

HAUGHTON MAKES HARVARD WIN: HARD DRIVING COACH SUCCEEDS

Crimson Football Director Takes Squad of Raw Material and Molds Winning Team About Mahan, Only Star; Hard Work and Plenty of It, is Haughton's Recipe For Success on the Gridiron.

NEW YORK, Dec. 2.—Percy Haughton is the wizard of the gridiron. The platoon game never has known a more wonderful teacher. Those who were skeptical about Haughton's skill, of Haughton's genius, are skeptical no longer.

When the season began it was regarded as the season that would test Haughton, would answer the all-absorbing question—

Was it the wizardry of Haughton or the natural football power of his men that made fame in the other years?

The answer is Percy Haughton. The Crimson coach found a difficult task confronting him when the season began. Brickley was gone, so was Hardwick and so were Pennington, Logan, Francke, Trumbull, Underwood and those other stars. None of the satellites of other years except Eddie Mahan was left. Haughton had to build around Mahan with "green" material and he built a superb machine.

None of the Crimson players of 1915 were really brilliant. But Haughton was undaunted. He hammered, tinkered, took out old sins from his machine and then trained them. He made numerous changes and in the end for that Yale game he presented for public approbation one of the smoothest working and most powerful football engines that ever steam-rolled a gridiron.

Haughton's Coaching Methods. What is Haughton's system. A simple one. He never wastes his time on really raw material. He lets his assistants do that and he handles only the semi-finished article.

When the football candidates present themselves, Haughton spends a few days looking over the assortment of newcomers. He has uncanny judgment in picking out real players from among a bunch of raw recruits. After he has looked over his whole squad Haughton picks out the veterans of the year before, selects a dozen promising looking youngsters as candidates for places on the substitute variety, and leaves the development of the others to his assistants.

He is the Boss. Haughton has his own theories about developing men, and he insists that his assistants follow them. He is not a man to be trifled with. He demands obedience from his men and the absolute following of his rules by his assistants.

If Haughton, after experimenting for awhile with his starry candidates, finds some of them don't measure up to standard, he turns them over to his assistants. When Haughton needs additions to his first string, he sends an order to his assistants: "I want a halfback, fellow who is fast, weighing between 130 and 160 lbs. I want a guard, or I want an end—one who is good at handling the forward pass." And Haughton's orders are filled, because his assistants know they are subject to his whims and he is prepared for them.

Haughton is a Driver. The Crimson motor is a driver. He works to the full limit of his energy, and he expects his men to do the same thing. He will not countenance sloth. Every man who wants to play on the Harvard eleven under the Haughton regime must be willing to stand up under the strain of a "hard" practice session a day, should Haughton decide that such an amount was necessary.

Haughton isn't talkative on the football field or off. He talks rarely, but always to the point. He never wastes a word. His orders to his men are brief as far as speech is concerned. The tone of his voice and his nervous gestures fill the gaps that the words may leave. And no one ever misunderstood a Haughton command.

To what do you attribute football success? Haughton was asked. And Haughton answered: To work—hard work—and plenty of it.

CITY BASKETBALL LEAGUE IS BEING ORGANIZED

A meeting will be held at the Y. M. C. A. Saturday evening at 8 o'clock to talk over plans for organizing a city basketball league. All managers and captains are urged to attend.

It is probable that the league will be composed of six teams this year, instead of four as heretofore. The High School, School of Mines, Catholic club, American Institute of Business, and two commercial teams captained by Lawrence Shea and Phil Holzman have announced their intention of entering. No definite season is to be expected.

It is probable that the games will be played in the Y. M. C. A. gym on Saturday evenings. Y. M. C. A. IS ARRANGING AN EXTRA CLASS NIGHT. Special efforts are being made to work up an extra gymnasium class night in the Y. M. C. A. gym. In addition to the Monday and Thursday classes, the program will include athletics, gymnastics, handball and volleyball. The work will begin at 8:15 and close about 9:30. This will give the hexathlon men an opportunity to do some special work on their events and also give the advanced gym men a chance to do circus work.

Elementary athletics and gymnastics will also be given attention.

DE ORO WINS FROM CHALLENGER AT BILLIARDS

Chicago, Ill., Dec. 2.—In the first block of the championship three quarter-final match, between Alfred De Oro, holder of the title, and August Kleckhefer, challenger, De Oro won in 52 innings, with a score of 20 and Kleckhefer ran 25 in 42 innings, with a high run of 2. Two blocks of 10 each remain to be played.

