

This Preacher Won't Let Snakes Come to His Church

Why Don't He Want These Health Dealing Physicians to Inoculate His Church?

Bristol, Tenn., Sept. 22—Without in any way disturbing his discourse, Rev. M. Dykes killed a snake that intruded upon the service. As he proceeded with his sermon he observed the reptile, two and a half feet long, slowly coming down the aisle.

Desirous of avoiding fright among the women, he advanced slowly from the pulpit to meet the snake, continuing his sermon as though nothing of a threatening nature was happening. Using his heel he came down full weight upon the approaching reptile's head and ended its life.

CHURCHES DENOUNCE FAKE CURES

National Association for the Prevention of Consumption composed of leading physicians and scientists of our country. If you value your life and that of your loved ones, read this great article from the morning Times's editorial page, Oct. 8. Let it sink clear down into the sole of your shoes. These great doctors, like the and what we have told you all the time

From thousands of pulpits in all parts of the United States, take cures for consumption will be exposed and denounced on Tuberculosis Day, October 27th. This is part of the program for the movement announced today by the National Association for the study and Prevention of Tuberculosis.

Literature giving information on fraudulent and alleged "cures" for consumption will be sent to clergymen all over the country, and an organized crusade against the traffic in these drugs and devices will be instituted. The literature will be sent to ministers either directly from the National Association office in New York or through the many state and local anti-tuberculosis associations scattered throughout the country. It is estimated that over 100,000 clergymen will be reached in this way.

From actual records on file in the office of the National Association, it is estimated that the volume of business done annually by the various concerns who sell fake remedies for tuberculosis amounts to well over \$15,000,000. The number of these remedies now being used as so-called "cures" is over 500.

These classes of "cures" are distinguished by the National Association. In the first class are included hundreds of devices and drugs which can be bought at a drug store. The second class of "cures" includes the "institutes," "professors," or companies of "doctors," who for a consideration guarantee to cure consumption by some secret method of which they are the sole proprietors. There are nearly one hundred-fifty of these institute frauds in the United States, cheating the people out of millions of dollars annually.

In the third class of "cures" are placed a number of home-made remedies, which either through ignorance or superstition, have been advanced as treatments for tuberculosis. Some of these are onions, lemons, rattlesnake poison, coal dust, lime dust, pig's blood, dog oil, milk "strippings" and even alcohol.

None of these remedies will cure consumption, doctors The National Association. No drug or other material has yet been discovered, which, when eaten, inhaled or injected into the system, will kill the germs of tuberculosis without doing serious injury to the body. The only real cure for tuberculosis recognized by the National Association consists of the combination of fresh air, good food and rest.

Fresh Air, Good Food and Rest.

There is nothing, according to these

Great Doctors, in the drug line of any value to a consumptive. But they need rest. Why? Because they have been exhausted. Just as we have told you all the time. Every time you put a dope into your mouth or that of your child you join this great army that is marching down to a consumptive grave. More than the entire inhabitants of South Dakota die each year from being exhausted into a consumptive grave. Physics, which irritate into cancers, cough medicines, which stop cough and thus deadens nerves to lungs, allowing them to fill and produce all pneumonia and consumption, whisky and beer to warm you up when you are cold, all cinch you like a vice and drag you down.

Don't you remember the Great Army Surgeons said: "There was no place in medicine for Alcohol of any description. It had no virtues, as it was an exhauster."

Don't you remember the Great Cancer Doctors showed that all cancers were caused by irritants such as Physics of every description, and Alcohol and X-Rays, etc. So there isn't a virtue in any drug or stimulant on earth, as they either stimulate or irritate, and either exhaust you into consumption or irritate into cancers.

Mark You! These Great Physicians.

In this society for prevention of consumption, and great cancer specialist, and head army physicians, and Dr. Magendie, who is head of French school of medicine, who made the Great Test. All these who so conscientiously denounce drugs, and stimulants, X-Rays, etc., and pronounce them the cause of cancers, consumption, etc., and that they have no curative values are all men at the head of the Medical Profession. What then would they do in case of sickness?

