

CITY USING 11,000,000 GALLONS WATER EACH TWENTY-FOUR HOURS

Watts Pump is Started Up To Fill the Reservoir and Guard Against Danger From Fire—Pumps Ordered For April Will Not Be Working Inside of Four Months; Negotiating For Another Plant.

EL PASO is consuming over 11,000,000 gallons of water a day, the greatest in the history of the city, and as a result, it was necessary last night to put the "Watts well" pump into operation for a few hours to fill the reservoir. The pump was taken down and thoroughly repaired last week and is now in position to work at any time required, such as in case of a big fire or any sudden call upon the water system of the city.

The new pump, ordered a year ago and contracted for installation in April, has not yet arrived. Parts of the machinery have, however, been received. H. P. Jackson does not expect all of the machinery for another six days and says it will take two weeks to install the pumps after they get here.

"The water consumption in El Paso is increasing rapidly during the month of June was 24 percent greater than during the same month of last year. This gives some idea of the problem we have to meet in furnishing water for the city. The city shows the tremendous growth of El Paso.

The water company could have kept up with the needs of the city, however, if it had been possible to get the pumping machinery on time but in these times of war and stress, you can't get anything.

GOING OUT ON DRIVE FOR T. G

Intensive Recruiting Begun For Men For El Paso's New Companies.

Intensive recruiting for the Texas national guard units being organized in El Paso began Wednesday and will be continued Thursday, in order to fill up the quota for the organizations, Thursday having been specified by Brig. Gen. John A. Hulen, Texas commander in chief, as a national recruiting day. The recruiting force here, starting tonight, carbonates meetings will be held in the downtown streets to stimulate recruiting under the auspices of the directors of the chapters of companies, who have volunteered their services.

Company K, First Texas infantry, is still looking about 20 men to have sundering strength, while the hospital unit is short about 15 men. The drive for the first two days in recruiting day, will develop unusual activity among the recruiting forces here. Starting tonight, carbonates meetings will be held in the downtown streets to stimulate recruiting under the auspices of the directors of the chapters of companies, who have volunteered their services.

THE above picture shows E. D. Conger, Douglas agent of the El Paso Herald, and his newboys and delivery wagon, ready for the daily distribution of The Herald to the Douglas readers. Mr. Conger's nephew, Harry Conger, is shown by his side. Piles of Herald are seen on the platform inside the wagon.

LISTS OF MEN FOR DRAFT SENT

Certified Copies of Registry Cards in El Paso Go to Washington.

Complete certified copies of all El Paso men who registered for the selective army training law on June 5 were forwarded to Washington Wednesday, in two big motor trucks. The trucks were loaded with cards of city districts 1 and 2, revealed over by L. A. Dale and J. P. Williams, of exemption boards and L. Duplucates of the lists, giving the names and addresses of the registered men were posted on the bulletin board in the lobby of the courthouse and in the City National bank. Each list bears new consecutive numbers, according to the direction of the whole city registry into two sections, approximately equal.

Judge Dale said Wednesday at noon that the procedure under the selective army training law is now in progress. He said that the cards are being prepared in the city and will be sent to Washington. The cards are being prepared in the city and will be sent to Washington. The cards are being prepared in the city and will be sent to Washington.

Prominent Local Men Give Personal Library Books For the Soldiers

The response to the appeal of the El Paso soldiers' recreation committee for books for a circulating library is increasing daily. The number of books accumulated already at the office of Cecil C. North, representative of the Federal, state and city libraries, is increasing.

John A. Wyatt Tuesday gave a large portion of his personal library to the soldiers' recreation library. Wyatt, a prominent local man, has been generous in his contributions to the library. He has given a large number of books, including fiction, non-fiction, and reference works.

A. J. Hughes, chairman of the committee on education of the El Paso soldiers' recreation commission, is confident that a library of from 2000 to 3000 volumes may be accumulated through contributions from El Pasoans.

Fiction is most desired, according to Mrs. M. D. Sullivan, who will be in charge of the cataloging of the library when it is collected.

George Fritchard was bound over to the federal grand jury on a charge of selling intoxicants to soldiers, at a preliminary hearing held Wednesday morning before United States commissioner Samuel L. Kelly. He furnished a bond of \$150 to appear before the grand jury in October.

The American Beauty Perfumers, in the Roberts-Banner Bldg., are making an appeal for perfume for the soldiers. They are offering a variety of perfumes, including roses, violets, and lilies. The proceeds from the sale will be used to purchase more perfume for the soldiers.