DR. ROBERTS MAKING IMMIGRATION STUDY

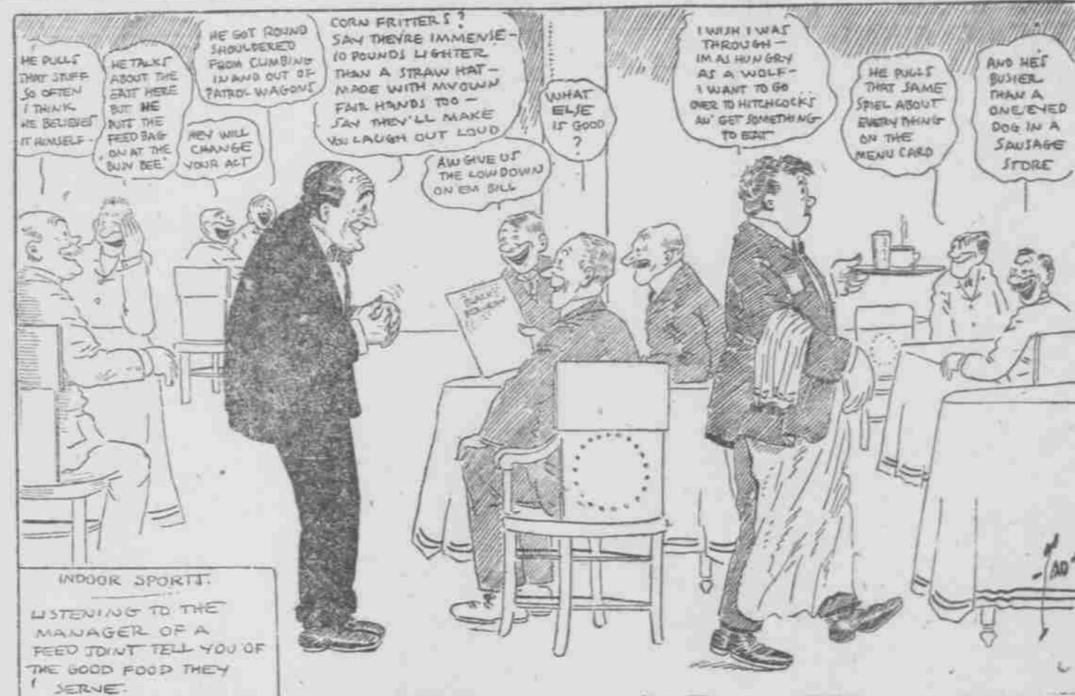

Dr. Peter Roberts, international secretary of the department of immigration in the Y. M. C. A., has arrived in El Paso to look over the field for association work among the Mexican element in this border city. He expects to remain here about a week, studying the conditions and conferring with local Y. M. C. A. heads.

"I cannot express an opinion on the prospects for our work among the Mexicans here," said Dr. Roberts. "It is too early, and the field is a new one for me, into which I have not penetrated sufficiently to make it proper that I say anything at this early stage. It is of course possible that the El Paso Y. M. C. A. may start in with plans for a Mexican association, and I have done much of my work among the great horde of Slavic and allied races which pour into the eastern ports of entry from continental Europe, and the methods we use there may not be suitable here in any respect. In New York and Boston, Y. M. C. A. work among the immigrants coming in from abroad is progressing and the local institutions are doing good service. Out here the immigration situation may require absolutely different methods."

Like the sun we are dispensers of warmth and good cheer. R. C. Semple, successor to Southwestern Fuel Co. Phone 551.—Advertisement.

Runyon Picks Oliphant and McEwan Names Army Players On His "All" Team

NEW YORK, Dec. 2.—Our Guys-We've-Seen football eleven is now ready for public inspection. It is a purely hypothetical eleven, made up of what we deem the best men in the different positions, that we saw on the gridiron during the past season.

It is not an "All-Eastern" selection. It is not an "All-Western" selection. It is just a "Guys-We've-Seen" pick. We do not claim that the men we name were the best football players in the land this year. We do not assert that they were the best in any one section of the country. We merely say that they were, in our judgment, the best we saw.

Many persons do not necessarily have to actually see a player to pass judgment on his ability. To make room for him on "All-America" or "All-Eastern" or "All-Western" teams, they have some strange occult power, these persons, of knowing all about a player, however remotely removed from the range of vision that player may have been. We must confess, however, we do not possess that power even in the smallest degree.

It's a gift, that is—a natural born gift. It is bestowed only upon the favored few.

Take up a Spalding's Football Guide: the one for last year. There you will find a list of "All-America" selections, longer than one of Eddie Mahan's punts. There you will find a gentleman residing in New York, and who was never west of Buffalo all season, making up a hypothetical eleven which includes players from far western colleges. How does he do it? It's a gift. Then there is a bird in New Orleans who organizes his "All-America" with players from Harvard and Yale and Princeton, when we are morally certain he was never in rifle shot of the Mason and Dixon line at football time. And there is a chap in Boston who nominates a southern player he never clapped eyes on.

Not by the Records. Do they go by the records? By the actual figures? Well, last year one of

Best Treatment for Catarrh S. S. S. Removes the Cause

Specialists in Catarrh troubles have agreed that it is an infection of the blood. The laboratories of the S. S. S. Co., at Atlanta, have proven it. Once you get your blood free from impurities—cleansed of the Catarrhal poisons, which it is now a prey to because of its unhealthy state—then you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils, and the disagreeable bad breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with Catarrh—it is not necessary. The remedy S. S. S., discovered over fifty years ago, tested, and tried, is always obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If yours is a long standing case, be sure to write the S. S. S. Co., Atlanta, Ga., for free expert medical advice. They will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean. They will prove to you that thousands of sufferers from Catarrh, after consistent treatment with S. S. S., have been freed from the trouble and all its disagreeable features and restored to perfect health and vigor. Don't delay the treatment. Take S. S. S. at once.—Advertisement.
