CLOVIS CHRISTIAN WORKERS ORGANIZERS VISIT Clovis, N. M., Nov. 6--A number of Christian workers met at the gospel mission for the purpose of organizing a union mission. Rev. M. Atkinson, of Amarillo, acted as chairman. An

advisory board was elected and Mr. Gordon was appointed chairman of the board and Mrs. Quantz, secretary and treasurer. Tuesdays and Fridays were named for meeting days and Sunday school at 2:30 every Sunday. Its purpose is to try to reach those who do not attend church and also to make a greater spirit of fellowship among Christians of every denomination.

John Reynolds, of Kansas City, in company with another real-estate man who is already heavily interested in this section of the country, spent a week in Clovis, and is going further west and to El Paso to look the country over thoroughly. While here his investigations were along the line of investments.

Mr. Hill pointed out that the building of one ditch to supply five, with only one headgate, would be the best plan. However, he would give no assurance that the government would eventually take over the ditch system and operate it. On this the water users are willing to take a chance.

Much Water Wasted. At present there is much waste of water and danger to lands in flood times, so Mr. Hill was asked to explain how the government would propose to protect the lands and at the same time conserve the water. He said that community ditches were the hardest things in the world to operate satisfactorily. W. O. McNary said they were about as bad as any he had seen in the United States. All incorporated companies, he was of the opinion that it would be easier to convince the government that it was better for it to operate it if the company was incorporated.

The lines for the new ditch will be made after Mr. Gault has made a survey of the land and the most feasible point is selected for the main ditch. Those attending the meeting as representatives of the water users were: H. P. Hannon, Lee Harlan and W. J. Yillean, of La Union; N. Van Gass, W. O. McNary and Dayton Tally, of Chamberino; Humboldt Cassid, J. M. Garrett, P. H. Bailey, J. H. Murphy and J. E. Forcher, of La Union; L. C. Post, of Las Cruces, and L. Clapp, president of the Elephant Butte Water Users' association.

A. T. Whittington, superintendent of the Rio Grande division of the Texas & Pacific Railroad company, with headquarters at Big Springs, is in El Paso on an inspection trip.

At present five ditches, representing a mileage of about 18 miles, are being used. They are the Santa Tomas, San Miguel, La Mesa, Chamberino and La Union. All are operated under separate headgates, but it is planned to operate with only one headgate to be installed by the water users. They will then seek remuneration from the government under the Elephant Butte project for the money they expend.

WATER USERS OF UPPER VALLEY MEET

High Line Canal and Elimination of Headgates Discussed with Engineer.

The El Paso Valley Water Users' association met Wednesday afternoon with L. C. Hill, supervising engineer of the United States reclamation service to discuss the high line canal proposition and a petition requesting the government to build it is being considered for circulation among the water users.

Wednesday morning the Elephant Butte water users met at the chamber of commerce to discuss plans for economizing the operation of ditches on the west side of the Rio Grande in the upper valley.

Representing the government were L. C. Hill, supervising engineer of the Elephant Butte project, and H. J. Gault, engineer in charge of surveys for the same project. There were 14 water users in attendance at the meeting.

Plan One Headgate. At present five ditches, representing a mileage of about 18 miles, are being used. They are the Santa Tomas, San Miguel, La Mesa, Chamberino and La Union. All are operated under separate headgates, but it is planned to operate with only one headgate to be installed by the water users. They will then seek remuneration from the government under the Elephant Butte project for the money they expend.

Mr. Hill pointed out that the building of one ditch to supply five, with only one headgate, would be the best plan. However, he would give no assurance that the government would eventually take over the ditch system and operate it. On this the water users are willing to take a chance.

If you cannot buy McElwain Shoes in this town, it is because your dealer does not want the McElwain trade mark on the shoes he sells. But nevertheless ask him what he thinks of McElwain Shoes. W. H. McElwain Company, Boston

CAMERON IMPORTS MEXICAN CATTLE

Destruction of Railroads Makes Movement of Cattle Slow Work.

Mexican cattle are being moved to the border in large numbers but it is necessary to move them overland and therefore they require a greater length of time to make the trip than would be needed if the railroads were operating.

John T. Cameron arrived in Columbus, N. M., Wednesday morning with 2248 head from the Pearson district. The duty paid amounted to \$832. These are Mexican cattle of good breed and it was while rounding them up that Cameron was held by the rebels and forced to pay a ransom of \$5000 gold.

Boyd and Booker will import 2000 head of black mulays at a point near Hachita, N. M., probably Thursday. These have been driven overland from the Gilaosa district.

The Pitman Cattle company will receive 200 head of Mexican cattle from the ranch of Juan Ochoa on Thursday. These cattle were driven overland from Mr. Ochoa's ranch at Samalayuca and will be received in El Paso.

Boone Bros. are driving 400 head up from Pearson, 150 miles to Columbus, N. M. There they will be delivered to the Pitman Cattle company.

C. E. Wiswall, manager of the Greene Cattle company at Cananea, is in El Paso. He says that no cattle are being shipped by his company at the present time and there are no reports of thefts by the rebels.

Dr. J. C. Reed, of the bureau of animal industry, is in Columbus, N. M. Dr. H. M. Hart is at Nogales, and Dr. W. P. Propper is in Douglas, Ariz. All are supervising the importation of cattle.

On Nov. 11, Wm. Benton will import 200 head of his own cattle at Hachita, N. M. He has about 7000 head in the Gilaosa district and is moving them into the United States in small droves.

Imports Show Big Decrease. During the 10 months ending October 1, 1912, 83,765 head of Mexican cattle were imported at the local port, compared with 178,440 for the 12 months of 1911, showing that the railroad troups and the activity of rebels in Chihuahua have done much to decrease the number of cattle imported.

The value of the 1912 importations has been \$845,555, and for the year 1911, \$2,065,117.

J. H. Grayson, ticket agent for the El Paso and Southwestern railroad, was in El Paso Tuesday, accompanied by Mrs. Grayson, en route home from an eastern trip. Mr. Grayson was at one time ticket agent of the G. H. road in El Paso.

SCHRANK TO BE ARRAIGNED SOON

Milwaukee, Wis., Nov. 6--John Schrank, who attempted to assassinate Col. Roosevelt, will be arraigned in municipal court to enter a plea of guilty or not guilty either Thursday or Friday, according to announcement made at the district attorney's office today.

As soon as his plea is entered, a commission of attorneys will probably be appointed by the county to make a formal inquiry into Schrank's mental condition.

7000 burnished posts for sale at Lander Lumber Co.--Adv.

INTERURBAN COMMITTEE WILL HOLD A MEETING A meeting of the valley interurban committee will be held at the Rio Grande Valley bank Thursday morning at 11 o'clock. The deeds to the Interurban right of way have been coming in slowly and the business men who have pledged the right of way to the Electric Railway company are planning to close up the campaign before the end of the month.

FREE TO ASTHMA SUFFERERS

A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time.

We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as occasional or chronic Asthma, our method is an absolute cure. No matter in what climate you live, no matter what your age or occupation, our method will certainly cure you right in your own home.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, turpentine, "cough smokes," etc., have failed. We want to show everyone at our own expense that this new method will end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.

This free offer is too important to neglect a single day. Write now and begin the cure at once. Send no money. Simply mail coupon below. Do it Today.
