

PERSHING MAY USE TRAINS OUT

Preparations Being Completed at Columbus For Receiving the Troops.

BY ASSOCIATED PRESS. Columbus, N. M., Jan. 8.—Officers here state the artillery, infantry and quartermaster commands attached to Gen. J. J. Pershing's punitive expedition in Mexico may be brought out by rail from Casas Grandes instead of hiking over the line of communication from Columbus.

The officers differ, however, as to the expediency of this arrangement at this time and some believe Gen. Pershing will make the march from Columbus to the border as a test "hike" as he did going into Mexico. Should arrangements be made for bringing the artillery, infantry and quartermaster commands to the border by train, only the cavalry and motor truck companies would come back over the trail to the border at this point.

It is said that this battery is one of the best equipped in the federal service. It has four three-inch guns.

The battery B has 144 men and five officers. The commonwealth of Georgia has sent 52 recruits to El Paso since its contingent arrived on the border. Most of these men have been detailed to the infantry in Camp Cotton. It is estimated that the three regiments of infantry, batteries A, B and C from Savannah; B from Atlanta, and C from Savannah, the troop of cavalry, and the Georgia field hospital, have approximately 5000 men. In the entire Georgia outfit, there has only been one death since its arrival, and this one was in the cavalry.

FUNSTON ON WAY TO YUMA, ARIZ.

Department Commander Says Expedition's Withdrawal Not "Up to Him"

Maj. Gen. Frederick Funston, commanding the southern department, passed through El Paso on Saturday night. "Nobody home" was the general's laughing reply when asked if he would express an opinion on the probable withdrawal of the Pershing punitive expedition. "I have nothing to say about it. I am doing no talking these days. However, I wish to make one thing clear, and that is that the withdrawal of Gen. Pershing is not optional with me, regardless of what some people are saying. I sent the expedition into Mexico on an order from the war department. I will recall the troops on an order from the same source. If Gen. Pershing's withdrawal is left to me, I am not assuming the responsibility."

Gen. Funston refused to make any comment on the Mexico-American joint reconnaissance operation failure. It is recalled, though, that the general several months ago made a report to the secretary of war, recommending the withdrawal of the troops now in Mexico on the ground that they were not in a strategic position and were practically useless. Gen. Funston, in a private car, accompanied by Mrs. Funston and their two children, Capt. Fitzhugh Lee, aide-de-camp, and a private secretary, stopped 20 minutes at the union station, when Gen. Funston held a conference with Brig. Gen. George Bell, jr. Mrs. Funston and the children were on their way to San Francisco. Gen. Funston and Capt. Lee are to drop off at Yuma, Ariz. to begin an inspection of the troops on Mexican border service. They will work their way back to El Paso, arriving here about January 12 for a stay of several days. Gen. Funston will not visit the troops in Mexico.

COLORADO SIGNAL COMPANY IS UNDER QUARANTINE

As a precautionary measure against typhus fever, the Colorado signal company is being quarantined near Camp Stewart. During the holidays, some of the Colorado signal corps men made a trip to an abandoned mine in the Franklin mountains, near Camp Stewart. When they returned they brought back some old bed clothing, a mattress and some pillows, according to one of the officers. Soon after their return it was discovered that several of the men had lice on their bodies. The bedding was burned, the men made to take hot baths and the entire company quarantined temporarily. Medical officers declared yesterday night there was no danger of typhus fever developing among the signal men. They said that while lice are carriers of typhus germs, there was nothing to indicate the presence of typhus in the mine shack.