Remember they are men of brains or they wouldn't be where they are, at the head of their profession, and can save more lives than any of the rest of their profession. A gentleman from El Paso was in New York, was taken with smallpox, was sent to one of the largest hospitals under specialists for curative diseases, what did they do for him? They gave him hot baths. Why? To warm up the skin and draw the eruption out. They gave him cold

drinks of cream of tartar and grape juice. Why? These are natural foods made from grapes. They fermented the stagnant blood in his body and thinned it, so it was easy to circulate and could pass through the kidneys rapidly without clogging, so there would not be so much of it left in the system to come out in eruptions. And the drinks were cold, so as to cool the intestines, so the eruptions would not break out internally. You see all such treatments are restful to the nerves and do not exhaust them like a stimulant or irritant would, as they instead of resting a nerve whip it up. Remember they cure the greatest percent of smallpox cases there of any place in the world. And there is no exhausted condition to run you into consumption.

A young man from El Paso was in school in an eastern city. He had studied hard and was exhausted and taken sick. An eminent physician was called in. What do you suppose he gave him? A strawberry shortcake.

Why? He needed the acid to thin and ferment his blood and the iron to feed his nerves. Thus resting and feeding the nerves on natural foods, saved him from being a consumptive. Why didn't he give him an iron- tonic? Because the iron would have been in an unorganized state. It had nothing in its molecules to give off and take on and thus mix with the blood as in the strawberry, and it would thus become a poison in the stomach the same as a rusty nail in the foot, and blood poison would set in and create a cancer. All elements needed to nourish and feed the blood and nerves, etc., must be in the organized state as in food. All elements in plant life that do not enter into the building up of the human body are foreign matter and irritants or stimulants and are exhausters or irritants. Grape juice is a natural food. If it thins the blood with its acid and feeds the nerve with its iron and other elements. If it ferments before being taken it loses its acid and becomes alcoholic and dries the blood and burns and irritates the nerve, and is thus an exhauster and an irritant and kills instead of nourishes. Its original molecules have been destroyed, and it is of the Marsh Gas series or decayed state, same as spoiled food of any nature, and if taken disorganizes and produces disease. In typhoid fever now the wise physician gives only both, hot or cold, as he wishes to regulate the temperature and thus save the nerves from exhaustion and special food, and his success is marvellous. In cases of constipation he puts them on fluid acid

diets, so the system can absorb them and allows them to go a week at a time, thus resting the liver, which is exhausted, is why it can't take care of the food that is eaten and they thus rest nerves to liver and the acid foods and cream digest the food without the use of bile, and you are well again without being exhausted into a consumptive or irritated with calomel or other physics into a cancer. So this is the dawning of the greatest day the world ever knew.

For the medical physician is turning his attention to resting the nerves to the various organs and nourishing natural foods. So that when the Osteopath frees the nerves that have been congested either from over indulgence or taking of stimulants or irritants, or poisons from some other diseased person. The noble, conscientious medical physicians will be at his side helping to rest these nerves with his foods and regulating the fevers with his baths until side by side and heart to heart they lift suffering humanity out of their couch of pain and rob death of many a victim, and cut out from our lives that dreaded monster, consumption and cancer, that haunts us even in our peaceful hours like a dreaded monster, seeking whom it may devour, striking down in the bloom of life the flowers of our land.

Go now and have the Osteopath free the nerves so the stagnant blood will not generate a cancer or exhaust you into a consumptive, for it is the only safe way to handle diseases, as the handling of 8000 cases with a loss of only eight has demonstrated beyond a doubt here in El Paso. We have with us now a patient of Dr. Fry, the noted nerve specialist of St. Louis, considered so by the Medical Fraternity, and he prescribed no medicine but foods, baths, exercises and they are in perfect harmony with our treatment and the patient is recovering nicely.

