TURKS MUST GIVE UP ADRIANOPLE FORTS

European Powers Demand That Ottomans Respect Treaty—Balkan Troops May Lead to a Third War.
London, Aug. 7.—Representatives of the powers have taken the first step at Constantinople to compel Turkey to evacuate the fortress of Adrianople, which her troops occupied after war broke out between the former Balkan allies. The diplomatic body demanded that the Turkish government should respect the treaty signed in London between the former belligerents.

Prospect of a Third War.
With the Balkan nations dissatisfied with the terms of the Bucharest peace treaty, with the possible exception of Rumania, the question is being asked, how soon a third Balkan war will break out.

Bulgaria has obtained under the agreement a considerable portion of northern Macedonia—much more than the allies were at first inclined to give her. Bulgaria has 40 miles of the Aegean seaboard, which will enable her to build her projected railway from Thessalonica to the sea.

Bulgaria, however, deeply resents being deprived of Kavala, a port on Kavala bay, which goes to Greece. Bulgaria will seek to introduce in the peace protocol a reservation practically annulling the European award for a subsequent revision of the peace treaty.

According to a dispatch from Bucharest, the order to demobilize has been officially promulgated.
