

THE POPULAR

Out-of-town people do trade at home when they buy at the Popular what they can not buy in their home town.

Law Is Strict Against Health Cards To Women

Considerable excitement attended the publication in The Herald Thursday that certain El Paso doctors had been hearing certificates of health to women who are giving their trade among the men of El Paso, and many were the rumors as to what the grand jury or the officials of the county and the El Paso County Medical society would do.

The Chiropractic Society To Be Made Permanent

The Chiropractic society of El Paso is to become a permanent organization. It was born through the efforts of Dr. Byron L. Black to secure his release from prison, where he is now serving a 30 day sentence on charges of practicing medicine without a license.

Trade at home. Buying from Foreign Mail Order Houses will not help El Paso. The Popular belongs to El Paso.

Who's Responsible?

"He is not a medicine and I believe that if all our city physicians are as intelligent and fair minded as the few here who know it is high time that they were calling a halt on this thing. Let them find the guilty ones or their organization and throw them in jail before the whole medical bunch is criticised for being a conspiracy to ruin this young man."

Baby Suffering for Treatment.

"I want to thank The Herald for the stand it has taken for Dr. Black, and to the grand jury who do not believe a man or woman should be held responsible for what he or she does in the line of their profession, but as the Christian Scientist, physician, nurse or other osteopath practices their medicine."

Prisoner Man in Jail.

"Dr. Black has done more for me than any other man in the world," writes Mrs. Little Bobo, of 918 East Missouri street. "I was in jail for 30 days and I had suffered for years with my back and many other troubles too numerous to mention. I am glad to tell you that I do not suffer with my back any more since taking his adjustment. I have been examined by Colgate, Ohio, Sherman, Texas, and El Paso, and the case pronounced hopeless. All examinations were made by the medical profession. I am at this time almost free from all my ailments."

Treated Him Free.

"Three months ago I entered the office of Dr. Black for the purpose of being examined, which was cordially done, and my vertebrae were adjusted. I was not to be cross-questioned about my trouble, as the so-called 'experts' would have done. I found that I was right. But, instead, I was deliberately told of my disease and its location and how it could be treated. He did not say that he could cure me in a specified time, as my case is one that takes a definite time before I can be cured. But I can justly say that he has cured other ailments I possessed, such as kidney trouble, which three months ago kept me awake at night and caused me a great deal of pain while at work and also caused painful sore eyes, which have improved to such an extent as to be noticed by my acquaintances."

A Doctor's Declaration.

"In the past several years there was a great deal of talk about the condition of a man who thought or did things differently from the old line of thought," said Dr. Robert H. Stewart to The Herald.

Socrates was killed because his advance teaching broke the law.

"Aristotle was condemned and all of the great religious leaders have suffered in amount of having the law."

Byron Black has been convicted of practicing medicine and we, as citizens of El Paso, are ashamed of the fact that a man who has been doing so much good for the community has to suffer on account of a very small minority who are responsible for putting him where he is.

The boys were given slips which are to be signed by their parents stating whether the parents are willing for the boys to go to the summer camp.

Curved Mexican Woman

"I am very much pleased at your attitude towards Dr. Byron L. Black and his persecution," said Mrs. Frances Wattergton, of 1209 East Fourth street. "I had eye trouble and rheumatism and he cured me. He is not only a good chiropractor but also a kind man also. I took to him a Mexican woman who had brain trouble for two years and he cured her after many others had failed and when she said, 'I can't come any more because I have no money,' he said, 'I want you to come without money; you can pay when you can.'"
