TERRAZAS TO REMAIN IN EL PASO, GIVE LIFE OF GOLD MINE, SON'S LIBERTY COURT ORDER

Senators Assert Dark Blot on History of the Past Three Years Shames American Citizenship and that Tale of Blood Will Be Read by U. S. in Years to Come With a Sense of Humiliation.

WASHINGTON, D. C., March 6.—Predicting that the Mexican situation is a matter with which the United States "shall be forced to deal in some decisive way, and that very soon," senator Works, Republican of California, sharply criticized the Mexican policy of the administration today in a speech in the senate.

"We may be forced," he said, "to intervene in some form in Mexico, if we do, it should not be for the acquisition of territory or any other advantage to the United States, but for the Mexican people and other residents there, the restoration of peace and order and the establishment of a democratic government for our sister republic."

"It is a dark page in our history," he continued, "unless the American people shall have lost all virility, courage and patriotism, it will be read in the years to come with sorrow and shame. For three long years American citizens have been murdered, their wives and daughters outraged, their homes pillaged and their property destroyed, and this administration has done nothing more than enter occasional mild protests and submit appeals, and to whom? To Huerta, whose government we had refused to recognize and who, according to our view had no power, nor ability, nor right to act. To Villa, who was a brigand, not even a soldier, but a brigand and murderer of innocent people. To Carranza, a weakling dominated by Villa and equally without authority."

Senator Works outlined the events in the history of Mexico leading up to the present difficulties and the refusal of this government to recognize Huerta after the assassination of Madero, "doubtless by Huerta who succeeded him, or with his knowledge and connivance."

Wilson's Demands Impossible, Claims. The senator pointed out that there should be an armistice, could not have been complied with, the senator contended, and that the only way a free election in Mexico was impossible of fulfillment because of the ignorance of the Mexican people. Such an election, he declared, probably would have brought about the election of a bull fighter for president.

"Benton Brutally Murdered." "At least a prominent British subject was brutally murdered by Villa or his orders. Public indignation ran high. The people were aroused, but the state department maintained its usual degree of composure. I do not know why the murder of a citizen of Great Britain should have created more feeling than the assassination of hundreds of our people, except that it involved the question of our good faith toward other nations when we allow their people to be murdered in Mexico."

Should Have Sent Soldiers for Body. "What should the government have done in this case? Just what it should have done for one of its own citizens—sent our soldiers into Mexico and brought out the body. What right

Aged General Offers to Place Himself in Villa's Hands if Luis Is Released.

GEN. LUIS TERRAZAS yesterday afternoon appealed to Marion Letcher, American consul at Chihuahua, now in this city awaiting instructions, to save his son, Luis, whose life has been declared the forfeit if \$50,000 pesos ransom money is not paid over to Pancho Villa, the rebel leader.

Offers to Give Life for Son. "I am 89 years old and my life is not money mean much to me," said Gen. Terrazas, with a tremor in his voice. "My son, Luis, has been in about 50 years of age and for several months has been held prisoner by the rebels. At the time of his arrest, the rebels demanded \$50,000 gold as the price of his life. This sum was slow in being paid and Luis was taken out of the house and appeared in the hotel. Then he was kept in the house and the torture was repeated until the sum demanded—all he had in the Chihuahua bank."

Women's Appeal Denied. After the incident was removed from the palace, where he had been confined, and allowed to live under guard with his family in one of his father's houses. Women relatives somewhat later appealed to Villa to release him, but Villa was adamant. "If the Cientificos had Pancho Villa a prisoner in the same circumstances, do you think he would be restrained in a similar way and treated with the consideration I have shown don Luis?" Villa replied. "No; Pancho Villa's head would have been placed on a pike and he would be about the city. The Terrazas family has accumulated its great wealth through oppression of the people, and now the people demand reparation."

Gen. Terrazas Badly Shaken. Gen. Luis Terrazas left consul Letcher's room and appeared in the hotel lobby visibly shaken. His beard is white and his figure below the medium. He walks with a cane, but erectly. He was surrounded by friends and relatives, on whose faces anxiety for the father and pity for the father were plainly written.

Liberty Not Promised. It was said last night that the most serious obstacle in the way of a settlement of the matter is Villa's refusal to allow don Luis to leave Mexico after the ransom money is paid. Gen. Terrazas, in replying to Villa, offered payment of the money contingent on his son being brought to the center of the rebellion, but he said he thinks, would be used merely as a means of further extortion.

