

# Chellette Holds Diggers Close Three Hits Secured From Him

BY E. G. COAN.

HURLEY, N. M., June 17.—Chellette showed great form Sunday. Only 12 men faced him in the first seven innings. Blawie got a walk and Owen getting on, but he is pitched ball. Only three hits were secured from the Diggers off his mastery pitching, one of small account in the sixth. Blawie's two-base hit in the sixth, and Chellette's three-times in the last season. And only one error made by his teammates showed their improving form.

The Soldiers' seventh inning stop of Blawie's line in the seventh Sunday. With La Salle on third, Campbell on second, Gray on first, Blawie on the hit, and Campbell on Gray's miff of Kellogg's throw.

In the forfeited game Sunday at Fort Bayard up until the last play the Concentrators had found a way for only two hits, which had netted them one run. Clark starting off with a single and Blawie connecting in the third. The Soldiers had six hits to the good and five scores.

Fredie Owen made a sensational stop of Blawie's line in the seventh Sunday and a fast jog to first, getting the runner.

Santa Rita's new southpaw, Harris, worked the last four innings Sunday and was only touched by three hits by the Indians.

Nine Soldier uniforms faced Kellogg in the first inning at Fort Sunday.

If Owen had played in at first Sunday as he should have done and not been caught off by Kellogg, the Soldiers would have had six runs on their belt. Ducky was caught off first three times during the series.

Kellogg sent down the Soldiers' hardest hitters to the bench by the strikeshout route Sunday. Wells and Harvey getting theirs in the third.

Ryan made a star stop of Owen's high leg of Owen's line in the eighth Sunday, taking the pilot out of the blue sky above his head and never removing his feet from the deck.

Mitchell made a pretty run and got wh-

Socks, socks, socks; They cost a lot of "socks," And some are made With fancy work and clocks. I was marital day in Common Some will cry, and Justice Z. Shitternut stopped sitting down and took the stand. "My socks, socks, socks, socks, socks," "That's sufficient to establish the plural," cut in Solomon facetiously. "I can't get her to darn 'em," explained the plaintiff. "There's at least 500 pairs of socks lying around the house, undarned as the day they were born. They're in heaps, piles—I'm always falling over them and always buying new ones that are added to the collection. Your honor, I simply can't get her to darn them. They're in the garden the parlor, the library, everywhere—socks, socks, socks, socks." "Silence!" roared his honor, and thought deeply. "There is but one remedy," he said finally. "You must in the future purchase only Saugenbaum's Unbeatable Socks. They never wear out. I wear them myself. Case of Doolapit vs. Doolapit!" The next day the firm of Saugenbaum received the following letter on the royal stationery: "Gentlemen: according to our agreement, I hereby claim 10 per cent of all purchases money received from Julius Z. Shitternut."

# COLONEL PARK A VETERAN OF EVERY WAR SINCE 1865

Commander of 20th Has Had Active Career; Foreign Military Attache.

A fighter in every war the United States has engaged since the civil war and, until two months ago, military attache to the American legation at Brussels, Belgium, the record of Col. J. S. Parks, recently assigned to the 20th Infantry, Col. Parks arrived here a few days ago and has taken command of his regiment.

Although he has been military attache in a foreign capital, has been detailed to special services, and was one of the few American army officers who made an inspection of the principal battlefields of the Balkan war, Col. Parks is a true westerner and is prouder of being at the head of the 20th than in securing any foreign mission the government has to offer.

"The west is good enough for me," is the way he expresses it.

Has Seen Much Service.  
Col. Parks began an active military career when he graduated from West Point with the class of 1875. As a second lieutenant, he served at various western posts and in the later 80's was assigned to the Rosebud agency in North Dakota.

The Sioux Indians had been causing considerable trouble, but there had not yet been a concerted movement to go on the warpath. But early in the spring of 1890 the famous Sioux outbreak broke out, and from that time on until late the next year, Col. Parks was in the thick of that memorable uprising.

