

Four Make Escape From City Jail

Cut Bars of Window During Monday Night; Missing Tuesday.

WHAT had the ear marks of a wholesale fall delivery occurred some time Monday night when Yusef Murrillo, Juan Espinosa, Jose Hernandez and Adolfo Dana, four city prisoners, crawled through a window of the city jail and escaped.

It is thought that other prisoners would have followed the four, but for the fact that they were asleep, not having been in the confidence of those who escaped.

The prisoners who escaped, with a number of others, were incarcerated in the east side of the jail. With the aid of a saw, or some other sharp instrument, one of the bars of one of the jail windows was cut and then twisted back. The men had no trouble in slipping through the opening.

It was only when a call came in for the patrol wagon at 1 o'clock Tuesday morning that the jail delivery was discovered. A patrolman, in passing along the east side of the jail, noticed that the outside screen of one of the windows had been pushed up. A closer examination showed that one of the bars had been cut in two.

A movement is now on foot to provide a monument composed of all the kinds of ornaments in the Warren district.

A MEXICAN MAJESTY

A TRIUMPH by the grace of God, this monarch tree of Mexico looks behind the history of our race, past all the vicissitudes of our people's records, to a youthful, sapling time of more than 4000 years ago. Countless types of life have arisen, bloomed a few short hours in the sunshine, faded, and their memories have vanished from the earth, since the seed of this mighty giant first bore its leaflets through the soil. Serenely unconscious of the decay all around it, impressive in its 154 feet of girth, the monarch stands, surviving even the traditions of its youth.

Precautionary measures were adopted by the commissioners, when the sum of \$250 was appropriated for bridge protection work on the Camanillo bridge. The interest in some instances threatened damage to that bridge and the sum appropriated will be expended in strengthening the approaches to the bridge in a sudden future rise of the river will not result in any damage.

The commissioners appropriated \$110 towards the erection of a bridge over the creek in the Cinecena park station on the interurban. The Interurban Improvement company agreed to furnish the material and the county to furnish for the construction of the bridge.

To save a long haul of rock needed for the county roads now under construction, the G. H. road will put in a spur track at some point between Clint and El Paso. The county is to pay for the maintenance of the track.

On account of the absence of Tom Love, one of the commissioners, there was no session of the county commissioners Tuesday afternoon, when the session of the hospital site will be taken up, it is said, provided Mr. Love is in attendance.

HEALTH AND BEAUTY ANSWERS

Mary: I have found that face powder clogs the pores and causes that rough, uneven complexion. Wash your face with cold water and use this inexpensive lotion and you will be delighted with the results. Dissolve 1/2 ounce of salicylic acid (which you get at the druggist's) in 1-2 pint hot water or witch hazel. After cleansing and drying the skin, apply the salicylic lotion, rubbing gently until it vanishes. This lotion imparts a clearness and velvety softness to the skin and restores the rosiness of healthy maidenhood. The salicylic lotion is especially nice for sallow, "muddy" or oily skins and is superior to any other skin and hair powder. It will not rub off in patches.

Annie L.: Powdered deodorant is the most effective thing of which I know for removing stubborn hairy growths. Get an original package and mix enough powder with water to cover the hairs not wanted. Apply and in 3 or 4 minutes remove, wash the skin and the hairs are gone. This is a quick, harmless method and seldom needs repeating. Be sure it is deodorant you get.

Belle S.: Your pain in the small of the back, constant headaches and loss of weight is the result of poison-laden blood. Here is my formula for an old-fashioned system-ionic which, taken regularly for a few days, restores you to perfect health: To 1-2 pint alcohol (never use whisky) add 1 ounce karsol (get from your druggist) then 1-2 cupful of sugar and 1/2 cup water to make a full quart. The dose is a tablespoonful three times a day. This is gentle in action, cleanses the blood of all impurities and is unsurpassed for clearing the skin of discolorations and restoring the healthy glow of youth to the complexion.

Mrs. R.: Quite right! Your brittle, flaking hair is evidently caused by washing with an alkali preparation. Here is my way of cleansing scalp and hair so both are kept in perfect health: Dissolve a teaspoonful cathartox in a cup hot water and pour a little at a time on the head while rubbing. This works up into a thick, creamy lather that stops irritation and dissolves every particle of mud and dirt. Then rinse with clean water. The hair dries rapidly with a soft
