Office south side of Fourth street, between  
Pearl and Main streets, rear of Geddis  
clock.

ROBERT A. TURNER, EDITOR

Thanks!

The Seattle Times deserves the everlasting gratitude of the people of this city for its promptness in having war bulletins posted in front of Dr. Perry's drug store every day. The messages come to our people absolutely free and are read by hundreds. The Times is a live, wide-a-woke, progressive paper.

WAR has been declared.

THE President's message recommending a declaration of war was presented to Congress Monday.

POPULISM is a protest against tyranny. Its object is to pulverize the plutocrats and enthrone the people.

LET America free Cuba and let it be done with greenbacks, then we will not be guilty of freeing ourselves.

BONDS mean slavery. We have too much of both now—that is what has driven millions to the death wall.

THE DAWN is glad to say that every populist member of the U. S. Senate voted for the independence of Cuba.

DON'T enslave the poor, downtrodden American taxpayers by issuing bonds to give freedom to Cuba—issue greenbacks.

GIVE Cuba freedom by an issuing of greenbacks—free from any entangling alliances with the money power of Wall street.

IT was the greenback that saved this nation in the dark days of the sixties; let the greenbacks avenge the loss of the Maine and free Cuba.

IT took the house just one minute and forty-one seconds to pass the declaration of war after the bill was reported. It was passed Apr. 25, at 1.19 p. m.

IT seems to us that the paramount issue to-day is: Shall reformers stop fighting among themselves, and give their individual attention to the enemy.

THE war to help Cuba is an uprising of the patriotic liberty-loving people of the United States; therefore it is fit that it be carried by the people's money—greenbacks.—Chicago Sentinel.

THE campaign is now coming on and it is high time that the union committees get together and act as a Moses to lead us out of the wilderness of doubt and fear.—fear that we shall have no opposition whatever.

THE career of the treacherous and bloodthirsty Spaniards in the western hemisphere is about to be closed. When the American flag is planted in Havana it will mean the end of four centuries of Spanish tyranny, with its accompanying horrors of starvation, murder, torture, rapine and carnage. Yes, war "is a terrible thing,"—but it's a great civilizer just the same.

THE M. E. Church still continues in the work of revival. Rev. E. H. Todd of Montezano has arrived and is assisting Rev. Marvin. Mr Todd will preach next Sunday, morning and evening, also at 4 in the afternoon to children. Services every evening of the week at 8 p. m.

IN CASE OF WAR

War seems inevitable at this writing. We do not see how it can be avoided.

War, from a business standpoint, means better times.

Why? It will call into the field probably 300,000 to 400,000 men. Ninety per cent of these men will leave positions. Their vacancies will be filled up from the present unemployed.

It will take at least 300,000 to 400,000 extra men to feed, clothe, equip and take care of the army.

This gives employment to nearly a million men.

This means the use of more money.

In addition to the amount put out this way, will be the other expenditures of the government.

Which means still more money. More money always means better times.

Therefore, we predict better times at once, and booming times at once, and booming times next year.

Now is a good time to make investments.

Now is a good time to get in line for the good times coming.

Paste this in your hat and see whether the old Greenbacker is right or not.—Sentinel, Chicago.

How Unpatriotic.

What cunning "fowls" these money changers be! United States bonds, which stood at the very summit of all investments sixty days ago, have suddenly lost their "caste" and fallen many points—at least ten all told within three months—and why? Solely because the bondholder believes that there will be an enormous issue by the American government, bearing at least three per cent interest, which is a high rate for European investors when the purchase be "non-taxable property," with the fullest expectation that they will buy new bonds at par.

Why not let Uncle Sam issue his own obligations to his own people in the nature of paper money—"promises to pay"—based on the "coin of the nation," precisely as the bonds now outstanding are based—and pay his bills as he goes?

Is there a human being so weak as to undertake to say that Uncle Sam, with his seventy-two millions of people, his untold wealth as a nation, his resources, vaster than any other nation upon the face of the earth, cannot "lick a standstill" every piratical Spaniard, who sails the sea, or dwells in the Western Hemisphere, on a money like that with which he saved the union, when the nation was only half as large—when her resources were only a third as great and when more than one-third of that population, wealth and resources was the "enemy" in the balance?

If there be a sufficient membership of the American congress to vote a bond in this contest, he should be tarred and feathered—he should be ostracized from civilized society—he should be declared to be a "worse enemy" of America than the Spaniard himself!

"Let there be NO bond issue"—should be the cry of the American people from ocean to ocean—from great lakes to gulf—and when once that "cry" goes up, no money changer should be heard in the land to oppose it.—Seattle Times.