Which shows there is perfect harmony between the treatments of the leaders in medical professions and the principles of Osteopathy, which restores the nerves to their normal strength and they restore the circulation, carry out the impurities, build up the diseased parts, as they did when the blood first made it, and you are well again. For there is no other way to cure diseases and we have demonstrated it by our success here in El Paso.

RATTLE SNAKE POISON

According to leading Medical Journal of Philadelphia, The Leading Remedy now for Diseases. Is it Possible that we have Degenerated to what civilizations a few years ago thought was the very depth of degradation on the part of poor degraded, benighted India. Who's family physician was a poisonous serpent? Well from what I know of some modern family physicians, I guess they're right. We suppose it is properly sterilized so it will not damage the patient like a little innocent fly's feet would. Whose mission in life is to eat up and destroy poisons. Every drug or injection has been lauded one day and then been proven a destroyer of life. Why? Because if it is not a poison it will not excite up the nerve so as to increase the circulation like alcohol, which is of the marsh gas series of chemicals, the same kind of poison as malaria in swamps which comes from decaying vegetation. Whisky is simply decayed grain juice and might be properly named decayed plant juice. The effect on the liver of malaria and alcohol is just the same. All poisons and stimulants are followed by a corresponding depression. That is the way they are tested. They are followed by a depression because they are not nourishing and have no food value. You eat nourishing food and it invigorates and is not followed by a decrease in vigor or depression. It is because of these drugs and stimulants causing an exhaustion of the nerves, or depression that makes them so dangerous to human life, especially when one is already sick and exhausted. That is why Dr. Magendie, head of the great Medical school of France found that from 20 to 40 per hundred died when given drugs and stimulants for various diseases and the other half that he gave no drugs to only one per hundred died, suffering with the same disease. That is why we are so fast becoming a race of drunkards and tobacco users. Our mothers exhaust us in infancy and the doctors follow it up. And our vigor is gone and we crave stimulants and poisons. This last year we consumed as a nation the most tobacco and alcohol ever known. Of the 200,000 insane every one because insane from use of poisons in various forms because the heart had poor circulation to it and was catarrhal and the poisons settled there. And every one who used various poisons and exhausted and irritated their stomachs and livers into cancers until one-tenth of them died an awful cancerous death in mid-life, or one of the 80,000 who annually drop dead from heart exhaustion. And every one of the one-third of our nation who had exhausted themselves with various poisons until the stagnant blood had over-taxed their lungs to oxidize it until they died of consumption in the prime of life were just as indifferent to these warnings as you are and smoked and drank and took drugs and doped and poured it down their children with just as much faith that they could hope to be cured by dope that would kill a well man. When you knew that the human race after trying these poisons for centuries were dying like flies and yet you were just as ready for the next course of Dr. Fredman's rotten turtle soup or decayed alcoholic plant juice as you ever were, which only poisoned your system as usual, while suffering under the hallucination of your new found jag. You certified to its merit and you lifted up your voice and cried, IT IS! IT IS! THE ELIXIR OF LIFE.

No matter what the poison is it exhausts, just like the poison from measles, smallpox, diphtheria, malaria, rattlesnake or alcohol or rotten turtle soup, produces stagnant blood in that part which decays and produces a disease of that part which it settles in. Restoring of the circulation is what they are all driving at and if, instead of using these various poisons to excite up the nerve and thus exhaust it the more and are followed by a great increase of deaths and untold number of cancers, consumptives, heart failures and insanity. If instead of these poisons, they would go to the Osteopath and have these exhausted nerves freed at the spine where the false excitants have congested it. Then the restored nerve would restore the circulation in the part permanently with no exhausted fatal after effect and the restored circulation of blood would then carry out the impurities and build up the part again, just as it did when it first made it. And permanent health is result. And you'd feel as good all the time as you do when you are exhilarated under the poison of your new found jag. And no danger of cancers, consumptives, insanity, heart failure. No wonder all El Paso has taken it up, and the great legislative bodies of 40 states have made laws in Osteopathy's favor. And the leading people of the earth have taken it up until fifteen thousand of the cream of the earth gathered at Kirksville, Mo., to pay tribute and lay their homage at the feet of its great founder. For nothing but the Blood ever made a brain, or liver or lung or stomach or kidney or muscle. But the Blood and it only can carry out the impurities and build up the destroyed parts again.

