9. Benjamin Guggenheim, probably the most important, is the fifth of the seven sons of Meyer Guggenheim, who founded the American Smelting and Refining company. His fortune is estimated at \$25,000,000. Geo. D. Widener is the son of P. A. B. Widener, the Philadelphia "traction king," whose fortune is estimated at \$20,000,000 dollars. Isidor Straus, one of New York's most prominent dry goods merchants, and notable for his philanthropy, has a fortune estimated at \$20,000,000. J. Bruce Ismay, president and one of the founders of the International Mercantile Marine, who has always made it a custom to be a passenger on the maiden trip of every new ship built by the company, is said to be worth \$20,000,000. Col. Washington Beebles, son of the builder of the Brooklyn bridge, is credited with a fortune of \$25,000,000.

OPERATORS CONSIDER MINERS' DEMANDS

Miners Remain Firm in Declaration of "All or Nothing." New York, N. Y., April 15.—The sub-committee of anthracite coal operators and mine workers' representatives appointed in Philadelphia, last week

to consider the nine demands made by the miners, is in New York today for meetings which, according to belief, will result in an agreement soon. It is expected the demand for union recognition will be taken up at the beginning of the negotiations, but it is said the operators will agree to recognize the union only to the degree that they make the union officers a party to the wage contract.

The officers of the miners' organization still declare the miners will accept full recognition or nothing.

Settlement May Be Reached. A continuation of the conference of the sub-committee appointed by the anthracite operators and miners was held here this afternoon. President White of the mine workers said negotiations are progressing satisfactorily with every indication that a settlement can be reached. Mr. White insists, however, that the union must be recognized.

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.
