MILITARY FOOTBALL GAMES DRAW AN ATTRACTIVE CROWD OF GIRLS TO ACT AS SPONSORS FOR PLAYERS

By DOROTHY B. JOHNSON.

SOCIETY is going to take a brief respite from patriotic activities—no more than 45 minutes or so—and send its way to the big High school stadium, on the morning, to spin one or the other of the football teams on to victory, when the 11th field artillery and 21st infantry match their prowess to determine which will play the leading game on Thanksgiving day.

Miss Helen Stratton, Miss Elizabeth Ewert, Miss Agnes Stewart and Miss Nellie May Bowen complete the attractive party. Later, the girls are to be entertained at dinner by some of the officers of the regiment—a jolly, informal affair.

Logic, Miss Clara Lightbourn, the Misses End and Marion Alden, Miss Alice Miles, Miss Arta Williams (daughter of the colonel of the 21st, and a co-sponsor. I'M FOR WOMAN SUFFRAGE

For many reasons—There are two special reasons: First reason: If it had not been for woman I'd never got here. Second reason: If it were not for woman I could not stay here. If I depended upon men only in my business, I would starve. Only one plan to save in ten is made for men through the will or wish of man. Man's selfishness, his greed, his ambition and his desire for power, are all directed to children and the home is the place that raises the means (and sometimes by great sacrifice) to give wide more complete education for the children, to cultivate natural talents—that would otherwise be dormant, and raises the standard of civilization. Think of woman's influence in this one direction—MOTHERS think of the thousands of other ways that woman's sense of duty—and willingness to make sacrifices, does for the home, the church, the state, the arts, comforts and advancement of mankind.

Now, surely, it must be fertile brains, you, and wisdom must be dominant in their much decried and belittled professions, else why are they the dominant factors in the progress of all that is worth while? You know the word "ade"—"When a woman will, she will and you may depend on it. But when she won't, she won't, and there's an end to it." Now, boys, she WON'T let up her fight for woman suffrage, and we may as well be nice and surrender. It's nothing anyway, for they will have it if it takes a thousand years, and just think of the time that will be saved if we give in at once, think of the buttons that can be sewed on, and the apples that can be cheated ourselves out of, besides various other temptations "goodies" they are unable to supply while on the warpath. Yes, for the "love of Mike" let them have it, and make it unanimous, so they won't be looking around after they get it for the scalp of those that have outlasted them.—Adv.
