Investigating the claim of residents of the Highland park addition for a seventh grade in the school there, Sept. 12, J. J. A committee reported that there were 23 pupils in the addition who were children of the addition town schools in the absence of a seventh grade. Mr. Tighe, it was understood, will recommend the establishment of the grade at once to the trustees.

The school committee, A. B. Webb, John Lehman, Robert A. Hedberg, John T. Hill and J. J. Behrendt, expressed the demand of the neighborhood for improvements to the school grounds, saying they should be located and graded.

BAND FOR THE HIGH SCHOOL

Glee Clubs Aid Community Singing; Orchestras in Graded Schools.

Francis Russell, the new director of music and entertainment in the El Paso public schools, has some ambitious plans for the student body for the present year.

He is already forming glee clubs for the boys and girls and is also organizing a band and reorganizing the orchestra in the high school.

Plans are being made for various celebrations, one of them, the first, to be in observance of the birthday anniversary of James Whitecomb Riley, on Oct. 7. Other celebrations planned include a Burns day and a Shakespeare day.

All these celebrations are to be free to the public, which is to be encouraged to make the high school a social center as much as possible.

Community singing is to be a feature at the high school, the entire

student body singing twice a week in the auditorium. The boys in the cadet battalion are to be taught marching songs.

Interest, keen in the music and professor Russell has applications from 45 boys for membership in the Boys' Glee club, which he had expected to confine to 25 from the girls. He has applications for 150 to fill the 20 places he had originally planned for the girls' Glee club membership.

For the band and orchestra, 45 applications are on file. No outsiders except alumni of the high school are to be permitted to play either in the band or orchestra this year.

Bands and orchestras on a small scale are to be organized in the grade schools and professor Russell is now investigating the possibilities of such organizations.

"It is my wish to cultivate a love for music among the students," he said, "and we are going to start with the graded schools so that when the children get into the high school they will already have considerable knowledge of music in its various essentials. We also want to encourage community singing and for this reason, the community singing in the high school is to be featured twice a week. We want the public to visit us as often as possible and attend all our affairs. Everything is to be open to the public."
