

WORK OF FIGHT, IS U. S. ORDER

All Men of Draft Age Must Get Into Useful Occupations by July 1.

(Continued from page 1)

Temporary Absence, One Week.

Temporary absence from regular employment not to exceed one week, unless such temporary absence are habitual and frequent.

Modification of Order.

The regulation throws a further emphasis around men not actually employed by providing that where there are compelling domestic circumstances that would not permit employment by the employer without disproportionate hardship on his dependents or where a change from non-useful to useful employment or occupation would necessitate a removal of the registrant or his family, local boards may give consideration to the circumstances.

There is a popular demand for occupation by men, but no one is to be drafted until he has secured a useful occupation.

Steps to prevent idleness and non-effective occupation will be welcomed by our people.

Most give the idlers and men not effectively employed the choice between military service and effective employment.

Waste Nation Must Be An Army.

This is not a matter of military equipment, it is a matter of military organization.

Most Come Up The Rank.

It is enough to ask what would

Death Of Sgt. Brown Lays His Wife Low

Soldier Formerly At Fort Bliss, and Married Here, Succumbs to Wounds.

Mrs. Walter L. Brown, 2107 River street, who was reported in a serious condition Wednesday night, as the result of shock following the receipt of the news her husband had died in France, was mourning as well as could be expected Thursday morning and it was believed by the attending physician that she would recover.

Mrs. Brown suffered severe mental shock Wednesday night when she received word that her husband, Walter L. Brown, first sergeant of an infantry regiment in France, had died of wounds received in action. Mrs. Brown was just contemplating from a serious operation.

Married at War's Outbreak.

Sgt. Brown was well known in El Paso, stationed at Fort Bliss for about four years. He and Miss May Fisher were married six days after war was declared on Germany by the United States and June 1 last the sergeant was ordered to France.

Mrs. Brown resides with her mother, Mrs. Frank Fisher, at the River street address. Mrs. Fisher said Thursday morning her daughter was leaving so well and hopes were held that she would recover.

Hispanic and Orphan.

Walter L. Brown was born in Missouri 20 years ago and had been in the army for about ten years. He came to this point in 1914. He received his first commission as sergeant in April, 1917, and was promoted to first sergeant in April, 1918. He was discharged in April, 1919, and has since been in the employ of the El Paso Electric Co.

He happened to be in the nation when his hands to effective work. We must make ourselves effective. We must organize for the future. We must have our weapons ready for the army and immediately close up the ranks of industry behind the gap with an accelerating production of every useful thing in a necessary measure.

How is this to be done? The answer is plain. The first step is to get the nation into a state of readiness for war. This is to be done by the mobilization of men in the field of industrial production. Idleness or half-effective employment and this idleness and waste, wasted effort, is not to be tolerated.

We are now considering, however, offers great possibilities in improvement of the draft. Consideration of the selective service law, we see a principal cause of desertion of the call to military service—desertion, and the order number assigned by lot. The conscription themselves fall into two conspicuous categories—desertion and industrial employment. One respects domestic relations, the other the economic interests of the nation. Between the two there is an inevitable conflict.

One of the unanswerable criticisms of the draft has been that it takes men from the farms and from all other employment, and marches them past crowds of idlers and leeches away to the army. The remedy is industrial production, which has already been suggested. The conscription with other grounds for exemption and to require that any man pleading exemption should be contributing effectively to the industrial welfare of the nation.

The regulation itself makes plain the determination of the war department. The great organization of local and district boards, which has already accomplished a notable work may be relied upon to catch the spirit of the government and give needed assistance with speed and efficiency in the fields of useful endeavor or into the other direction of military strength.

Notice—I will not be responsible for goods bought in my name unless I give the order in person. I give this notice for the reason that my credit has been misused in this way in several El Paso stores.

Just try this. It's the only one with PERLIN. A Liquid Digestive Laxative. Pleasant to take.

What is "Spring Fever"? It is simply low vitality, a lack of energy, caused by impure blood, indigestion, and general debility. Restore vitality and energy by Purifying the Blood, and you can soon feel its strengthening, invigorating effect.

Governors To Sell Clip Of Wilson Sheep

President Asks That Wool of White House Sheep Be Auctioned for Red Cross.

St. Louis, Mo., May 22.—President and Mrs. Wilson have presented to the American Red Cross the shearing from the white house sheep, with the understanding that a part of the wool will be auctioned in each state in the union before the close of the second war fund campaign and the proceeds placed to the credit of that fund.

The president and Mrs. Wilson suggested that the governors of each state having the auction of wool from the white house sheep, with the understanding that a part of the wool will be auctioned in each state in the union before the close of the second war fund campaign and the proceeds placed to the credit of that fund.

FRATERNITIS

Extra Session of Legislature Is Devoting First Work to War Bills.

Phoenix, Ariz., May 22.—Fraternitis is the keynote of the special session of the legislature. A number of members of the radical wing jumped in with support for measures of a sort they opposed at the regular session.

Probably the most important action was the unanimous vote giving Mrs. McNellis bill in the house demanding that the state officials help in riding the state of J. W. W. Even a more interesting and more important measure in the senate however, by president Charles making a motion to amend and defining the word, "Fraternitis."

Italy's Naval Hero Prisoner Of The Enemy

Pellegrini, Who Blew Up Battleship, Captured By Austrians.

Washington, D. C., May 22.—Definite announcement that commander Pellegrini and his men who torpedoed an Austrian battleship in the harbor of Pola May 14 were taken prisoners was contained in a cable dispatch to the Italian embassy today from Rome.

The details of the recent Italian naval exploit at Pola show that it was one of the most audacious feats of the war, worthy to rank with the British at Zeebrugge and the German at Antwerp.

Pellegrini was captured by Lieut. Commander Pellegrini, who adopted unusual means of warfare in attacking the harbor. To direct attention he took service in the trenches on the Ditch and when he was ready to start work on that he was going to visit his friends. He was not captured by another officer and was not a sailor.

The party was captured by destroyers and arrived at Pola at 2 o'clock in the morning. The center of the harbor was all over the harbor with a long line of ships. The harbor was all over the harbor with a long line of ships. The harbor was all over the harbor with a long line of ships.