Will Not Be Killed. "Constitutionalists" in El Paso declare that there is no possibility of young Terrazas being executed, as he is worth more to the rebels alive than dead, since his father will be forced to continue the payment of whatever ransom money he can raise from time to time. If he was killed, Terrazas, would not pay another cent, they say.

Judge Denies Writ of Habeas Corpus in the Case of "Mother" Jones.

TRINIDAD, Colo., March 6.—In a verbal decision rendered at the opening of the district court this morning, Judge A. W. McKenzie denied the writ of habeas corpus for "Mother" Jones, the noted woman strike leader held under military guard at the San Rafael hospital, and remained in the custody of the respondent in the action, Gen. John Chase, commander of the state militia in the strike zone.

Power of Military Officials Upheld. The ruling of the court was brief. Immediately upon hearing the decision, attorney F. W. Clark, local counsel for the United Mine Workers, asked for the writ of habeas corpus to be prepared and was granted 60 days to prepare a bill of exceptions to be submitted to the supreme court.

Probe to Result in Arbitration. Committee intimates probable course of action to prevent public from suffering coal shortage. Denver, Colo., March 6.—A compulsory arbitration law for the settlement of disputes between coal operators and their employes as one of the recommendations of the federal strike investigation committee, was foreshadowed today by questions put to E. L. Doyle, secretary and treasurer of district 15, United Mine Workers of America, by representative Howard Sutherland of West Virginia. In the examination of Doyle, Mr. Sutherland questioned the power of the federal government to regulate interstate commerce. Under his plan the controversies would be submitted to a board of mediation composed of representatives of the coal operators and the miners, who would be binding on both parties.

Commission May Work Many Weeks. Weeks will probably elapse before the special commission appointed by Governor Carranza to investigate the killing of William S. Benton in Juarez completes its work. There is no disposition to make public the proceedings of the commissioners and the inquiry will probably be held in strict confidence, according to a correspondent. Investigation are being arranged in Juarez today.

Says Villa Robbed Benton's Ranch. Maximo Castillo, from his prison cell at the Fort Bliss guard house, has written a letter in the press saying that Villa killed William Benton because the rebel leader had raided the Benton ranch in the hills of Chihuahua. Castillo says the grudge Villa had against Benton was because he was an agent of the federal government for protection at the time Abram Gonzales was governor and he (Castillo) was an agent of the government when he was thought to be an agent of Benton and the governor after a careful investigation.

Witnesses Tell of Train Attacks. Houghton, Mich., March 6.—Attacks on trains bearing imported workmen were described today to the congressional investigators by witnesses for the operators. Charles F. Bettman, a Mineral Range railroad conductor, told that 50 or 60 shots were fired at a train on the west of Hancock on the night of October 24, 1913. Soldiers in the vestibules of the cars returned the fire. Chairman Taylor announced today that some members of the committee would visit Calumet Saturday to take testimony on the Italian hall disaster. The congressmen are anxious to leave here Sunday for Chicago to begin hearings there.

World Tourists Come into Port. Federal League Waves Contracts, but Representatives Are Unable to Hold. New York, March 6.—The world-grinding American baseball players came in today in a storm. The Federal league waved enticement contracts, but the Federal representatives were unable to obtain passes to board the Lusitania to head south for the Florida bay. Organized baseball was more fortunate in having obtained revenue court passes in advance and a delegation was able to board the ship before she came to her pier.

Race with Death Ends; Post Wins. Rochester, Minn., March 6.—C. W. Post won his race with death half way across the continent, when his special train arrived at the Great Western depot in this city at 9:25 o'clock this morning, just three and one-half hours ahead of his sched.

Missing American Alive, Is Report. Painesville, Ohio, March 6.—George W. McCarty, missing railroad engineer, was found alive in Mexico, and for whom the state department at Washington was conducting a search, is alive and well. Information came from New Orleans that McCarty had been located there. Details of his narrow escape from being slain in Mexico were given, it being reported that he was seriously injured in getting away.

Bauch Case Still Unsolved Mystery. The Bauch case is still as much a puzzle as ever. Nothing has been heard of the German-American, whom Villa claims he set free and whom friends thought he executed. Mrs. J. M. Patterson, sister of Bauch, has learned nothing recently of her brother. No developments in the case has taken place at Chihuahua.

