Zapatistas Are Surrendering Fast

Message To Carranza Consul In El Paso Tells Of The Zapatista Collapse.

MEN SURRENDER AT EVERY CHANCE
Message Also Asserts That Rebels In Guatemala Defeat Cabrera Forces.

OFFICIAL advices to El Paso's Mexican consul, Andres G. Garcia, Tuesday morning from the Carranza governor of Chiapas, declared that revolutionary forces in Guatemala have defeated the government troops of president Estrada Cabrera in the Valle de Istatan, after having inflicted severe losses on them.

The Carranza consul is reported to have notified the revolutionists against Cabrera in retaliation for Cabrera's permit to the revolutionists to arm on the Guatemalan side of the line to attack Chiapas. Commissioners sent by Carranza some time ago to Guatemala for the purpose of organizing an expedition against the Carranza forces in Chiapas have returned to Juarez, their mission.

According to present prospects, there will not be any Zapatista followers left to oppose the advance of the Constitutional forces into the state of Morelos, as Zapatista adherents are surrendering in large numbers; the message added, "Three thousand of them gave up yesterday (November 7) and received amnesty from the de facto government of Mexico."

CARRANZA CONSUL TO BUY RIFLES SOLD BY VILLISTAS
Carranza consul Andres G. Garcia to El Paso has launched a campaign to buy up Mauser rifles second hand, before opportunity is given for the smuggling of them across the river to the Juarez financial and commercial agency, where a purchase price is already set for them.

The El Paso consul will pay \$5 per rifle of the Mauser type brought to him, as property of the Mexican government, under the guise of reward for the turning in of the piece.

The War At a Glance

INFANTRY activities have been renewed on the front in France, Paris reporting continued fighting by the infantry arm in the vicinity of Louvain, where the allies gained much ground in September.

May Dissolve Greek Chamber.—Premier Tsoukalas, of Greece, is quoted in Athens as declaring the Greek chamber will be dissolved unless it supports the new cabinet.

Italy May Aid Serbia.—A hint that Italy may aid Serbia indirectly by sending troops to Albania to meet a threatened Bulgarian invasion of that country, is contained in a semi-official note issued in Rome.

Greece Needs Financial Aid.—Greece, under heavy expense through mobilization, desires further financial assistance from the entente allies, Paris hears.

Russian Cabinet Resigns.—Reports of changes in the Russian cabinet are confirmed, in part, at least, by an announcement in Petrograd of the retirement of minister of agriculture Krivosheina, because of ill health.

Former American Ship Torpedoed.—The steamer Dacia, which, after being changed from German to American registry, was seized by the French while on a voyage from New York to Rotterdam with a cotton cargo and later sold in prize court, proceeding to be torpedoed by a German submarine.

Hindenburg Claims Success.—Field marshal von Hindenburg reports a success for his troops in the heavy fighting near Dvinsk. The Germans have recaptured to the west of the city the portion of a first line trench position. In Wihylna a victory for Gen. von Lindeiner, commander, north of Komarow, is recorded.

Gov. Hunt Says Greenlee Must Share Burden of Mine Guard Expense.

Phoenix, Ariz., Nov. 8.—When Governor Hunt decided to remove from the Greenlee county strike some all but 120 of the 212 national guardsmen stationed there, he advised sheriff James G. Cash to employ a number of extra deputies for the protection of property. He has been informed that Sheriff Cash has asked the supervisors for the necessary authority to increase his force.

County Should Share Burden.—"A fairly large force of troops has been maintained in the strike district for over a month," said the governor. "The sheriff has been given ample opportunity to avail himself of the deputies he needs. It is only proper that Greenlee county should bear its proportion of the expense connected with protecting the property within her borders."

Hardship to Guardsmen.—"The withdrawal of the troops has been hastened because of the pending litigation over the general application of the law. Many of the guardsmen left families who are now without any support. Many of the guardsmen left families who are now without any support. Many of the guardsmen left families who are now without any support."

