VUDOR

Shades are the only really satisfactory kind—they throw the porch into cool, mellow shade without making it too dark for practical use, at the same time admitting a free circulation of air. They are durable. They are not expensive.

OLD HICKORY

Comes in a large variety of shapes in Chairs, Rockers, Tables, Settees, Swings, and is perhaps the most satisfactory Porch Furniture ever designed. We have yet to see a piece of it which was not comfortable or a piece which had worn out. The price is reasonable.

Who Said Corns? I Use "GETS-IT!"
 It Works On a Sure, New Plan.

"Glory! Come and See How GETS-IT Works!"
 "GETS-IT" is the new corn cure on a new principle, works like the touch of a fairy's wand. No more knives, razors, files or other instruments of torture for corn-sufferers. No more salves, plasters and bandages that hurt the toe more than they relieve the corn.
 "GETS-IT" never irritates or turns the true flesh raw. It is safe as water. But my, how it does get after corns, bunions, callouses and warts. It works painlessly, but it shrivels 'em right up till they drop off, leaving the firm, healthy flesh underneath.
 "GETS-IT" is guaranteed to give satisfaction, or your money is refunded. All Drugists sell "GETS-IT" at 25 cents a bottle, or will be sent on receipt of price by E. Lawrence & Co., Chicago.

CONSUL SAYS STATE OF DURANGO PACIFIED

Big Shipment of Arms Is Made to Douglas by Federals.

Gen. Blanquet has cleaned the state of Durango and has driven the rebels under Arguedo into the state of Zacatecas and north toward Chihuahua. Mexican consul R. C. Lorente says. This advice was received from the chief of the telegraph at Torreon late Wednesday night by the Mexican consul. The telegram does not say that there was any fighting between Blanquet's federals and the rebels, but says that the command of Arguedo has been divided and driven back to the north and south.
 The consul says that there are now 3000 men north and west of Chihuahua who will cooperate with Huerta in his advance on that city. It is believed that a flank movement from the west will be attempted along the line of the Mexico North Western line into Chihuahua while Huerta is attacking from the south.
 A shipment of 800 rifles and 22,000 rounds of ammunition was made by the Mexican consul to Sonora by way of Douglas, Ariz. The arms and ammunition was purchased in a local arms house and shipped west on the Southwestern by the consul and Felix Summerfeldt.

handed in. Jordan's terrible crime was discovered when he attempted to ship the dissected body from Boston to New York in a trunk, which arrived at the pier too late for the boat. Nine Times Out of Ten
 the man who begins to save stops some kind of foolishness. Economy means giving up something, and the wise man usually manages to give up that which is bad for him. When you begin to save, you begin as a rule to sleep longer, to drink and smoke less, to waste less time among unprofitable friends. Think this over today. Think of your own case.
