LITTLE OTTO.

MORRIS DEFEATS FULTON

Oklahoma Scrapper Outpoints Opponent Until Fouled in Fifth Round.

FULTON BEATEN IN EVERY ROUND

NEW YORK, April 5.—Carl Morris, of Oklahoma, was awarded the decision over Fred Fulton, of Minnesota, in the fifth round of a bout here Wednesday night, after referee William Brown had announced Fulton struck Morris a foul blow, sending him helpless to the floor. Morris weighed 223½ pounds and Fulton 220½. The bout was to have gone 10 rounds.

Morris clearly had the better of the battle up to the time the foul blow was struck. Honors were fairly even in the first round but in the next two and part of the fourth, Morris was in the ascendant and had his opponent at a disadvantage as Fulton is a long distance fighter.

With short arm rights to the body and jolts to the head and face, Morris had Fulton bleeding from the nose and mouth in the second round and cut a gash over his left eye in the third. Morris still kept fighting at close range in the fourth and continued the same tactics in the fifth, damaging his adversary considerably on the face and body.

Fulton landed only at long range and his punches were not of much use at close quarters. He had been badly beaten at the time he landed the foul. After the blow which ended the fight, Morris fell to the floor helpless and had to be carried to his corner.

The fight between Morris and Fulton was the culmination of a series of challenges between the two fighters that have been going back and forth for the past three months. Fulton is the Minnesota heavyweight who recently announced his intention of fighting for the crown of Jeff Willard, and has been on the trail of the big champion for a month.

In meeting Morris he clashed with the trial horse of the heavyweight division as the Oklahoma man has been fighting for the past six years and is regarded as one of the toughest in the game.

The fight will doubtless end the title aspirations of Fulton for some time to come, or it will dampen them to such an extent that a match with Willard for the title will not be thought of for a long time. Morris has never met Willard and it is probable that a match between these two boxers will be arranged when the big titleholder completes his contract with the vaudeville men.

JACK RUTHERFORD IS STAR.
The El Paso Furniture company base ball team met the Armour meat packers Sunday morning at the Foundry grounds and won by the score of 15 to 1. The weather being disagreeable, a good brand of ball could not be played. The pitching of Jack Rutherford for the furniture men featured.

Mass Sgt. Thomas of Det. Bakery Co. No. 7 accepts challenge of Hideo, Bakery Co. No. 7 Camp Newton B. Baker for game at any time. Manager Morris will correspond with Sgt. Thomas.—Adv.

DILLON MAY BE ALL IN

Hoosier Bearcat Reported to Be in Bad Condition for Fight.

JACK SLOWING UP IS BELIEF

HAS Jack Dillon shot his bolt as a high class performer in the ring? His former manager, Sam Murbarger, says that Jack is "all in" while the Hoosier bearcat says he is just as good as ever and that he still has three years of good fighting in his system. There is no doubt that Dillon has not taken the best care of himself during the past year or two and some of his poor fights are attributed to this fact alone.

It is too bad that Jack should neglect himself at a time when he should be conserving his strength. He has been one of the greatest fighters we have had for some years; he has battled against mid-weights, heavyweights and a few lighters never made a howl about a few pounds in weight.

Dillon has usually gone into battle against men weighing anywhere from 10 to 20 pounds heavier than himself and that is why he was called the "clank" kid. Jack is only 25 years of age and should be at his best now. His recent battle of 20 rounds against Gumbo Smith in the south demonstrated that he can still go the distance, so that his stamina must be pretty fair and if it is, there is no reason why he should not be able to go through many more bouts of 10 rounds each, if he trains properly and takes care of himself.

Probably the "Great white way" in New York did not help him any, but he is not the first fighter to find that out. Dillon's ambition has been to fight Lester Darcy, of Australia. It is not generally known, but Jack had signed a contract with Snowy Baker, of Australia, to fight him in this country this month and meet Darcy on Easter Monday, which is a big boxing day there, and he was to have received \$15,000 for his act, with another \$15,000 for two other matches.

When Darcy left the Antipodes and came to America he spotted all of Jack's old arrangements for the trip to the country of the Southern cross. Now Jack is anxious to try his luck with the Australian champion in the states, either over the 10 or 20 round course.

HONUS WAGNER GIVING ADVICE

Shreveport, La., April 5.—Honus Wagner, the veteran shortstop who was here about three years ago, will doubtless be glad to hear of his victory over Young Mahoney, in Racine, Wis., about 10 days ago. Joe is now matched to meet George (Knockout) Brown of Chicago in a ten round bout tonight at Island City, Ill., where baseball fans are giving a booster entertainment for the benefit of the base ball club.

AMERICAN TEAMS WELL WATCHED

From the manner in which six or seven of the American league clubs have been going this spring indications point to one real close race this season. Charlie Griffith at Washington uncovered a couple of young phenoms the pennant will belong to any one. The pace though no doubt will be set by the Red Sox, Tigers and the White Sox, but they will have plenty of company.