Dr. Ira W. Collins, El Paso, Texas:

Dear Sir— If any one has rheumatism like I did, and have tried everything else and have given up all hope, then let them do like I did, go to you and get well. But it strikes me people who read about Osteopathy from the rest of us who have tried it as last resort, ought to get wise and go in the first place and save all that torture and expense. For it would be so much easier to cure at first. Yours gratefully, W. T. HAYS, 1027 Arizona street.

El Paso, Texas, June 12, 1913.

READ WHAT SHE SAYS:

Dear Dr. Collins:

I wish everyone knew how you can cure Appendicitis. For I was so badly afflicted and an operation was demanded immediately, and like everybody else I dreaded it, as so many lose their life. But after taking treatments I am now in perfect health and have been ever since. Let everybody know about me and the others who took at same time. Yours, MRS. J. C. HARDWIG, 2001 Ohio Ave., El Paso, Texas.

El Paso, Texas, Jan. 17, 1913.

Dr. Magendie was right—it is the knife and drugs that kill. He divided the patients. While head of Hotel Dieu, largest in France, gave one-half nothing or bread pills and lost one out of a hundred, every kind of disease. Gave the other half drugs and stimulants, according to medical standard; lost 20 to 40 out of a hundred, same diseases. He declared when made president of largest medical school of France, it is the drugs and stimulants that kill, not disease. Dr. Still Osteopathy Infirmary has demonstrated it right here in El Paso by handling all kinds of disease and lost least percent ever known. Feel your spine, the trouble is always there.

ULCERED EYES.

Like Mr. Buchanan did when his eyes were so ulcerated and had he suffered death. They resembled chunks of beef steak. Now he can see and has gone back to work. Also Little Blind Joe Kelley and Mrs. Smiley, who can now see as well as anybody.

STOMACH AND LIVER TROUBLE.

Or like Mrs. Bee of Courtland, Ariz., did when doctors only gave her 3 days to live, and called her husband an old fool for bringing her here. Worst case of stomach and liver trouble, couldn't hold water on her stomach, now eats er trouble and rheumatism on record now well and hearty.

RHEUMATISM.

You ought to go there like Mr. Williams of Morenci, Ariz. did. Had been to all kinds of springs and suffered agony all the time with rheumatism. Was brought here on a stretcher. They loosened his hip right here. Doctors reported all over town they had broken his hip. Is now back home at work and happy.

LOCKED BOWELS.

Here is where they cured Mrs. Crosswhite of locked bowels. Doctor had given her hope and burned them into mass of sores. Osteopath loosened nerve right here and cured her up. Would have been a corpse if 24 hours. Another lady in same fix on Missouri street. Had been nearly killed by "loping" when bowels were locked. Is now well. Also nearly a hundred cases like these cured after being nearly killed by drugs which try to force the food through and often burst them. That is the only way you can do with appendi-

FITS.

Here is where they cured Earl Powell of El Paso of fits that 20 doctors, so-called specialists, had bled his parents of all kinds of money and never did him a particle of good. Now he is perfectly well, together with about 60 more all kinds of spasms in children, simple minded, paralysis, all children's diseases. At least 1000 cases handled.

APPENDICITIS.

This is where they cured the manager of Overland magazine of appendicitis. Doctors said he would die in 24 hours unless they operated on him. The New York manager had been cured of appendicitis by Osteopathy. He wired to have him sent to Dr. Ira W. Collins, of Dr. Still's Osteopathic Infirmary. He is now sound and well, so is about 200 more cases, many of them living right here in El Paso.

CONSUMPTION.

