### Negro Superstitions.

Among the superstitions of southern negroes are those which make it a most unfavorable thing to see a black cat crossing one's path, or to turn back without making a "cross" in the street, road or path. The belief in witches is perhaps more general than any other, and an ex-congressman tells of a case in this section within the past 30 years in which a witch was killed in a very strange fashion. A negro called on a witch doctor, a very old woman, and was told that the cause of the trouble was a witch and that she must be killed; that the only way possible to thus put her out of the way was to go into the woods and cut the figure of a person on the bark of a big pine tree, mark a cross on the body and shoot this with a silver bullet, the cross representing the witch's heart. The shooting was duly done in the presence of quite a number of persons. This occurred in the northern part of this county. Cedar balls are carried in the pockets as a protection against witches. The negro belief in these is certainly fully matched by that of white men who carry in their pockets buckeyes and Irish potatoes, or who wear thick iron rings on their fingers as a preventive of rheumatism.—Cor. Washington Star.

Thanking you for this favor, we remain,

Mrs. Myrtle Hobbs,  
Miss Winnie Merriman,  
Committee.

All are invited to attend these services.

### Popular Bond Loan.

The republican members of the Ways and Means Committee have agreed upon a plan of raising revenue in case of need to carry on a war with Spain. The plan will raise more than \$100,000,000 additional revenue annually, and be thus distributed: Beer, \$35,000,000; a bank stamp tax, \$30,000,000; coffee and tea, \$28,000,000; tobacco \$15,000,000. The committee also agreed to authorize the issuing of \$500,000,000 bonds to be offered for sale at all postoffices in the United States, in amounts of \$50 each, making a great popular loan to be absorbed by the people. To cover emergencies, the secretary of the treasury will be authorized to issue Treasury certificates.

### Normal News.

NEMO.

The Crescents gave a Jewish programme on Friday evening, in which we learned of the characteristics of the Jew, which never fail them, and of the present condition of those forsaken and scattered people.

The orchestra furnished music which was highly appreciated, also the singing of Mrs. Marvin, Miss Stearns and Mr. Hinman.

The visit of Dr. Winship, of Boston was a notable event at the normal on Wednesday. His morning talk at the opening exercises was highly appreciated by all, but his afternoon lecture was so full of thought and delivered with such earnestness that doubtless many of his utterances will never be forgotten by his audience. It was indeed a very remarkable lecture.

Most of the program for the past ten weeks continues without any change. The methods work in geography and arithmetic has been completed and is succeeded by that in science. There is also a class in methods in history yet to be formed.

Mrs. Hart, of Tacoma, went home on Tuesday night. She expects to return in a couple of weeks.

Several changes have recently been made in the training school.

The seniors are considerably occupied with the preparation of their graduating theses. It is not yet known who will be chosen to deliver on commencement day.

Newspaper subscriptions are infallible tests of men's honesty. They will sooner or later discover the man. If he is dishonest he will attempt to cheat the printer some way; says he has paid the printer which he has not; declares he has a receipt somewhere or sent money and it was lost in the mail, or will take the paper and not pay for it on the ground that he did not subscribe for it, or moved off leaving it to come to the office he left.

Thousands of professed Christians are dishonest in this particular at least, and the printer's book will tell some fearful tales in the final judgment.—Ex.

### Deafness Cannot Be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a ringing sound or imperfect hearing, and when it is entirely closed, deafness is the result, and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh. Send for circulars: free.