For breakfast, call you imagine anything more appetizing than a strip of choice bacon, done just right? Be sure that it is Wilson's Malted Bacon. It's the best you can get. It's the best you can get. It's the best you can get.

DRAINAGE FOR LOWER VALLEY

Work is To Start Immediately To Relieve Land of Water Damage.

Drainage of the El Paso valley will begin Monday, according to an announcement Tuesday by L. M. Lawson, of the reclamation service. The work will be started near Fabens, where two Hargis dredges have been received lately. In the district above El Paso the work will be started from Montana. The dredge to be used in the Montana work has not yet arrived, but is expected within a week. The work will be under the supervision of J. L. Bushfield, a drainage engineer who arrived here recently from Boise, Idaho. The dredges are 60-ton machines and are furnished with 700 cubic yards per eight-hour day.

A conference between Mr. Lawson and L. W. Murphy, drainage engineer, at Denver, Colo., on the proposed drainage work will be held the last of the week. Mr. Murphy is expected to arrive from Denver Thursday.

George Fritchard was bound over to the federal grand jury on a charge of selling intoxicants to soldiers, at a preliminary hearing held Wednesday morning before United States commissioner Samuel L. Kelly. He furnished a bond of \$150 to appear before the grand jury in October.

PLAYGROUND IS BEING ARRANGED

Boys and Girls at Rescue Home Are To Be Given Breathing Space.

Boys and girls at the Rescue Home in Government Hill have no place to play these hot days, and corporation court judge Chas. Pollock is working on plans to fence in two more lots for them, so they can have more freedom for play.

Judge Pollock today secured the donation of enough used lumber from J. E. Morgan for constructing a fence about the lots—John J. Longwell agreed to haul it out. Mr. Pollock secured in wheelbarrow, some shovels and other materials for leveling the ground and making it suitable for playing purposes.

The home is so crowded that it is now necessary to use the playhouse erected through subscriptions of Herald readers a year ago last Christmas for a sleeping room for the boys. Additional dormitory space is needed here, and a campaign will be started soon to raise money for this work. A number of leading men of the city have pledged their assistance to carry out the plans and give the little boys and girls a decent place to live.

Judge Pollock is taking steps to secure donations of food and supplies from people who are not now helping. He is interesting himself in seeing as many people to the home for a visit as possible, so that they may understand conditions and realize the needs of these small children.

The balance of the Christmas fund subscribed by Herald readers last Christmas for these little boys and girls is now being used to excellent advantage, as additional milk is needed during the hot weather for the boys. Some overalls for the boys to wear in their recent bought also from this fund.

There is always a need where there are children and in the case of the Rescue Home there are 50 to 60 all the time—all bright-eyed American boys and girls.

PHOTO CLEMENTS' PICTURE. The current issue of the Fourth Edition contains a picture of George H. Clements, secretary of the chamber of commerce, an excellent newspaper correspondent and newspaper man. It refers to Mr. Clements when he was member of the Milwaukee Sentinel, the St. Louis Star, the Mexican revolutionary armies, in the Spanish-American war, South America and the Philippine expeditions. The Fourth Edition reproduces a letter from Mr. Clements in which he states he is making an effort to go to France by raising a militia company, having failed to go with Pershing and to land a berth as a war correspondent.

FIRE QUICKLY STOPPED. Fire in the White House, 525 South El Paso street, Wednesday morning at 1:30 o'clock did little damage and was extinguished by the fire department. The fire started in a drawer in a desk in the front of the bar, and damage amounting to about \$10 was done to the desk and the wall. Fire companies one and two answered the call.

To Ward Off Summer Complexion Ills. To keep the face smooth, white and beautiful all summer, there's nothing quite so good as ordinary mercuric iodine. It is a gentle, effective skin cleanser. It is gently absorbed by the skin and released by the pores, freeing skin beneath. The face exhibits no trace of the heat, which is absorbed at bedtime, washed off morning. Greasy creams, ointments and rouges, on the other hand, are apt to appear more conspicuous than usual these days of excessive perspiration. Just get an ounce of mercuric iodine, use it as a detergent and use like and regular. It will help you skin at once and in a week or so the complexion will look remarkably young and healthy. Sun, wind and flying dust often cause irritating and redness. Mercuric iodine makes wrinkles. You can quickly get rid of every line, however caused, by using a mercuric iodine made by the makers of the powdered exfoliant in 1/2 pt. which washes—Adv.

ASK SHIPPERS TO HELP ROADS

Claim Agent Hamilton, E. P. & S. W., Tells How Claims Can Be Cut.

