WILSON SAYS VISION PRESERVED PARTY

Declares There is No Democrat of Prudence or Thoughtfulness Who Contemplates Free Trade Program.

Cleveland, O., Oct. 12.—The vision of the Democratic party, which he declared had preserved it from alliance with the domination by special privilege, was the burden of an address here by Gov. Woodrow Wilson. He performed what he designated as a ceremony of introduction of the Democratic party to some of his hearers who "are not well acquainted with it," and after an explanation of what he contended were its principles, expressed the hope that the introduction had been successful.

"I want to introduce you to the present Democratic party," he continued, "a party that has come through fire, has been purified, has been shown such errors as it has committed in past

years, and is now absolutely and enthusiastically united upon a progressive program, a platform such as the whole country now desires to see carried out. That is the new Democratic party, new because it never grows old; new because the principles in which it is rooted and grounded never can grow old. This is the party which is now being questioned with regard to its purposes by the leaders of parties which are either breaking up or have not yet attained to the bone and sinew of manhood.

"These men are saying: 'If you give power to the Democrats, you will run into evil days. For one thing you will have free trade.' Ah, that ancient bogey. How long will they continue to dress this thing of their imagination in the old clothes of antiquated stump-orators? There can not be free trade in the United States so long as the established fiscal policy of the federal government is maintained. The federal government has chosen through-out all the generations that have pre-

ceded us to maintain itself chiefly on indirect interest of direct taxation. I dare say we shall never see a time when it can alter that policy in any substantial degree; and there is no Democrat of prudence or thoughtfulness that I have met who contemplates a program of free trade.

"We are going to pull up every root that has so spread itself as to draw all the nutriment of the soil from the other plants. We are going to see to it that fertilization of intelligence, of invention or origination, is once more applied to a set of industries now threatening to be stagnant, because threatening to be too much concentrated. That is the policy of the Democratic party in regard to the protective tariff, as I understand it. The Democratic party has not proposed to change the established fiscal policy of this country, except where it furnishes root for special privilege; and wherever special privilege grows there American labor languishes.

"Now, I for my part don't want to

belong to a nation, and take leave pretty to believe that I do not belong to a nation, that needs to be taken care of by guardians. I want to belong to a nation, and I am proud that I do belong to a nation, that knows how to take care of itself.

"It would seem as if America were about to see a generation grow up which must be a generation of employes, unless it makes up its mind to be a generation of masters. The great militant, fighting, triumphant America the world has known and admired is a nation of officers, a nation of men who are their own masters, a nation of men who will originate their own processes of industry and of life, and we shall never see the day, I confidently predict, where America will allow itself to be employed and patronized and taken care of."

WHY LOTS IN Grandview Addition

Are the Best Investment You Can Make in El Paso Real Estate

Grandview is a finished, modern residential suburb. Grandview has all modern improvements, including electricity, gas, water, telephones and superior street car service.

It is situated high and dry in the most beautiful part of El Paso and has attracted some of the best families in El Paso, who have built some of the prettiest homes to be found in the city.

Ordinary, unimproved property without any congenial surroundings whatever will cost you more than lots in Grandview. The terms are easy—

\$10.00 Down and \$5.00 a Month

MRS. DELLA CARLEY GOES TO THE ASYLUM

Woman Who Killed Attorney and Wounded Postmaster, Adjudged Insane; Commissioners Named.

Santa Rosa, N. M., Oct. 12.—Mrs. Della Carley, formerly night operator of the Santa Fe at Ricardo, who two weeks ago shot and killed George Breanahan, an attorney, and seriously wounded Miss Okey Zimmerman, postmaster at Ricardo, and who was adjudged insane by a commission appointed by district judge Leahy, was removed to Las Vegas on Friday,

where she was committed to the state asylum for the insane. She was in charge of deputy sheriff Sanchez and Mees have left for Santa Fe in charge of the six prisoners sentenced at the recent term of court to terms in the penitentiary.

The county commissioners of Guadalupe county will convene their regular October session on Monday, a short adjournment having been taken from the first Monday on account of that date conflicting with the full term of district court. Among other matters to demand their attention is a petition of citizens of East Vaughn, asking for an election to determine whether or not that village shall be reincorporated. Similar action was taken a year ago, but was defeated at the instance of residents of East Vaughn who were interested in seeing the municipality maintained. East Vaughn is the only municipal corporation in the county, and was incorporated primarily for the purpose of facilitating arrangements for a water supply. Their plans in this regard have, however, never been carried out, and very little has been accomplished through the corporate organization in the way of civic improvement.

The state road commission has appointed J. H. Hicks, of Santa Rosa; Benigno Padilla, of Puerto de Luna, and P. L. Harrington, of East Vaughn,

as the highway commission for this county, under the revised road laws enacted at the last session of the legislature.

The Socialists of Yuma will erect a \$1000 reading room in that place. Some time ago a comrade died, leaving \$1000 to the local. This will be expended in a reading room.