Dives from Bunk to Cement Floor. Apparently suffering under the delusion that he was a high diver, J. O. Reeves stood on his bunk in his cell in the city jail Friday morning and made several dives to the hard cement floor, and blood was streaming from wounds in Reeves' head when jailer A. G. Duchene rushed into the cell and stopped the man's diving. In the tussle that occurred between Duchene and Reeves, Reeves almost succeeded in snatching Duchene's pistol from the scabbard. Reeves had to be tied with a rope to the bars of the cell before he could be subdued.

Rebels Deny Fall of Casas Grandes.

SAN FRANCISCO, Calif., March 6.—In an early raid today on the hall of the Native Sons of the Golden West, which had been rented for the night to the Foresters of America, the police seized three crap tables, one klondyke game and roulette wheels, which they found in charge of Frank Daroux, a powerful ward politician and sporting man. Between 200 and 300 players were at the tables.

Police chief White explained today that the Foresters had been given permission to hold what is known as a "Forty Nine" camp, a phrase coined to cover mimic reproductions of the pioneer days of unrestrained license, but that there had been no intention to authorize a genuine gambling hall, under professional management. Detectives entered, looked the entertainment over, decided that it was questionable and retired to ask for orders. The raid followed.

The Native Sons is an aristocratic California organization that is to this state what the Sons of the American Revolution are to the country, and the Foresters' lodge is composed of some of the leading men of San Francisco. The raid caused a sensation.

Perceval to Leave Soon. Benton Inquiry Is a Failure, U. S. and British Governments Recognize. Time Has Effaced Evidence, Opinion. WASHINGTON, D. C., March 6.—From the British point of view, which without doubt is adopted by the state department, no useful purpose can now be served by dispatching to Chihuahua the American-British commission to examine the body of William S. Benton to discover the manner in which the man met death at the hands of Pancho Villa.

Ortega Defeated, Federals Claim. Mexico City, Mex., March 6.—According to advices received Thursday night by the war department, 2,000 rebels under Toribio Ortega, moving toward Torreon, were defeated between Conchos and Escalon. The dispatch said 400 rebels were killed in the engagement. The federal forces commanded by Gen. Ricardo Pena, numbered 700.

Colauti Awaits Further Advances in Vera Cruz Case. Dallas, Tex., March 6.—Governor Colauti says he will await further advices before proceeding in his efforts to secure the return to this state of a detachment of federalists northwest of Torreon and a scouting party of rebels under Tomas Urbina, which has received here.

Rebels Report Fight Near Mapimi, Dgo. Chihuahua, Mex., March 6.—An official report of the fighting between a detachment of federalists northwest of Torreon and a scouting party of rebels under Tomas Urbina, which has received here. The fight occurred at Hacienda Pelayo, west of Mapimi, the report says, and, while it was a tactical success, it was of little importance. There were small losses on both sides.

Tupper to See Carranza. Rev. Henry Allen Tupper, representing the International Forum is here from New York and will meet Carranza when the revolutionary chief arrives in Juarez.

Latin Americans Worry About Brazil.

WASHINGTON, D. C., March 6.—Early diplomatic dispatches and other official advices today contained further news of the revolutionary disturbances in Brazil. Three large cities—Rio Janeiro, Niteroy and Petropolis declared in a state of siege because of revolutionary movements. The situation in the Latin-American colony. The negro population, which is nearly 30 percent of the total, is a serious factor in the present situation. Various causes are assigned for the unrest, which began about a year ago in the state of Pernambuco.

Was Election Held? No word was received as to whether Brazil held its presidential elections last Sunday, the day fixed by the constitution. The only candidate of any importance in the field to succeed president de Fonseca, was Dr. Pereira Passos, representing the conservative republican party, his opponent, Ruy Barbosa, having withdrawn recently.

Not Postponed, Belief. It is believed here that the elections were postponed as only congress has power to do that, and no word has come of any such action. Ambassador Duxams of Brazil, said today that he had heard of some trouble in the state of Ceara, which, he said, was merely a market place. He had received several recent business messages from the governor of Ceara in which the latter made no mention of any disturbance in that state.

Dark Fears for Family's Safety.

WASHINGTON, D. C., March 6.—Though apprehensive about his family, Felix Diaz who wants the United States to approve a revolution under his leadership which, he says, will overthrow Huerta and restore peace in Mexico, waited in the capital today, hoping to get a hearing before the senate foreign relations committee. Although some senators pronounced his proposals "unprofitable" and were against giving him a hearing, others, including the senate should get all the information available on Mexico, were in favor of hearing him.