This is where they cured Mrs. Mills and Mrs. Talkurst of consumption when even the brother of Mrs. Talkurst, a medical doctor, said she never could return to her home. Now they are both well and live back at their old homes. They usually send a dozen or two home well each spring besides all that live here in El Paso. In fact, they never lost but one patient with throat and lung troubles out of the hundred they have handled. See the sworn statements of their patients.

ASTHMA.

This is where they cured Mr. Brown, the postmaster at Courtland of asthma. Also Mrs. Earker on Boulevard and several business men here in El Paso besides scores of women. In fact, there is no other way to cure asthma as the hundreds of our patients will certify to. See their sworn statement before notary.

TUBERCULOSIS.

This is where they cured all these tubercular hips. Many of them had been in casts and were all worse than they were before. Some of the hips were out of joint. These were all set. Some had been bandaged too tight and some had rotted. Some had old sores of 20 years' standing. All were cured. Some had run nails in foot and had just blood poison. All were cured. Many of them live right here in El Paso so you can see patients and talk with them. See their sworn statement before notary.

NERVOUS BREAKDOWN.

This is where they cured Mr. Holden, the banker, Mr. Homer, the merchant, of New Mexico, besides scores of others right here in town, besides all these ladies who have suffered so much. They always have droves of these on hand, as there is no other way to cure them but take the pressure off the spine. Two different families had given their daughters up to die with this trouble here in town. Usually caused by taking drugs. Osteo-

DEAFNESS.

Here is where they cured deafness so they can hear as well as you can. Miss Haywood of Las Cruces, Miss Jones of El Paso, and Miss Becket of Tucumcari, and Mr. Webber of Arizona, and Mr. Huden of New Mexico, besides scores of others, besides helping many others who did not take long enough to get well.

GALL STONES.

Here is where they cured of gall stones Mrs. Waldon, Mr. Wycoff, Mrs. Tilton, Mrs. Barker, besides a hundred others. They loosened the nerve to liver and the blood softens the gall stones and dissolved them and threw them out. At least a hundred cases.

FEMALE DISEASES.

Here is where they cured 1200 cases of female diseases. Hundreds of them had had operations and all were worse than before the operations, some had great abscesses left because the avenue of escape for the stagnant blood had been shut off. Some had shriveled limbs and suffered death. I wish you could see all the mangled people they have to deal with

BRIGHT'S DISEASE.

Here is where they cured Mr. Harper of Clifton, Ariz., of Bright's disease, given up to die. Mr. Hays of New Mexico, Mr. Wilson of Dalhart, Mrs. Jones of Maria, and 200 others, many right here in El Paso.

GRIPPE AND PNEUMONIA.

Here is where they cured Mr. Roberts, Helme's daughter and Mr. Kibben. Osteopathy is the only way to cure grippe or pneumonia for the nerves in either case are congested to lungs and you must free them or you will go into consumption if you exhaust them by drugs or stimulants. That is why one-third of our inhabitants die in prime of life with consumption. Osteopathy frees the nerves and they force circulation in lungs, throw the impurities out and you are well again.

HEMORRHAGES.

Here is where they cured Mr. Smith after he had bled a bucket full. Given up by the surgeons. Also Mr. Hynes of lung hemorrhage. Mr. Shubalter, also lung hemorrhage. In fact a hundred different internal hemorrhages. They have perfect control of circulation in any kind of hemorrhage. They never tie arteries, but stop them immediately.

Osteopathy Substantiated BY THE BEST PEOPLE

—OF— EL PASO This certifies that I, G. L. Hannan, am a notary public in and for El Paso County, State of Texas, and that I took the statements of the leading people of El Paso, who had been treated at the Dr. A. T. Still Osteopathic Infirmary, under Dr. Ira W. Collins, for nearly every disease you can think of, and they verified the fact that they were cured, and were enthusiastic in praise of the Osteopathic treatment.

G. L. HANNAN, Subscribed and sworn to before me, this 26th day of October, A. D. 1910.

A. S. THURMOND, Notary Public in and for El Paso County.
