

MEMORIAL DAY SERVICE SUNDAY; BORDER BRIGADE TO PARTICIPATE

Most Elaborate Observance of National Decoration Day Ever Held in El Paso Planned; G. A. R. and Confederate Veterans to March in Arm in Arm; Flowers and Flags For Dead of All Wars.

MEMORIAL day, the day set aside in memory of the dead of all wars, will be observed Sunday in El Paso in a way more pretentious than has ever been attempted before.

In the past the Memorial day service has been confined to the efforts of the Grand Army of the Republic, the Confederate Veterans and their families.

This year Memorial day falls on Sunday and the city, the army and the patriotic organizations have united to make the day one of the most elaborate of any held in the United States.

The Memorial day ceremonies will start at nine o'clock Sunday morning when a United States army trumpeter will blow "assembly" from San Jacinto plaza and the veterans of the civil war, the Spanish war and of the regular army will gather in front of the federal building and will go to Evergreen cemetery where the G. A. R. and Confederate Veterans' service will be held.

At 9:15 the program at the cemetery will open with a concert by one of the military bands from the border brigade, followed by a band from the Sixth and Sixteenth infantry regiments. This will be followed by the blowing of " taps" by regimental trumpeters from the Lincoln's immortal Gettysburg address will be read by chaplain John T. Axton of the 29th infantry. A patriotic declamation, "The Bisc and the Gray," will be recited by Miss Sadie Ruth Aldridge. A quartet will sing "Fighting on the Old Camp Ground." Gen. John J. Pershing will deliver a short address as the representative of the United States flag. Mrs. Mary Rose Kleiser will give a reading, "Blow out of the Dead," and collector Zach Lamar Colby will give a patriotic address representing the new south. The military band will play "The Star Spangled Banner" and chaplain W. W. Brander, of the 15th cavalry, will give the benediction.

While the ceremony and patriotic concert is in progress at Evergreen cemetery a committee of the veterans, accompanied by little girls dressed in white, will go to all of the graves in Evergreen and Centennial cemetery which are marked with the American and Confederate flags and will cover the graves with wreaths and flowers provided by the United Daughters of the Confederacy and the Daughters of the American Revolution. These wreaths will be made at Evergreen cemetery early Sunday morning in order that they will be fresh for the decoration service.

From Evergreen the veterans and their friends will go direct to Fort Bliss where, at 11:30, the military observance of Memorial day, as ordered by the army regulations, will be held. This has been ordered by Gen. Pershing, who never misses an opportunity to participate in Memorial day ceremonies. Last year he made an address to the veterans at Evergreen cemetery which was one of the impressive events of the Memorial day ceremonies. The national colors will be displayed at half mast on the flaps at Fort Bliss until noon from sunrise in memory of the soldier dead.

Gen. Pershing will preside at the exercises which will be held on the parade ground at the post and where seats will be arranged for the veterans and the patriotic societies. W. B. Burgess will deliver the principal address at the fort. Preceding the address the 15th cavalry band will play "The Roseary" and chaplain John A. Randolph, of the Sixth infantry, will say a prayer for the dead. The 29th infantry band will play "The Soldier's Farewell" and two stanzas of "America" will be sung by the audience, led by Miss U. M. Chaplain Axton will also give an address and the 16th infantry band will play "The Star Spangled Banner" as the colors are raised to the top of the flaps at noon. There will be no salute because the day is Sunday. The Sixth Infantry band will play "Marry-

land, my Maryland" as the closing number of the post program.

Regular Army Dinner. At 2:30 p. m. the Spanish War Veterans association and the soldiers of the 29th, 16th and Sixth infantry regiments will hold a memorial service for the dead. The 29th infantry band will play "The Star Spangled Banner" as the colors are raised to the top of the flaps at noon. There will be no salute because the day is Sunday. The Sixth Infantry band will play "Marry-

land, my Maryland" as the closing number of the post program.

Regular Army Dinner. At 2:30 p. m. the Spanish War Veterans association and the soldiers of the 29th, 16th and Sixth infantry regiments will hold a memorial service for the dead. The 29th infantry band will play "The Star Spangled Banner" as the colors are raised to the top of the flaps at noon. There will be no salute because the day is Sunday. The Sixth Infantry band will play "Marry-

land, my Maryland" as the closing number of the post program.

The Sixth Infantry band will play "Marry-

land, my Maryland" as the closing number of the post program.

FIND TELLURUM IN WASTE PILE

Rush Starts For Wallapai Springs, Where a Rich Discovery Is Made.

Kingman, Ariz., May 28.—As a result of a purely accidental discovery that the waste pile of the Columbia mine was in reality tellurium ore running up to \$300 a ton in gold and silver, a rush is on to the Wallapai springs section. Within an hour after the report reached Kingman every automobile had been pressed into service and several hundred people were en route to the Columbia, 15 miles east. All the ground for several miles around the Columbia has been located.

The miners had been saving a streak of galena ore and throwing away everything else that came out of the shaft. Someone who knew tellurium happened along and saw that the really valuable ore was in the waste pile. The richest sample assayed \$30 a ton in gold and silver.

Frost, Mahaffy and Myers own the Columbia. They have been shipping their best lead ore and milling the lower grade material. Hereafter their lead will be merely a by-product. The Wallapai springs district is easily accessible. Ore can be hauled down grade all the way to Kingman, which is the nearest railroad point.

Take Option on Walkover Mine. A. F. Frazer and associates have taken an option on the Walkover property, owned by Carney and Jeffer. If the option is exercised \$50,000 will be paid for the property. The Walkover is west of the Copper Giant, the big Mohave county producer of the United Verde company. In the last two or three years much Walkover ore has been shipped to the smelters. The shaft is down 80 feet and drifts have been run along the vein for a considerable distance. All the ore is oxidized and carries a fair percentage of gold. Indications are that at depth a large deposit of copper-gold ore will be opened.

Mr. Frazer also holds the Dick Banks mine under option and has sunk two shafts, one 90 feet and the other 40 feet. There is a good showing of ore in both shafts. In other workings large bodies of gold and silver ore have been opened. As soon as the property can be put in shape to produce steadily a milling plant will be installed.

Land, my Maryland" as the closing number of the post program.

Regular Army Dinner. At 2:30 p. m. the Spanish War Veterans association and the soldiers of the 29th, 16th and Sixth infantry regiments will hold a memorial service for the dead. The 29th infantry band will play "The Star Spangled Banner" as the colors are raised to the top of the flaps at noon. There will be no salute because the day is Sunday. The Sixth Infantry band will play "Marry-

land, my Maryland" as the closing number of the post program.

Regular Army Dinner. At 2:30 p. m. the Spanish War Veterans association and the soldiers of the 29th, 16th and Sixth infantry regiments will hold a memorial service for the dead. ARIZONA MINES OLDEST IN U.S.

Silver Taken From South-eastern Arizona Mines Before Spaniards Came.

Washington, D. C., May 23.—The northwestern continuation in Arizona of the great mining region of Mexico, celebrated for centuries for its fabulously rich ores of silver and other metals, is described by F. C. Schrader, of the United States Geological Survey, in the Survey's Bulletin 582, "Mineral Deposits of the Santa Rita and Patagonia Mountains, Arizona."

The district has an area of 1,400 square miles, situated on the border of Mexico in the middle of that portion of Arizona known as the Gadsden purchase.

First Worked by Pimaos. Authentic records show that silver mining was carried on here by the Pimao Indians before the Spanish conquest of Mexico in the sixteenth century. Later the mines were worked from time to time and their ores smelted under the direction of the Jesuit fathers and the Spanish government, and remnants of their old mine workings, to which the charm of romance clings, point the way to wealth possibly not yet exhausted.

From 1853, the date of the Gadsden purchase, to the present time mining has been carried on by Americans—not, however, without interruptions, especially during the earlier part of the period, by the Pimao Indians, the bloodthirsty Apaches or Mexican outlaws figured prominently. Although the small percentages are active at present, the great majority of the silver ores, since the American occupation valuable discoveries of copper, lead, and other metals have been made.

Valuable Properties Are Not Worked. Of the many hundreds of old and new mines and prospects within the area, the small percentages are active at present. It is the belief, however, of the geologists who examined this area that many of the properties now idle merit the serious attention of mining men. Bulletin 582 describes individually nearly 200 quartz mines and prospects, and not the least interesting are the gravel deposits of Greaterville, which have yielded \$7,000,000 worth of placer gold and are estimated by mining engineers to still contain \$75,000,000 or \$100,000,000.