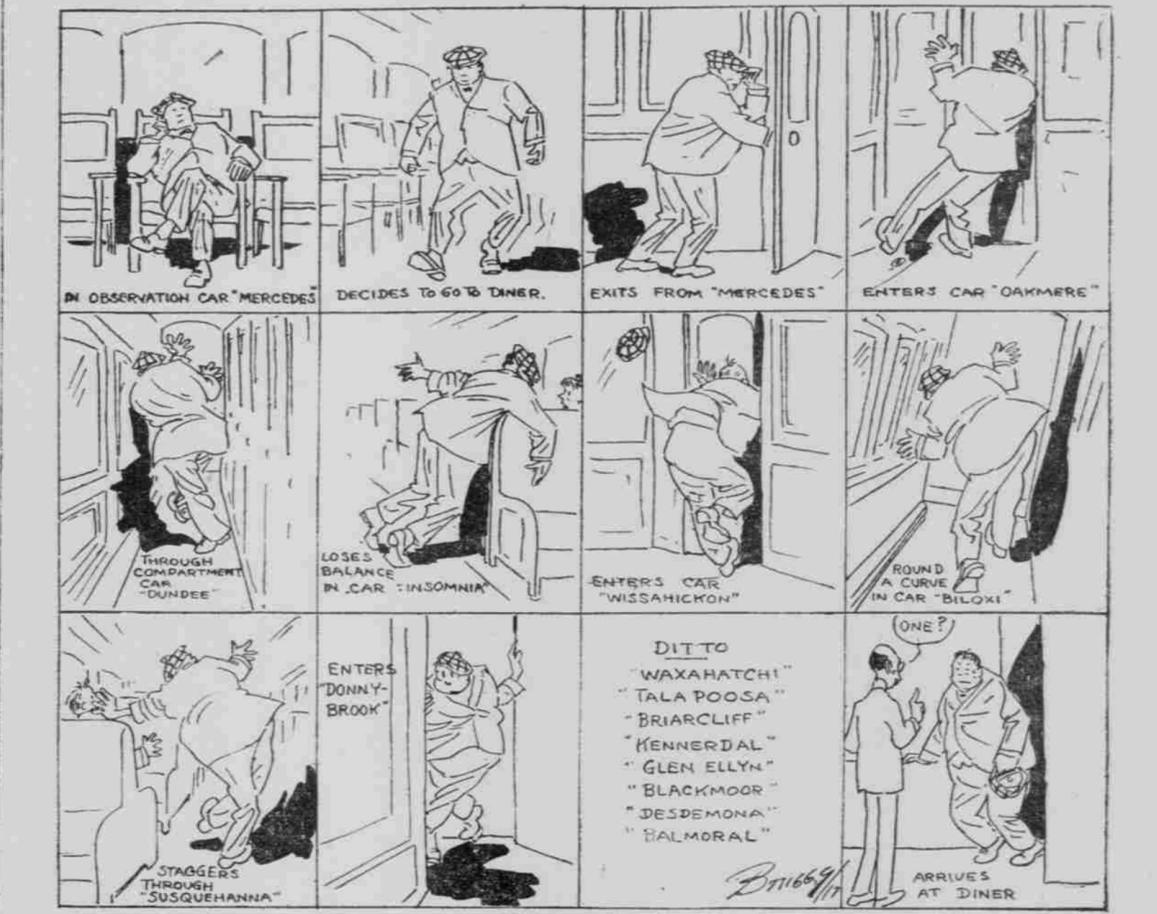

OLD WAHOO SAM IS NOT ALL IN

They say that Old Wahoo Sam Crawford is all in and that his big league career is over. Sam was sent in to hit for young Nicholson recently against the Giants and he pollieted him one over the wall. Then to prove that it was no fluke, the boar from Wahoo came back with another hit later in the game. Crawford may not be as good a fielder as of yore, but he certainly can still hit that pill.

TYRUS COBB REFUSED TO PLAY IN DALLAS.

Tyrus R. Cobb came near putting a quietus on the exhibition series between the Giants and Tigers in Dallas. One can't blame Cobb at all for the stand he took, as it always has been the rule in baseball to banish all players to take an active part in a fight on the diamond, and umpires Kane and Brennan tried to make the Georgia Peach the goat.

Movie of a Man Walking From Observation Car To Dining Car - By BRIGGS

JOE HERRICK IS FIGHTING GOOD

Middleweight Who Fought in Juarez is Making Them Take Notice.

El Paso friends of Joe Herrick, the clever Keweenaw middle weight boxer who was here about three years ago, will doubtless be glad to hear of his victory over Young Mahoney, in Racine, Wis., about 10 days ago. Joe is now matched to meet George (Knockout) Brown of Chicago in a ten round bout tonight at Island City, Ill., where baseball fans are giving a booster entertainment for the benefit of the base ball club.

