

Secrets Of The Movies Revealed

Q. What long photograph was the first to have the distinction of having an original musical score written for it by an opera composer?
A. A European photograph, "The Mistle," the longest of its time, was accompanied by music written by the composer of the opera "Hansel and Gretel." This picture was a failure in this country because it was considered by censors and because the immense orchestra, organ and vocal effects were not obtainable.
Q. How old was General Nagel when he graduated from college where he was born and educated and what is his height?
A. Conrad Nagel, son of a composer and dean of Highland Park college in Des Moines, Ia., was graduated and received his degree from that college at the age of eighteen. General was born in Kokuk, Ia., has light colored hair and blue eyes and is six feet tall. He was a leader in athletics in college and played his first part on the stage as an athlete. Nagel is twenty-four years old and is married to a non-professional.
Q. What was James Hester?
A. James Hester, now leading man for Dorothy Gish, was a captain in the Royal Flying Corps and an instructor in this country during the war. He was a "buddy" of Vernon Castle, who was killed in a fall in an engine in Texas. Hester makes one of his swiftest trainings in Dorothy Gish's new picture "Up in the air with Jane."
Q. To whom is Hale Hamilton married and who was his former wife?
A. Hale Hamilton was married to Grace LaRue shortly after his divorce from his first wife, Myrtle Tennahill.
Q. What color are Ethel Clayton's eyes and hair?
A. Ethel has red gold hair and gray eyes, a wonderful combination for a purely photographic standpoint. Copyright, 1920, Thompson Feature Service.
What difference would it make to the makers of a blonde movie actress if she were to appear in a scene with several brunettes? This unusually interesting question concerning makeup will be answered in this department in the next issue.

Mountain Goat Causes Discovery Of A Mine

Stewart, B. C. Dec. 18.—A mountain goat recently was responsible for the discovery of what is believed to be one of the most valuable mines in British Columbia.
The goat was found in the mountain range south of the Grand Trunk Pacific Railway 20 miles from Stewart. It was on this that its discovery caused a sensation and prospectors looked to the region and spent months in fruitless efforts to locate the mine.
A film was located in mountain goats high above the timber line. He had fallen on a steep cliff when it suddenly came out on a glacier and stood in full view against the sky on a plateau of ice. Finn's rifle cracked and the goat fell dead down a steep precipice and rolled several hundred feet. Its body pitched up

The Greatest Amusement of All Time

Is the accumulation of wealth. It never palls, and from the lifting of the curtain—putting aside the first dollar—to the end of the game, it is all absorbing. Nothing else quite equals the thrill of watching money grow. One small dollar, if invested at 8% compounded semi-annually, and left alone for 100 years, would aggregate \$2,550.75. Come in and let us show you what \$50 per month for 10 years will do if invested in our 8% First Mortgage Real Estate Notes. We can furnish these Notes in denominations to suit the needs of the individual investor. They are secured by first lien on improved El Paso real estate, and are further backed by our own judgment and reputation. We have handled millions of these securities with not one dollar of loss to a client.