Cooperation between shippers and carriers in the transportation of freight, in order to avoid damages being done to shipments was asked Wednesday by W. L. Hamilton, claim agent for the El Paso and Southwestern railroad. In a talk he made at the Adolph hotel in Hotel Sheldon building.

Mr. Hamilton said that between \$20,000,000 and \$30,000,000 was paid out annually by the railroads in claims to freight shippers and that if the shippers themselves would assist in various ways, this annual damage sum could be cut to half. He said that the shipper was the loser in the end, as the amount of damages paid by railroads to shippers eventually came out of the public's pockets.

Many Causes Cited. There are many causes of loss and damages lying between the carrier and the shipper, according to Mr. Hamilton. He enumerated the following: Improper preparation of goods for shipment, failure to mark packages, failure to insure, failure to give the carrier proper instructions as to the character of perishable freight, failure of consignees to insure, failure of consignees to inspect and of consignees to receive damaged freight.

Appreciate Cooperation. Mr. Hamilton appealed to the business men at the luncheon to cooperate more fully with the railroad in doing business. He said that shipments be packed properly and in other ways assist the carrier in his work.

William H. O'Neil, Winchester Conley and H. D. Agnew were elected directors of the club. The resolutions of Rev. E. Fuller Swift, St. Clement's Episcopal church, Preston W. Duff, and George W. Mitchell were presented to be acted on at the next meeting.

J. E. Newton, president, presided at the luncheon.

CARLOS H. AGUERO GETS 30 DAYS AND FINE OF \$100. Charged with false imprisonment, Carlos Elvira Agüero, a clerk in a store on South El Paso street, was on Tuesday afternoon found guilty in the county court at El Paso and sentenced by Judge Will P. Brady to 30 days in jail and a fine of \$100.

Manuel Ramirez testified he was passing the store with his wife when Agüero and three men entered and measuring Ramirez for a suit. He said he did not want to buy one, but the clerk said he would have to. When the suit was made, Agüero told him he did not have the money. The defendant said that Ramirez entered the store to buy a suit and when he did not have enough money, told his wife to remain while he obtained it and later returned with an offer.

J. M. Duran was fined \$75 for permitting music to be played in his saloon. Ben Watson, negro, was fined \$25 and given three months in the county jail on a charge of stealing goods from the White House department store where he was formerly employed as a porter. Mr. Duran was given 20 days in jail and a \$100 fine on a charge of pistol carrying.

ANDY REEVES GLAD TO GET BACK FROM HOT GALVESTON. After attending the meeting of the Texas Industrial Traffic League at Galveston, Andrew W. Reeves, transferred today to the chamber of commerce, had returned. At the meeting the members of the league discussed the latest news in the Shreveport rate case and proposed ways made against increases of freight rates in Texas by carriers. Talk about your hot weather. Mr. Reeves said, "Why I was not in hot Texas that I nearly melted. El Paso is like a cool summer resort compared with the eastern part of the state. It was nearly suffocating in Galveston."

MISS BANKIN ASKS INQUIRY. Washington, D. C., July 11.—Representative Bankin of Montana, announced today he would ask the house labor committee for a general investigation of the hours of labor for all women in government employ throughout the country.

ARMY DEMANDS GOOD FEET; CORNS AND CALLUSES ARE TABOO IN TRAINING CAMPS. San Francisco, Calif., July 11.—Drug stores in the vicinity of the Reserve Officers' Training camp here are advertising what is familiarly termed a last of his shoes. The price of short, sharp needles is 50c and there are many and severe inspections of feet. Yards of adhesive tape are distributed with instructions on how to use them. The inspection of feet is one of the most important features of camp life, but the soldier is not to be deterred by it. It is held in for bottles, they are held by Mrs. Edward J. Masses and the other experts on foot care. The camp is now in the hands of the army. The inspection of feet is one of the most important features of camp life, but the soldier is not to be deterred by it. It is held in for bottles, they are held by Mrs. Edward J. Masses and the other experts on foot care. The camp is now in the hands of the army.

CLASSES IN FRENCH FOR SOLDIERS BEGIN TONIGHT. Night classes in French for soldiers will begin tonight at the Butler school, 707 Montana street, a facility provided by the city. The instructor of French at the high school, and French consul J. M. Romagny, has been secured for the school and officers and men will be instructed in the language. The classes will be held at the Butler school. The French classes are being held at the Butler school. The French classes are being held at the Butler school. The French classes are being held at the Butler school.

SUMMER COMPLAINT. Yes, it's inflammation of the delicate membrane lining the bowels. The food you have eaten has fermented, made the membranes sore, and they get
