

GERMAN NATIONALITY WILL HAVE EXPANSION AFTER WAR, SAYS KAISER

Amsterdam, Holland, April 2.—"As the fruit of Germany's victory in the present war, a rational life will spring up in which the German nationality will have full and free expansion," said emperor William in a telegram from field headquarters in reply to a message from the imperial chancellor regarding the Bismarck celebration Thursday.

U. S. TUGS WATCH EITEL; OFFICIALS GO ON BOARD

Newport News Va., April 2.—Two United States tugs from the Norfolk navy yard arrived here shortly after noon today and moored at the Prince Eitel Friedrich's pier. One tug, the Princeton, was moored at the Eitel's stern. The other, the Reno, tied up on the opposite side of the pier. Shortly before their arrival collector Hamilton with a party of officials boarded the Eitel.

The War At a Glance

GERMAN submarines have sunk six more vessels, one of them flying a neutral flag. A Norwegian bark was torpedoed in the North sea, by the U-29, and three trawlers from the Tyne were blown up by the U-18.

Heavy fighting has been resumed in eastern France near the German border. The official statement from Berlin says the French were defeated in a battle near Le Prevre forest and forced to give up ground which they had won.

Elsewhere along the western front there were artillery encounters Thursday, but no infantry engagements of consequence.

Allied Aviators Damage Cities

Raid by two aviators of the allies in the German province of Baden inflicted damage in the cities of Mannheim and Neuenburg. The destruction of property in Mannheim, is described in a London dispatch as considerable, although only slight damage was done in Neuenburg.

Submarines Extend Operations

A decided extension in the range of operations of German submarines is indicated by a Lisbon dispatch to the effect that the U-25 has been operating off the coast of Spain. This British steamer Southampton, which went down off Cape Finisterre, is said to have been torpedoed by the U-25 in less than 700 miles from Cape Finisterre to the nearest German submarine base. The case is about 100 miles north of Gibraltar.

Turkey Declines Seeking Peace

The suggestion that Turkey was on the point of suing for a separate peace with Russia is repudiated by both Turkish and British ambassadors at Rome. The former is quoted by a Rome newspaper as saying there was no reason why Turkey should seek peace, in view of what he described as the excellent military position of his country. The Russian ambassador is said to have declared his government never would conclude a peace separately from Great Britain and France.

Battles in the Snow

Activities in the Carpathians is described in Berlin dispatches as unusually bitter. The Russians, pushing their way through deep snow, are persisting in their efforts to dislodge the Austrians from the passes and heights but are said to have accomplished little in the way of definite successes. The Russian war office, however, states that substantial results have been achieved.

In the campaign in northern Poland an important victory is claimed over the Germans, who are said to have retreated hastily in one section of the front west of Nemen river.

GERMANY SENDS NEW THREAT TO ENGLAND

The French are now in possession of only two blockhouses in the forest near our most advanced positions. "In the eastern theater of the war, the situation is unchanged."

AUSTRIAN CIVILIANS ARE STARVING; OPOSE WAR

Rome, Italy, April 2.—Opposition in Austria to the continued war is growing rapidly among the people who are suffering most from the scarcity of food. Violent anti-war demonstrations are reported to have occurred in several cities, especially Vienna, where a crowd attempted to storm the windows of the war office, but was charged by the police and troops. Several persons are said to have been wounded and many others arrested.

WARSHIPS ARE AWAITING PRINZ EITEL'S DEPARTURE

Baltimore, Md., April 2.—The Baltimore tug, Princess, which is a warship believed to have been the British cruiser Suffolk, off the Virginia capes early Wednesday and asked for newspapers and whatever information the tug's captain could give concerning the German sea raider Prinz Eitel Friedrich. Capt. Scott said that several big columns of smoke were visible on the horizon, indicating the presence of other warships.

CALLS TO KEEP BORDER NEUTRAL

Carranza Orders Him to Do Nothing to Endanger American People.

Douglas, Ariz., April 2.—Venustiano Carranza, has ordered Gen. P. Elias Calles, his commander in Sonora, to refrain from any activities which might endanger life or property on the American side of the border, according to an announcement today by Calles.

Calles said Carranza forwarded him a copy of the telegram sent to the state department at Washington in reply to the warning against violation of neutrality along the border given Calles by Col. C. M. O'Connor, commander of the United States border patrol here.

Purely out of respect for the United States, Carranza said, his followers would respect the neutrality of the Sonora border, but without regard for the Naco agreement negotiated with Brig. Gen. Hugh L. Scott, chief of staff of the United States army.

This agreement, Carranza said, had been rendered void by the almost immediate violation of its terms by Mexican forces, in occupying Naco, Sonora, after both sides had been connected to evacuate it.

Col. Miguel Samaniego's Carranza troops which, after capturing Moctezuma recently, aimed for Agua Prieta to join the garrison, are reported to be surrounded by Villa forces in a barren canyon south of Lang's ranch, New Mexico, and 55 miles east of here, close to the border. During the fighting, it is said, a number of Samaniego's men, among them Capt. Carlos Valencia, crossed the frontier and were taken into custody by United States troops. Samaniego's men are said to be without food or water. Representatives of governor Maytorena, Victoria, in Sonora, state that Gen. Trujillo, Gen. Sosa and other leaders with their troops save small parcels of arms and supplies from the area and have withdrawn apparently from the region south of Agua Prieta.

WILSON DENIES INTERVIEW CABLED TO FRENCH PAPER

Washington, D. C., April 2.—President Wilson has issued a denial of the authenticity of an interview cabled to the Paris Temps by Gabriel Alpaud, secretary-general of the Temps, who was presented at the white house Wednesday. The president said it had been understood in advance that Alpaud was merely to pay his respects and that there was to be no interview. Alpaud's story quoted the president on European and Mexican news.

President Wilson is quoted as having said: "Definite questions are at times considered by France or others of the belligerent countries as proof that the American government favors sometimes one and sometimes the other of the combatants. The two groups of belligerent nations complain of the attitude of the American government in equally rigorous terms. Each time one of these cases arises it is not proof that the government of the United States is conscientiously observing the rules of neutrality."

"France will avoid the error of believing what individuals of the people in the cabinet often think. That is, that he who is not actively for them is against them. As to my own sentiments regarding France, I addressed a letter to the president of the French republic that expresses them clearly. Be sure that I do not think anything less than what that letter says."

GLOBE JURY TO INQUIRE INTO ORIGIN OF LIQUOR

Globe, Ariz., April 2.—It is thought likely that the Globe county grand jury, now in session, will investigate the origin of liquor, said to have been freely consumed at a dance at Westfield and which resulted in the shooting of the alleged suicide of Mrs. Belle Murray of Globe, while returning from the dance. It is claimed that a number of witnesses were so intoxicated that they could give the coroner's jury no clear evidence in regard to the shooting of Mrs. Murray. Indications, however, are said to have been that Mrs. Murray ended her own life.
