# GERMANS TAKE LUGA CAPTURE 75 RUSSIAN SOLDIERS

## British Subjects Leave Petrograd; Bolsheviks Enrolling Men, Issuing Arms, Digging Trenches and Preparing Best They Can for Defence of City; Soldiers Refuse Flatly to Fight But Civilian Peasants Recruited.

LONDON, Eng., Feb. 27.—Luga, half way between Pskov and Petrograd, has been occupied by the Germans, according to an uncorroborated report from Petrograd. Luga is about 75 miles from the capital.

A number of British subjects have left Petrograd for home during the past week. The embassies still remain there.

The Bolsheviks continue extremely busy enrolling men, gathering and shipping arms and supplies and in other defence activities. A dispatch from Moscow says that 70,000 revolutionary troops have been sent from Moscow toward Luga.

Special dispatches from Petrograd suggest that the city is being held by the Bolsheviks. There is a great deal of trouble in occupying the city with trained troops. Russian soldiers are being recruited in the city and are being sent to the front.

# NEGRO SOLDIERS GET RESERVE FROM DEATH FROM DEATH

President Wilson Grants Indefinite Delay In Executing Condemned Men. ASKS RECORD OF COURT MARTIAL

Will Review Cases Of 30 Others Of 24th Infantry Tried For Houston Riot.

WASHINGTON, D. C., Feb. 27.—An indefinite respite has been granted five negro soldiers of the 24th infantry, sentenced by court martial to be hanged for participation in the Houston riots. The number and character of appeals for clemency reaching the president from clergymen and negro organizations caused the respite.

The president has notified the war department that he will suspend action on the cases until he has received the record of the court martial proceedings in the cases of 30 other members of the regiment now being tried at San Antonio. Thirteen of the rioters already have been hanged and a large number are serving heavy prison terms.

26 NEGRO SOLDIERS ARE HELD AS RESULT OF RIOT. Little Rock, Ark., Feb. 27.—As a result of a riot in a mess hall at Camp Pike yesterday, 26 negro soldiers of the 512th engineer service battalion are in the guard house awaiting court martial. A white noncommissioned officer suffered a scalp wound.

According to division headquarters, the trouble began when a negro refused to obey the order of a white sergeant to return to his place in line while breakfast was being issued. The negro, flourishing a razor, climbed over the counter after the sergeant. White corporals and sergeants came to the rescue and a free for all fight followed with the air filled with discharges. A flying wedge of noncommissioned officers dragged the negro leaders out of the building and ended an affair that was fast assuming serious proportions.

# HEAVY CASUALTIES OF STUDENT AVIATORS IS CAUSE OF DECISION

CONGESTION AT PRESENT FIELDS TOO GREAT; COLLISIONS FREQUENT

Fatalities at Fort Worth and Houston Cause War Department to Decide That Training Areas Must Be Expanded Immediately; Other Flying Fields May Be Established to Thin Out Present Large Camps.

WASHINGTON, D. C., Feb. 27.—Immediate steps to reduce the number of collisions by student aviators by spreading out the training areas are about to be taken by the war department.

This is taken to mean, in the absence of a definite announcement, that other flying stations may be established.

Many Killed in Texas. Many aviation instructors and cadet aviators have been killed and others have been injured in flights, particularly at Fort Worth and Houston, Texas and Memphis, Tenn. Collisions in the air have been very frequent, generally in leaving or returning to the ground. The war department has great concern of airplanes at their fields. Otherwise, rising or landing would not enter so much.

Hundreds of Planes in Air. Considering the fact that hundreds of airplanes are in the air every day at these stations, the war department does not consider the accident rate reasonable, especially since the student aviators now reaching the stage in their training when independent flights have to be taken and must rely on their own initiative in conducting their flights.

Nevertheless, the increasing number of accidents indicates to the war department the desirability of spreading out the camps so that fewer planes may rise from any one field.

# Liquor Bills Being Rushed

Measures to Make Texas "Dry" Monopolize Extra Session at Austin.

Austin, Texas, Feb. 27.—In both the senate and the house anti-liquor measures are monopolizing the attention of Texas legislators, anti-liquor bills and resolutions offered on the first day of the extra session being followed today by others.

