To Discharge All Temporary Army Officers

Orders Received By Gen. Hornbrook; Regular Officers to Remain.

Army officers holding temporary commissions and who were not regular officers are to be discharged as rapidly as possible, with a provision for application for regular commissions, it was announced in a telegram to Brig. Gen. J. J. Hornbrook, El Paso district commander, from southern department headquarters Wednesday.

The telegram transmitted one received at the department headquarters from Washington. It follows:

To Comply Lists.
Officers holding temporary commissions are to be discharged as rapidly as interests of the service permit, those desiring immediate and complete release to be discharged first, followed by those desiring prompt release and commission in reserve corps, those desiring appointment in the regular army and considered fit for such appointment to be the last discharged. Pending receipt of authority to order such discharges, you are authorized and directed to adjust assignments and duties of officers of line and staff under your command as to make available for discharge at once the maximum number, order in which individuals in each class to be discharged left to your judgment, full instructions being mailed. You will forward to the headquarters at once three lists of officers, one each of classes mentioned.

Gen. Hornbrook at once issued orders to all organization commanders in the El Paso district to compile the lists in question.

Kill Rats and Mice and Save Food

In these days when the high cost of living pinches nearly every man, no waste should be overlooked. One of the most nagging and most easily prevented, is the destruction of food by rats and mice. A single rat will destroy a hundred dollars' worth of food and property in a single night, and a single mouse will destroy \$200,000,000 of the value of foodstuffs destroyed annually by these pests. Exterminate them with **Cuticura Soap**. It kills them, saves this enormous loss of food, a small box of **Cuticura Soap** costs only a few cents and is usually enough to completely rid the house of rats and mice, also effective against cockroaches and waterbugs.—Adv.

England's War Losses Exceed Three Millions

Casualties in All Theaters, 3,049,991; MacPherson Gives Total.

London, Eng., Nov. 29.—James I. MacPherson, parliamentary secretary for the war office, yesterday announced in the house of commons that British casualties during the war, on all fronts, numbered 3,049,991. The officers killed, wounded or missing aggregated 142,854 and the men 2,907,137. The total loss in the fighting on the Franco-Belgian front were 2,719,542.

Danville Campaign Losses.
The Danville expedition cost the British 119,779 casualties. Of this number, 1785 officers were killed or died and 21,737 others. The wounded were 3010 officers and 18,508 others. The missing, including prisoners, were 258 officers and 7431 others.

On Saloniki Front.
On the Saloniki front, the losses were 27,318. Of these the killed were 200 officers and 2330 others; the wounded, 181 officers and 18,858 others; the missing, 114 officers and 2718 others.

150 Ships in Program.
The new three year building program, approved by the president, calls for construction of ten superdreadnaughts and six battle cruisers, besides 150 smaller craft.

In a league of nations, the secretary of the United States must provide a large part of a police force, this being made up with respect to the tonnage, shore line and commerce of the member nations. Because of these factors, Mr. Daniels said, he believed this country, as the police force in the world, always would have to contribute a large part of the sea police force.

New Lines Will Govern Future War Bond Sales

Bonds To Have Short Maturities, Be Marketed More Continuously.

Washington, D. C., Nov. 29.—Government war bond selling in the future will be along distinctly new lines. Bonds will have short maturities and be marketed more continuously.

The 4-1-4 percent interest rate, borne by the last two issues of Liberty loans, may be changed, depending on other terms of the securities.

Amounts of future issues, interest rates and time of marketing cannot be determined definitely for another week, but it is longer than expected. It still is expected by spring.

National managers of the war savings movement conferred today over plans for further consolidating war savings and Liberty loan committees in each locality, in preparation for the next issue of bonds.

Total subscriptions to the fourth Liberty loan were \$4,848,000, the treasury department announced Tuesday after final tabulations had been completed. The over subscription of \$189,847,000 was 14.6 percent. Every federal reserve district exceeded its allotted quota.

This makes the fourth Liberty loan by far the greatest war loan ever floated by this or any other government.

Including the four Liberty loans, all of which were oversubscribed, and war savings, the nation has raised \$17,885,900,000 for the war, not including oversubscriptions, which were not accepted.

Reports by districts arranged in order of their oversubscription percentages, are as follows:
