NORTH CAROLINA IS AVIATION SHIP

U. S. Cruiser Returned from 10 Months of Duty in European Waters.

Boston, Mass., June 18.—The U. S. cruiser North Carolina, home after ten months of varied foreign duty in European waters, left today for Portsmouth, N. H., where she will enter duty as the aviation ship of the American navy for the training of navy aviators.

The officers and men of the North Carolina brought home tales of terrific fighting at the Dardanelles. They said the British and French forces had sustained heavy losses, and that the hospitals at Alexandria, Egypt, were crowded with wounded. They said some of the wounded told them the Australian troops suffered especially under the Turkish fire.

Many Officers Killed. The Australians' first attempt was made from the southern side at dawn, when the men in small boats met a terrific fire from the Turkish batteries and trenches close to the shore. One-third of the boats were sunk and scores were drowned, among them most of the officers, it was said.

Pressing forward dauntlessly, the survivors landed, but were demoralized by the loss of their officers. Although they completed the first line of trenches and rushed blindly on to other lines, they met disaster.

Turks Make Good Soldiers. The Turks, under command of German officers, make good soldiers, in the opinion of Australians who said they had demonstrated their ability to stand up under terrific machine gun fire, weakening only at the point of steel.

The North Carolina went to Europe carrying gold to the Americans stranded there by the war and remained to do other service. Hundreds of starving persons were found at Beirut and taken by the cruiser to Haifa.

AMERICANIZATION DAY IS MARKED

In Many Cities July 4 Will Be Devoted to Winning the Foreign Born.

New York, June 18.—Advices from almost every quarter of the country indicate that a wide spread enthusiasm has been aroused among civic leaders over the plan to make the Fourth of July this year an Americanization day. Mayor committees in more than 50 cities, large and small, have been appointed and have agreed to carry out in part at least the idea of the educational Americanization day committee, whose headquarters are in this city.

The idea, as already set forth in posters and in instructive literature distributed in mills and factories, schools and colleges and civic and commercial organizations, is roughly to round up a great proportion of the 15,000,000 foreign born residents of America on Independence day and, aside from the time-honored patriotic exercises of the day, to imbue newly naturalized citizens and aliens with the full sense of what America means to them.

In its preliminary work, the Americanization day committee believes it has already won the interest of educational authorities and employers, particularly, to a new sense of what the foreign born population means to America. Letters in a great number of prominent citizens have borne expression to the effect that the responsibility of the American citizen should be held more fully met.

Receptions for Foreign Born. The manner in which the Americanization day program will be carried out will vary in the different cities, but a large number of them will follow the suggestion of the general committee to holding a reception to which the foreign born, whether citizens or not, will be invited to meet their city officials and other prominent citizens. Arrangements are being made in a number of cities for the use of auditoriums with large platforms, on which the most recently naturalized citizens will be seated as of honor. A special feature of the occasion will be the recitation in union of the oath of citizenship to the United States, as the American flag is unfurled. Pageants and patriotic motion pictures will be a part of the program in some cities.

During the flag day exercises on June 14, the schools of the country largely furthered the movement for Americanization. The general committee believes that the outpouring on July 4 will be so inspiring that the idea, which is given national wide consideration this year for the first time, will be carried to still further success with each succeeding year.

Neighborhood Meetings Planned. In addition to the organized celebrations in the cities, neighborhood meetings of the foreign born are planned in the smaller communities, at which American employers or neighbors will be hosts. The organization of the National Americanization day committee includes more than 50 prominent men and women in every walk of life. Among them are: Murray Butler, Thomas A. Edison, James Cardinal Gibbons, John Grier Hibben, George Von L. Meyer, Jacob H. Schiff, Cornelius Vanderbilt and Gen. Leonard Wood. The chairman is Frank Trumbull, and the treasurer, William Fellows Morgan, of New York.

KILLS THREE; IS SLAIN BY POLICE. Jamestown, N. Y., June 18.—Spurred on by drink and a quarrel with his father, Fred Shaver, Friday killed his father, stepmother and a policeman. He then stood off policemen attempting to arrest him, until he was himself killed. The son went to his father's apartments, where, after a dispute, the older man fled to the hall. There he fell dead from a rifle ball. The sound of the shot attracted Officer Kendall, who ran up the stairway.

Young Shaver shot the policeman in the chest and hip, and the wounds proved fatal a hour later. The murderer then barricaded himself in the apartment and the slaying of his stepmother probably occurred soon after that.

Later Shaver appeared at a window and several policemen stationed across the street fired in quick succession and he fell back to the floor. The officers then broke open the door and found young Shaver dead.
