WHAT THE INTERNAL BATH Is Doing for Humanity

Under our present mode of living, the large intestine (the colon) cannot get rid of all the waste that it accumulates so it clogs up, and then biliousness, constipation is the result, and that lack of desire to do, to work, to think. This waste in the colon, as we all know, is extremely poisonous, and if neglected the blood takes up the poisons—and brings on countless very serious diseases—appendicitis is directly caused by waste in the colon.

If the colon is kept clean and pure you will always feel bright and capable—never blue and nervous—always up to "concert pitch." There is just one internal bath which will keep the colon as sweet and clean as nature demands it to be for perfect health—that is the "J. B. L. Cascadia."

Many thousands are using it, and doctors prescribing it with great success all over the world. It is now being shown and explained by Everybody's Department Store in El Paso.