Overthrow Of Indian Prince By Natives Is Evidence Of Disquietude.

England Exercises Close Surveillance Over Foreigners Entering Egypt.

WASHINGTON, D. C., Nov. 8.—Darl Kitchener's ultimate destination during his mysterious absence from the British war office, as deduced by confidential information received here today, is to India, where, according to the same information, British rule is confronted with a more serious state of unrest than has generally been known outside of British official circles.

Through the thick veil which the British censorship has thrown about the events in India and Egypt comes a statement that Nawab, Sultan Ul Mulk, the most influential of the native princes, and a staunch supporter of the British, has been deposed by his people.

German Agents Active.—It has been officially announced that the head of the British war office was on his way to the theater of operations in the near east. Coupled with reports of disaffection in Egypt, also ascribed to the same sources.

British Board Arrives In U. S.; Brings Big Steel, Iron Orders

NEW YORK, Nov. 8.—Five members of the French industrial and commercial commission landed here today from the steamship Lafayette and said they came to arrange for the purchase, at the conclusion of the war, of at least \$100,000,000 worth of structural iron and steel machinery and industrial supplies. All supplies of this character, the commissioners said, formerly were imported from Germany.

The commissioners said that while they are here primarily to purchase supplies necessary to reconstruct and modernize French industries when the war is over, they will endeavor to establish reciprocal trade relations between the United States and France.

Damour Heads Commission.—The commission is headed by Maurice Damour, formerly French consul general at New Orleans, now secretary of appropriations of the French chamber of deputies.

Although this commission is not a government organization, it is backed, the commissioners said, by all the large industrial and commercial organizations of France, and a majority of the bankers.

Will Remain Several Months.—Mr. Damour said the commission will remain in this country several months, but trips will be made to many of the larger cities and virtually all of the important manufacturing centers.

Denounce British Losses and Failures in Addresses Before House of Lords.

LONDON, Eng., Nov. 8.—Denouncing the censorship and the conduct of the war generally, a number of peers of the realm delivered addresses Monday in the House of Lords. Lord Curzon, former high commissioner for South Africa, was one of the principal critics.

Lord Curzon spoke of what he termed "the misadventures" of the Antwerp expedition, the loss of rear admiral Sir Christopher Craddock's squadron, the Dardanelles operations and the Balkan expedition. The speaker said he had been told two months ago that 15,000 men had been killed or disabled for life and that multitudes had been added to this number since.

GERMANS COMMENT LITTLE ON U. S. NOTE TO BRITAIN
Berlin, Germany, Nov. 8.—Berlin newspapers as a rule make no comment on the American note to Great Britain relative to interfering with shipping. Summaries of the note as received in Berlin are published without headlines or signatures. The foreign press, however, makes the following comment:

"It is to be hoped the lesson in international law which the Washington government gives the British government will make the desired impression in London. The bare fact that the American government uses such a language and firm language shows that the discount of wide and influential American circles with Great Britain must be assumed to be very earnest in character."

THE HERALD COOPERATES WITH SQUARE DEALERS, AND NOT WITH CONVICTED FRAUDS

OFFICIAL reports of the Audit Bureau of Circulations upon the circulation of The Herald, the Times (English edition), and the Times (Spanish edition) are now at hand and may be inspected at The Herald office by any advertiser who is INTERESTED IN KNOWING WHETHER HE IS OR IS NOT GETTING THE CIRCULATION THAT HE PAYS FOR, and that is guaranteed to him in his written contract. These complete official reports are not the ex parte statements of one paper or the other, but the formal findings of the great national standard authority on newspaper circulations, having headquarters in Chicago; the reports were made public only after a most careful, searching, and impartial investigation of this field, conducted here, consuming nearly two months. The audit was made at the request of, and upon the insistence of, the Times, and was agreed to by The Herald, both papers being members of the Audit Bureau of Circulations. The reports are convincing, and should be read and studied in full by every advertiser who believes in giving, and demanding, "full weight and full measure."