Served in Spanish War.  
He was promoted to a first lieutenant

and, when the war with Spain broke out, he sailed for Cuba. His regiment, the 14th infantry, was before Santiago and was one of the first of the American regiments to enter the city after its fall.

During the remainder of the Cuban campaign Col. Parks saw much service and, at the close of the war, was promoted to the grade of captain.

Three Terms in Philippines.  
Following the Cuban campaign the 14th was sent to the islands and after three years Col. Parks spent three years in the Philippines. He distinguished himself during the insurrection of 1899-1902 and at the end of the campaign was made a major.

His regiment was then returned to the United States and, after two more years, he was promoted to the grade of lieutenant colonel and was placed in command of the 14th at Fort Meritt, Mont.

Appointed Attache.  
Three years ago Col. Parks was raised to the rank of colonel and was assigned to the legation at Brussels. While the Balkan war was still in progress he made an inspection of many of the important battlefields and visited all of the near eastern countries. He expresses admiration for the bravery and military knowledge of both the allies and the Turks. His stay in Europe was a pleasant one. It was filled with interest.

The west is good enough for him.

# Blood Sickness is Not Figment of Mind

No Amount of Mental Determination Can Alone Drive Out Blood Impurities.

Will Power for Nerves—S. S. S. for the Blood.

Most people require the assistance of S. S. S., the famous blood purifier if patients have invaded the system. In nearly all cases when the skin becomes the evidence of blood poverty or blood stasis the body must have help. It is a well recognized fact that in health our bodies secrete their own essential safeguards against disease. If this were not so we would scarcely survive the second week of infancy. And when the system is invaded by disease germs the body, in health, will eliminate or prepare for elimination, the poisons if it can secrete its requisite of perspiration. Unfortunately, however, in many cases this self-protective plan, because the urgent need of S. S. S., to assist in the work of elimination.

This is mainly accomplished by the well known cathartic action of S. S. S. No amount of will power, diet or perspiration can overcome most impurities in the blood. Pain, nervousness and the possible symptoms of neurasthenia are often banished by suggestion and persistent concentration of the mind to will away nervous disorders.

Not so, however, with the various different bacteria or microbes which multiply in countless numbers. If the preservative mechanism, the leucocytes, phagocytes and macrophages of all the organs and tissues of the body are deficient in their eliminative activity.

Most people just about hold their own and speedily die of complications, not actually sick. They retain a certain amount of poisons in the system that actually are banished.

Therefore take care, do not in the slightest degree neglect to be cured by any ordinary method. Surgery and other dangerous surgical drugs may check a disease,

but to get right down into where the blood is vitiated, to drive out the blood, the greatest blood purifier known. Its action is pronounced.

In a very brief time S. S. S. has the reconstructive process under control that remarkable changes are observed. All eruptive places, head, eruptions, pains and aches have disappeared, and from head to foot there is a conscious sensation of renewed health.

The extraordinary manner in which S. S. S. drives impurities out of the blood is due to its catalytic force in the blood cells, contains one ingredient, the active purpose of which is to stimulate the system to the healthy secretion of its own essential nutrient and the medicinal elements of this matchless blood purifier are just as essential to well balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food.

Not only this, but from its presence of some distasteful poisons there is a local or general interference of nutrition to cause bala, carbuncles, abscesses and kindred troubles. S. S. S. so directs the local cells that this poison is rejected and eliminated from their presence.

From the fact that S. S. S. is purely a botanical preparation, it is accepted by the weakest stomach and has great tonic influence. Not one drop of drugs or minerals is used in its preparation. Ask for S. S. S. and insist upon having it. And if you desire skillful advice upon any matter concerning the blood and skin write to The Swift Specific Co., 312 Swift Bldg., Atlanta, Ga. Do not allow some scoundrel to lure you into the atmosphere in eloquence over something "just as good" as S. S. S. Beware of all counterfeits.