Jack Herrick, who was in El Paso about two years ago and who has been fighting around New York city, has joined his brother, and is now officiating in the role of sparring partner. Jack is a husky middleweight with abnormal powers of assimilating punishment, while Joe is a light middleweight, fast and clever, and is making a tremendous hit around Milwaukee, and Chicago by his wonderful work.

REDLANDS HAS A GOLF COURSE

Redlands, Calif., has just dedicated the municipal golf course. A general and informal holiday was made of the occasion by closing stores in the city while the citizens joined in the celebration. Practically every important city on the Pacific coast now has a public course, or one in the making, and it is becoming evident that the smaller cities are determined not to be outdone. This is borne out by the fact that these towns are reported to be considering ways and means of adding a course to the list of their public attractions and amusements.

On the Pacific coast hold to the opinion that the same is growing in this locality faster than in any other part of the country due largely to the fact that in a large portion of the territory climatic conditions are such that the game may be played virtually all year.

BROWNS GET A NEW TWIRLER

San Antonio, Tex., April 5.—Pitcher Finagan, last year with the Muscatine club of the Central association, has been obtained from Detroit by the Bronchos. The addition of Finagan gives the Nags seven twirlers, the other six including Jost, May, Friday, Gaskill, Covington and Harper. Finagan last year pitched in 37 games. He won 22 and lost 11, and was easily the strike-out star of his circuit, fanning 266 batsmen, to the nearest 23, and also topped his league in lack of control, passing 115, from which combination of circumstances it may be deduced that he is a left hander, though dependent says not. He ranked fourth in his league in pitching efficiency.

EDDIE OWNS GARAGE.

Eddie Croette runs a garage in Detroit during the winter and his brother-in-law, who is on the road playing ball. "One day a fellow drove into the shop, and the car rattled badly," said Eddie.

"He sort of bragged to my brother and said, 'I mean she sound sweet?' 'Yes,' my brother replied, 'just like a one legged man dancing a jig on a tin roof.'"

CARPENTER IS WORKER.

Georges Carpentier, according to various reports from the front, is one of the most versatile young men in France. He boxes for charity while running a motor car with one hand and an airplane with the other. One of these days Georges will become an officer in the submarine cavalry.

TALKING IT OVER

AMERICAN LEAGUERS are wondering what Connie Mack is going to do this year. The Athletic manager, it is said will be the dark horse of the pennant race, and though the season is but a few days away little is known of the strength of the team. The pitching staff is in great shape, however, and it would not be considered improbable if the shrewd pilot came back strong this season and finished in the first division of the American circuit.

The bankers are the latest to organize a baseball league to play on Sunday and obtain a little recreation. It would be a great thing if employees of merchandise houses and other business places would follow the example of the bankers.

The Texas leaguers got away to their 1917 start this afternoon. Pre-season play is very much the same as last year, favoring the Waco, Dallas, Houston and San Antonio teams.

Manager McKinnon of the Herald baseball team surprised his Wednesday by handing in his resignation as pilot of the club. It seems that manager "Mac" hasn't the time to get around on average games, although he made a grand success of the affair with the morning paper last Sunday. He recommended the appointment of Bud Rutherford as manager, and Roy Rabbit, as field captain of the team.

"DOC" WHITE, ONE TIME STAR TWIRLER OF THE CHICAGO WHITE SOX, AND LATER WITH THE VENICE TEAM OF THE COAST LEAGUE, IS AT THE HEAD OF THE DALLAS, TEXAS LEAGUE CLUB THIS YEAR.

Close Race In American First Division Is Picked

FOUR clubs stand out prominently in the American league. They are the White Sox, Red Sox, Tigers and Yankees.

They stood out prominently in 1916, and they monopolized the first division. That they will be the first four again this year seems a certainty, but the order of their finish is a deep puzzle.

Sentiment favoring the White Sox is stronger this year than it was in 1916, and the Chicagoans look as good as any club can look on paper. Chic Gandil's return to the Sox may mean a pennant, and the Chicken may surprise the baseball public by hitting the ball harder than in the past two years.

That his fielding will be an asset is sure. Early reports on the Sox indicate that Rowland will get better pitching. If he does, prepare for a wild jubilee on the South Side next October. The Sox are a good bet.

YOUR VIEWS AND MINE

By BUD RUTHERFORD

and it is probable that they will get together within a short time with this object in view.

Even the bakers play baseball down in El Paso. Members of bakery company No. 7, are anxious to arrange a game with any other team in this vicinity. Sergt. Morell is the manager.

Les Darcy would doubtless go back to Australia if he could do so in a hurry. The Antipodes champ is having a hard time in the east as a result of the refusal of Gov. Whitman, of New York to allow him to box.

