The Lost and Found. "I will be ever grateful to the Want Columns for the return of an article of jewelry, an heirloom, that I lost one evening, and which was returned to me the next evening."

You have heard such expressions from many who have had practical experience with the remarkable efficiency of the Want Columns in recovering lost articles.

One great convenience of the Wants in returning lost articles is the fact that they work so quickly. A few hours after you send your Want Ads to The El Paso Herald, teller of a lost article, thousands of people are reading the Wants, and the losers and finders of lost articles, naturally enough, are the first to make a critical examination of the lost and found classification.