Lists and descriptions are given of the great number of minerals found in this district, among which besides gold are copper, silver, lead and zinc, as well as the rarer metals tungsten, molybdenum and vanadium. Statistics of production for the period 1853-1912 show an aggregate of more than \$1,000,000 worth of copper, silver, lead and zinc. The report also contains a general description of the topography, climate, vegetation, settlements and means of transportation—in short, information of value to anyone interested in the southeastern Arizona mining region, as well as to miners and geologists generally.

A copy of bulletin 582 may be obtained free of charge on application to the Director, United States Geological Survey, Washington, D. C.

MRS. CROSBY LOSES SUIT FOR LAND DOWN VALLEY. In the case of Josephine Crosby et al. vs. Horace R. Stevens, A. Mathias, W. J. Harris and Millard Patterson, which has been on trial for over three weeks in the 24th district court, a verdict was rendered yesterday in favor of the defendants. The case involved the right to about 400 acres of land just below the five mile cement bridge and south of the foothills on the left side of the old county road. Mr. Patterson says that the success of the defendants is largely due to the untiring energy of Mr. Mathias. The land is worth about \$60,000.

At noon the battalion of the Sixth infantry and the entire 16th infantry will be the guests of the 29th infantry at a big camp dinner to be given in the camp of the 16th infantry on the Fort Bliss reservation. The Sixth and 16th infantry troops will march to Fort Bliss for the Memorial day service and from there to the 29th camp. A special committee is working under the direction of Col. Harry C. Hale to prepare for the big dinner at which more than 2,000 men will be fed. This committee is composed of Maj. W. R. Sample, Maj. George D. Moore, Capt. L. B. Simonds, Lieut. F. F. Thompson and Lieut. F. R. Palmer.

The home valeters united can whip the world.

A Lesson of the European War. Once more, among countless times, has the great food value of chocolate and cocoa been demonstrated, both serving as a part of the rations of the troops in ACTIVE SERVICE.

Baker's Sweet Chocolate has always had this guarantee. "The ingredients of this Chocolate are guaranteed to be pure cocoas of superior blend and sugar."

The genuine has this trade-mark on the packages, and is made only by Walter Baker & Co. Ltd. Established 1780 DORCHESTER, MASS.

INSPIRATION IS GETTING 1000 TONS A DAY FROM THE SCORPION SHAFT.

Inspiration Is Getting 1000 Tons A Day From the Scorpion Shaft.

Miami, Ariz., May 23.—Underground work at the Inspiration is proceeding regularly and during this month the output will exceed any previous month's output. The Scorpion shaft, the only shaft through which ore is being hoisted at the present time, is working to the limit of its capacity, about 1000 tons per day; and to do that work in the case department has to be cut down to the minimum to allow continuous operation of the skip.

Plans are under way for construction of an up-to-date miners' change house. The building will be of steel with concrete floors, and is to be located near the main west shaft, through which men will be lowered into the mine. There are to be two floors and the equipment will consist of lockers, showers, wash basins and flush toilets.

The coarse crushing plant has been put in shape for running just as soon as it is possible to deliver ore through the main shaft, and the machinery has been running light during the past two weeks.

Iron Cap Increases Force. At the Iron Cap the force has been slightly increased, the shipments to the El Paso smelter are being kept up to four carloads weekly and the stockpile of high grade copper ore, averaging between 25 and 30 percent in increasing, now containing more than 200 carloads, now containing more than 200 carloads.

The steps on the 800 level have reached the Arizona Commercial property line on the east, where it is still in one of good grade, and stopping upward is now proceeding all along the ore body, 500 feet in extent. The drifting on the 1500 level of the western group of the Arizona Commercial, where such excellent results have been obtained by the force under superintendent H. R. Boyd during the present regime's control of the A. C., is making toward the old workings of the Iron Cap, where the flow of water formerly proved more than they could cope with. General manager Woodward, of the Iron Cap, believes this work of the Arizona Commercial will reveal ore to the side lines of his company's property.

Arizona Commercial Works 75. The Arizona Commercial is still shipping 175 tons of good sulphide ore daily to the Old Dominion smelter, and the shipping force has been slightly increased, now numbering about 75 men. Drifting on the vein on the 1200 and 1300 levels continues to reveal more sulphide ore of excellent character, and the property in general is in better condition than at any time since its existence as a mine.