Amateur baseball players of El Paso get busy and organize a league. The Herald sport desk will lend any aid possible in the organization of one or more leagues of young players who will be enabled to play on Saturday afternoons for the intercity championship. The teams can be graded by weights and ages, and there will be no one-sided games.

City league managers are promising a fast game Sunday afternoon at 4:30. The teams are too far away to become a member of the Texas league. This city has a reputation for prosperity and business that is known all over the southwest, and it is small wonder that she is wanted.

THE FIRST GAME OF THE BANKERS' LEAGUE WILL BE PLAYED ON APRIL 15. THE GAMES WILL START PROMPTLY AT NINE O'CLOCK IN THE MORNING AND WILL BE OVER BY 11:30 OR 12 O'CLOCK.

Word from east Texas cities states that the baseball fans regard it as "too bad" that El Paso is too far away to become a member of the Texas league. This city has a reputation for prosperity and business that is known all over the southwest, and it is small wonder that she is wanted.

Among the remaining clubs, Cleveland and the Browns stand out as dark horses. Lee Fohl's team ranks as a dangerous opponent for all comers with first division aspirations, and it appears that the answer lies in Joe Wood, Gay Horton and Tris Speaker. The Browns are "in and outers."

SOCCER LEAGUE BEING PLANNED

Enthusiasts of Summer Pastime Will Form a League Soon if Possible.

Matters relative to the formation of a soccer football league in El Paso are progressing rapidly and it is probable that at least six teams will enter the league to play games during the summer months at Rio Grande park.

All managers of teams who are desirous of arranging games or entering the proposed league can communicate with the sporting editor of The Herald, or secretary Holliday, of the Y. M. C. A. headquarters in the 17th regular cavalry camp. There are several teams among the various regiments in the El Paso district who are desirous of entering the league. It is said, and those having the proposed formation in charge are working energetically on the project.

The 16th regular infantry is one of the latest teams to express its intention of entering the league, while it is probable that the United Empire club will also be represented, a number of fast players being on this team.

SHATTER OLYMPIC RECORDS

Athletes Competing in New York City Make Record Scores at Meet.

ATHLETES MAKE GREAT SHOWING

NEW YORK, April 5.—A futuristic view of Olympic games, which can never be held on the same grand scale as in former years until the world war comes to an end and the sturdy sons of foreign countries put away their guns, is interesting.

When peace finally comes to the war-torn world, and the sport-loving sons of the warring nations can once more turn their attention to games on track and field, they will find mountainous records ready for attack.

While European nations have sent their sons to the trenches, where many great athletes have died fighting for their country, the youth of the United States have been busy piling up new world's records in many branches of sports.

The present year has seen a number of records go by the boards, and before it comes to an end many new marks in various branches of sport will, no doubt, be made.

Records shattered so far include the 1000 yard mark, recently bettered by Johnny Overton, of Yale. The 300 yard race record has been splintered by Andy Kelly, and Jose Ray, the marvel of the middle west, has set new figures for the mile and one-half and the two mile distances indoors.

His two mile indoor record was an American record, but he is expected to create new marks at various distances when he gets under way on the open paths this summer.

In the swimming world, Ted Cann, New York's crack 15 year old sculler, will probably pull down many swimming marks this summer or force other swimmers to do so. Hal Vollmer, Ludy Langer and others are looked to for record performances this year.

The athletes of this country now hold practically all important marks in track and field games, while in other sports, such as golf, tennis, boxing, rowing, cycling and a number of lesser sports, the United States is fast cornering world's records.

Great credit for the accomplishments of American athletes must be given to the system of coaching that prevails in this country. The athletes of other lands have not had the opportunities to develop within the past three years, if it is true, but in years before the great war commenced Americans commanded respect because of their versatility.

An athletic team representing this country is always better fitted to make a showing in all branches of track and field games, for American coaches bring out every talent an athlete possesses.

Tractor Gears Last Longer With Texaco Crater Compound

Through the strenuous work of breaking, plowing, seeding and threshing, your tractor will operate in flying dust and dirt, perhaps sand, too. That's why you need special protection for the wearing parts. That's why you should lessen the chances of costly breakdowns by using

Texaco Crater Compound

The Great Tractor Gear Lubricant

CRATER COMPOUND coats gears, chains and sprockets with a film of durable lubricant which sticks and lubricates, though the tractor be working under intense heat and in a cloud of dust. That is why owners of all makes of tractors throughout the Southwest are using CRATER COMPOUND. They get more work from their tractors, realize more on their tractor investment, saving replacements of gears and other expensive parts.

CRATER COMPOUND protects and lubricates all equipment working under heavy pressure or exposed to the weather.

Get CRATER COMPOUND and other Texaco Lubricants from the Texaco dealer in your town, or write our nearest office.