Citizens may expect to see a special session of the legislature which will take liquor from the vicinity of army camps in Texas, to be carried out quickly, it was indicated by legislators today. This, and resolutions providing for ratification of the federal prohibition amendment appear to have the right of way.

Prohibition members of the house at a caucus last night decided to support governor Hobby's proposal for a ten-mile "dry" zone around all army camps in Texas and also in order to make the same law applicable to the entire state. The larger Texas cities that would not be affected by the ten-mile law because they have no army camps to apply the prohibitions measure to. If the ten-mile bill is passed the caucus pledged these present thereafter to work for the state wide statutory prohibition. Seventy five representatives attended the caucus.

Invited to Address Legislature. A resolution inviting U. S. senator Morris Sheppard to address the legislature on the federal amendment resolution was referred to the committee on liquor traffic. As first offered the resolution invited only Mr. Bailey, but on the committee's report the invitation was made to include Senator Sheppard and the addition of senator Sheppard's name brought much applause.

# BOMBS FOUND AT SHIPYARDS

Guard Discovers It, Throws It Away Quickly and an Explosion Follows.

Newburgh, N. Y., Feb. 27.—An attempt to blow up machinery in the plant of the Newburgh Shipyards company here today was frustrated, but only after a guard had picked up a bomb and hurled it out of danger. The bomb exploded and did some damage, but not enough to delay work at the plant.

The bomb was placed under a compressor machine in one of the buildings straightened up, struck the guard over the head with a club, and got away. Hogan was dazed, but on recovery he saw the bomb and started his search which resulted in discovering a suspicious looking object under the machinery. Hogan picked it up and threw it away. The bomb exploded when it struck, leaving the floor and breaking through the ceiling.

The attempt to damage the machinery evidently was intended to delay construction work on the shipyard's emergency fleet corporation, which is about to begin.

Signals From Florizel; Search For Survivors. St. Johns, N. F., Feb. 27.—Rescue steamers were ordered today to investigate a report received here that signals from the Red Cross line Florizel, wrecked Sunday morning near Cape Race, indicated that persons were alive on the vessel.

Although agents of Bowring and company, owners of the line, expressed doubt that any survivors remained aboard the ship after 44 persons were taken off Monday and brought here, the captain of the steamer Terra Nova, which was near the scene, was ordered by wireless to make an immediate search of the wreckage. Earlier reports had stated that the Florida was running aground and that it was difficult for small boats to reach her.

All told, there were 135 persons on the Florida when she sailed from here Saturday night for Halifax and New York. The vessel was half submerged and was in a dangerous position when the 44 survivors were taken off.

Belgium Won't Answer Germany's Brutal and Offensive Proposal for The Discussion of Separate Peace

PARIS, France, Feb. 27.—A Belgian diplomatic official told the Associated Press yesterday that Belgium probably will not design to respond to German chancellor von Hertling's brutal and undiplomatic proposal in his Reichstag speech Monday, that Belgium open negotiations with Germany for peace. The Belgian official said:

"Dignified silence is the best reply to the undignified and thoroughly German proposal. This is the second time that Germany has offered openly a separate peace to Belgium. Once before, in 1914, after the fall of Liege, a similar proposal met with an emphatic rebuff from the Belgian government, and if any reply is warranted by the Belgian government now it will be equally emphatic. It is Belgium's unalterable decision to remain staunch to its allies, friends and protectors."

Hypocritical Speech. The French press generally considers chancellor von Hertling's speech as simply a continuation of Germany's efforts to create differences between the entente allies.

Von Hertling talks hypocritically about peace," says the Journal. "The speech is a monument of hypocrisy." La Liberté explains.

# German Socialists Lack Nerve; Against Kaiser, Need Leaders; A Revolution Is Not Probable

By IGNATIUS KINAST, (A German Socialist who just returned to Zurich after a six months' travel throughout Germany. This is Mr. Kinast's seventh article.)

WILL the German Socialist movement progress beyond the "talking stage" and become a serious menace to the reign of our rulers? you ask.

Every German Socialist I have interviewed assured me that they had already gone considerably beyond the "talking stage" and that the next few months would bring about wonderful revelations in the German character. FOR MY PART, I LEFT GERMANY UNCONVINCED THAT THE GERMAN SOCIALISTS WOULD BECOME A SERIOUS MENACE TO THE REIGN OF OUR RULERS.
