Massachusetts Red Cross Has Another Carload Ready for Border.

BOSTON, Mass., Aug. 10.—It was announced today that another Red Cross car, assisted by the funds from the Massachusetts Volunteer Aid association, would make a trip to the border in about 10 days with articles for the Massachusetts contingent.

It is the belief of officials of the latter organization that very soon the relief work among soldiers' families will be entirely centralized. The small local aid organization in many instances will be entirely unable to carry on the work. The Volunteer Aid association is figuring that it will bear the entire burden in the near future.

ROOKIES HAPPY, THROUGH MILITARY TRAINING CAMP; ON SHORT RATIONS FOR LAST DAY.

PHILADELPHIA, Pa., Aug. 10.—Tanned, vigorous, fairly radiating health and energy, 282 "rookies" reached home this morning from the Plattsburg military training camp. They were in high spirits as they piled off the train in Broad street station, but they were also hungry as the proverbial bears.

It seems they were without food, save for a few boxes of crackers, a little fruit and a couple of sandwiches, from 5 o'clock yesterday afternoon, when they had their last supper in camp until they reached Broad street station at 10:35 today, three hours and a half behind schedule.

Kills Self in Doctor's Office. A young man, giving his name as Raymond Richards, shot and killed himself in the home of Dr. L. G. Flannery, 256 North Broad street, while awaiting the arrival of an ambulance to convey him to a hospital after swallowing poison tablets.

The young man called at the physician's office shortly after 9 o'clock yesterday morning. He told the maid he had swallowed the poison by mistake and requested immediate attention. Dr. Flannery took him into his private office and administered antidotes.

The patient said he had mistaken the tablets for a headache remedy. He appeared relieved by the treatment, but at the physician's request remained on a couch in the office for two hours. Dr. Flannery suggested removal to a hospital. The patient consented and the Flannery went to the telephone to summon an ambulance. The young man who previously had obtained permission to use the washroom, went upstairs.

16 New Cases Reported. Sixteen cases of infantile paralytias are reported to the health authorities yesterday afternoon, one of the little victims being the four year old son of Miner Fenton, of 211 Upson street, Germantown, president of the Penton wheel company, Ninth and Thompson streets. Another victim was Benjamin Apper, three years old, of 222 West 44th street, whose sister, Esther, died Aug. 5 from the same disease.

Refuses to Reinstatement Strikers. The definite refusal of the Pennsylvania Electric Transit company to take back any of the motormen or conductors who walked out two days ago at the call of the union has virtually ended the trolley strike here a closed incident.

Although president Harry F. Flynn, of the union, and national organizer J. Shea have denounced and ridiculed a statement from Thomas E. Mitten, president of the transit company, their efforts yesterday proved insufficient to arouse any more employees to join the ranks of the strikers.
