Ever made a successful piece of Furniture. Neither good stock—good design—good finish or low price is sufficient by itself to make a worthy article.

It is only by a combination of all these points that satisfaction can be assured.

The consumer is naturally the one to determine if style and price are satisfactory—he must then leave it to his dealer to protect him from inferior stock and poor construction.

We buy nothing without carefully considering it from every point of view—we sell you nothing we do not conscientiously believe to be well worth the price we ask.

HUERTA IS ON THE ADVANCE NORTHWARD

Federals Moving Slowly in the Direction of Chihuahua for Battle.

HUERTA LOSES SOME KILLED IN FIGHTING

At Gen. Huerta's federal headquarters, La Cruz, Mex., June 20—Five thousand government troops, including infantry, cavalry and artillery, commanded by Gen. Huerta, are on the march today toward Bachimba, where the decisive engagement of the Mexican revolution is expected to be fought. The entire division is expected to be encamped tonight at Saucillo, only 29 miles from Ortiz, the rebel point, and but 35 miles from the whole rebel army at Bachimba. The federal vanguard of 18th, cavalry under Gen. Rabal, is expected to be in frequent skirmish with the enemy around Las Delicias, eight miles south of Ortiz, as has been the case in the last three days.

The outpost fighting has resulted in a loss of seven dead, 16 wounded, and 19 horses. Federal losses are estimated at much greater figures because the government outposts claim to have occupied advanced positions in the hills around La Cruz, 20 miles north of here. Gen. Rabal reported to headquarters that he had routed the enemy in every instance, the best proof of his accomplishment being the retreat of the rebel front line to Ortiz 36 miles north of La Cruz, where the skirmishes were held during the fighting.

Inspection of the battlefield today revealed the fact that the rebels wasted much ammunition as empty canisters were found in profusion in the positions they held during the fighting.

Huerta Claims Victory. Mexico City, Mex., June 20.—An official telegram from Gen. Huerta to president Madero today at La Cruz confirms previous reports of a battle there and claims a federal victory over 2500 rebels. Huerta is reported moving forward to Saucillo.

CONVERSE IS HERE TO PUSH HIS CLAIM

Asks \$25,000 for Being Kidnaped and Imprisoned by Federal Soldiers.

Lawrence Converse, one of the Americans who was held in the Juarez jail by the federalists, is here to present his claim before the claims court which the Mexican government has established at the Mexican consulate. Converse was kidnaped near Sierra Blanca and taken across the river and confined in the federal jail until he was released, together with Edwin Blatt, his companion, by order of president Diaz.

VARGAS HOME IN JUAREZ IS LOOTED

The home of Sebastian Vargas, in Juarez, has been looted during the last few days of nearly everything of value. The Vargas family are refugees in El Paso and have not been in Juarez since the rebels have been in control, but left a little Mexican girl in charge of the house. The looters of the house are not known.

The Vargas home is where Madero and Gen. Navarro stayed while in Juarez, after the battle last May. Sebastian Vargas sr. is a member of the Chihuahua legislature and his son is state tax collector in Juarez.

REBELS TO REINFORCE JUAREZ; FEAR ATTACK

Madera, Mex., June 20.—Rebel leaders today arranged for a special train to carry reinforcements from Casas Grandes over the Mexican North Western to Juarez, where an attack by federal forces approaching from the west is anticipated within a week. It is claimed by the insurgents officers here that the entire North Western line is still under rebel control and that there is no fear of federal interference for the present. Meanwhile the rebels are strengthening their garrisons along the line in expectation of activity. Twenty-five men were sent from here today to garrison Temaschic, 20 miles south.

Though the skirmish at Aguaje on the Mexican North Western north of here was fought a week ago, a Mexican ranchman who today had occasion to ride over the battlefield found a saddled and bridled horse, starving and thirsty, held fast by a rope clenched in the hand of a dead federal officer. The man had evidently been wounded and had got off his horse to relieve his suffering, the horse being kept prisoner, though the officer died. In the saddle bags were found \$5000 in bills and some records, but nothing to indicate the name or rank of the officer.

Large forces from the Juarez garrison have been sent out during the last few days to watch the surrounding country near Juarez. Mounted guards are being kept continually on duty in Juarez at the present time and the men ride through the streets day and night.

CHIEF OF REBEL MEDICAL CORPS RESIGNS POSITION

Dr. A. R. Echeverria, of Chihuahua, who has been chief of the medical department of the rebel army, has sent his resignation to Gen. Pascual Orozco and is now in Juarez awaiting the acceptance of his resignation. He will go to Cuba for a short stay.

Federals, dressed in regular federal uniforms, are being seen again below Yaletta on the Mexican side of the river, according to the reports that have been brought to El Paso from the valley town. Gebhardt, of company D, 2nd Infantry, is reported to have seen the phantom federals, although Col. Steever has received no report of any federals in the vicinity of Juarez. Col. Steever does not place any credence in the reports, as he says that his officers are instructed to report the presence of any Mexican troops opposite the American side of the river.

EDUARDO OCHOA IS ARRESTED ON TRAIN

Is Alleged to Be Responsible for Much Ammunition Smuggling.

Eduardo Ochoa, said to be the purchasing agent of the rebel army, has been arrested on the charge of conspiracy to smuggle ammunition into the republic of Mexico. Ochoa was arrested Wednesday night while on the Southern Pacific train for the east. He was arrested by L. E. Ross, of the department of justice, who was a passenger on the same train. Ochoa was taken off the train at Yaletta and brought back to El Paso. The arrest is a result of the investigation of the ammunition smuggling case at Deming, N. M., when Castillo Herrera, operating with the assumed name of George Valencia, is alleged to have arranged for the smuggling of 48,000 rounds of rifle ammunition from Deming to Mexico by way of Columbus.

THINK TROUBLE DUE TO TROOPS AND NOT TO SOLDIERS

For two days the Mexican North Western railroad has been having wire trouble and only for a short time has the Juarez telegraph and telephone been able to communicate with Madera. The company officials attribute the break in telegraphic communication to heavy storms which have been in the section along the railroad, and not to any activity of either rebel or federal forces. Thursday the trouble with the wires