The Savage and Boston is still shipping ore to the smelter at El Paso and the shipping force remains the same. Fred J. Williams, G. Rice is now at Houston, Michigan.

Savage Under Bond. The Savage property, west of the Gibson, is now under bond and lease to Miami people and a force of two men have begun preliminary work on the property, which has a general appearance similar to the Gibson, its mineralization at the surface consists of a heavily mineralized vein in the schist, its strike similar to that of the two veins on the Gibson, but the dip just the reverse of the other property's. The development has revealed considerable sulphide.

Demonstrate Richness of Field. The recent shipment by leases George Zapp and Leon Eddle of 40 tons of 25.13 percent copper ore from the Gibson is an instance of what may be expected in the future from the extensive ore-bearing zone south and west of Miami, for although the Gibson is now only a leasing proposition insofar as its high grade strikes are concerned, the whole vast mineralized area generally bounded by Miami, Ray and Superior, is full of prospects that in the operation of the infallible law of possibilities will develop some mines of the general character of the wonderful Sumner vein of the Gibson property. Especially is this so of the country contiguous to the Gibson, where the surface mineralization and the nature of the country rock is identical with the famous producer. The inaccessibility of the region held it back in the past, but the prosperous future of the copper market will result in construction of roadways in the very near future that will make possible exploitation on an extensive and efficient scale throughout the copper country generally known as the Summit district.

The Independence, the Cole-Goodwin, and a score of smaller prospects are now about to come into a period of development. At present one of the best known mining engineers in the southwest, for years head of his department under the Phelps-Lodge people, is making a thorough examination of property in that section.

Besides the above mentioned shipment by Zapp and Eddle, they shipped a similar amount of lower grade ore to El Paso, and will ship the same amount next week. Eagle will ship this month from his lease on the Gibson, as will also Curtis & Co., Harrison and Bralson, Pete Breslin and Frank Lyons. All of

STRIKE MADE AT THE GOLD KING

Silver Lead Ore Running \$80 to the Ton Is Found Near Steepierock.

Santa Fe, N. M., May 23.—A discovery of gold-silver ore, running up to \$80 per ton is reported from the Gold King mine of the Jim Crow-Imperial group at Steepierock, Grant county. The discovery was made by George H. Utter, the owner, in old workings that produced 200 tons of high grade ore a quarter of a century ago.

The paystreak is two feet wide. A 250 foot shaft is being sunk and a drift will be run on the 100 foot level. The shaft has a 18 horsepower hoist and six drills are employed. A new 25 horsepower hoist will be installed. Six cars of ore have been shipped to the El Paso smelter.

Barnum and Rosenfeld have shot into a pocket of ore at Pinos Altos that runs \$10,000 to the ton.

Hospital for Tyroes. Thomas S. Parker, of San Diego, who is visiting in Silver City, has given \$25,000 toward building a hospital at the mining camp of Tyroes, the site of which he owned at one time and where the Phelps-Dodge company is now conducting extensive operations.

The third car of machinery has arrived at Cleveland, Grant county, for the Empire Zinc company. A carload of steel for the ore chutes has also been received. From 140 to 150 cars of ore are now being shipped from Santa Rita to the big mill at Hurley. The mill is turning out 12 to 15 cars of concentrates daily, which are shipped to the smelter at El Paso.

The Silver Glance Mining and Development company is shipping 1500 copper and silver ore from its 500 foot shaft on the Treasure Mountain in Camp Fleming, Grant county.

The lessees are shipping high grade copper ore from the property. O. K. Kamp is the lessee.

EAGLES TO ENTERTAIN 90 LODGE MEN FROM CLEVELAND. El Paso Eagles will entertain 90 members of the Cleveland, Ohio, lodge here on August 8, when the Ohio lodge will go through El Paso on the way to Los Angeles and San Francisco. J. S. W. Orpse has received a letter from the "Eagle Boosters club" of the Cleveland lodge No. 135, saying the Cleveland Eagles would come through Texas on a special train and would stop at Galveston, Houston, San Antonio and El Paso. The special will arrive here at 9 a. m. on August 8 and will leave at 5 p. m.

The local Eagles' lodge is making plans for an entertainment for the visiting lodgesmen while here, including a trip to Juarez.

Hot weather is here! Order that Palm Beach Suit now and keep cool as a cucumber.