Why not use the wealth and resources of the country as a basis for the currency. It certainly would be safer because the wealth and resources is much greater than the coin, therefore much better.

A Gross Insult.

On the 13th of February, one Hartman, a silver republican representative of Montana, who owes his election to the votes of the populists, said in a speech in the house:

"It is true that the populist party has had a number of different remedies for the situation, and I am advised that they are about

to add three additional planks to their platform. One of them is to make a cross between the lightning bug and the honey bee for the purpose of enabling the bee to work at night. Another one is that of breeding the centipede with the hog for the purpose of having a hundred hams for each animal. And I am also told that they have the further visionary scheme of budding strawberry plants into milk-weeds, so that everybody can have strawberries and cream from the same plant."

If Hartman is able to be re-elected, we shall be greatly surprised. He is an out and out scrub and should be defeated at the polls and taught a lesson that he will not soon forget. The populists will add at least three words to their platform in his district and they will carry conviction to his little dwarfed and befuddled head. The three words may be, "Hartman, stay home."

Kodaks at Pautzkes. ap26

LATEST WAR NEWS

HAVANA, April 27.—The Spanish coasting steamer Cosme Herrera, which ran the blockade, it appears, is not the only vessel which has reached this port since the blockade was established. The arrival of the steamer Aviles from Nueva Vista is also reported. Dispatches from Matanzas say an American torpedo boat has twice entered the Port of Matanzas. The second time six shots were at her and she retired. The Italian cruiser Giovanni Beissan arrived here Saturday. The Spanish gunboat Ligera, it is announced here, encountered near Cardenas, not far from Matanzas, an American torpedo boat destroyer, which opened fire on the Spanish warship. The gunboat, it is added, answered with eleven shots. It is claimed that the American boat destroyer was damaged and retreated.

The Spanish steamer Montserrat, from Cadiz for Havana, has arrived safely, it is announced, at Cienfuegos. She had on board \$2,000,000, in silver and a quantity of ammunition.

The Spanish captured the American barque Saranac loaded with coal.

Card of Thanks.

To the kind friends who performed the last sad offices for my deceased wife, I desire to return my heartfelt thanks and express my sincere appreciation of the kindness done in the hour of distress.

JAMES CLARK.

SCROFULA.

One of America's most famous physicians says: "Scrofula is external consumption." Scrofulous children are often beautiful children, but they lack nerve force, strong bones, stout muscles and power to resist disease. For delicate children there is no remedy equal to

Scott's Emulsion

of Cod-liver Oil with Hypophosphites of Lime and Soda. It fills out the skin by putting good flesh beneath it. It makes the cheeks red by making rich blood. It creates an appetite for food and gives the body power enough to digest it. Be sure you get SCOTT'S Emulsion.

50c. and \$1.00; all druggists. SCOTT & BOWNE, Chemists, New York.

Mrs. Lease

Will speak at the Armory in this on Monday, May 2nd, at 2 and 7:30 o'clock p. m. She comes under the auspices of the W. N. G.

Have your pictures framed at Scott & Latimer's, in the latest style. Prices reasonable.

If you want to see the finest line of shoes, all sizes, colors and shapes—go to Flynn's old stand.

If you want to reach the people, plant your advertisements in THE DAWN. It brings good returns.

Nanum.

OLD GREEN HORN.

We have been debating with ourselves whether it is any use to write just now unless we write on the subject that is uppermost in everyone's mind—the subject of war with Spain. There are some, possibly many, who refuse to be interested in anything short of war news. The martial spirit is aroused in the people, and it seems as if nothing will satisfy them only a fight. War is no funny thing, it is more serious than most people think. Just ask some of the old veterans about this. When we were young we felt very warlike and enlisted expecting soon to be covered with glory. After four long weary years spent amid the din and smoke of the battle, we came home covered with rags. The glory we anticipated was an unknown quantity. People talk of a humane war, there can be no such thing. The whole thing is inhuman and barbarous, yet "there shall be war and rumors of war."

The general opinion is that when Spain learns that Dave Coon has taken the field fully equipped, she will back down. Dave has just become the proud possessor of a needle gun, which though of a somewhat antique pattern, yet is quite a formidable weapon. Dave has retired to the mountains, and is drilling daily, and incidentally sawing wood.

Jake Filer is just now putting on quite a lot of style. New buggy, new harness and a horse that is a regular "high stepper," making altogether quite a swell turnout.

Quite recently we happened to meet Bill Ross who was very much under the weather. It seems that his internal machinery has slipped a cog, and is not running just right. Bill spent the winter in Yakima and had to drink slough water. Think he inadvertently swallowed a nest of frog eggs, and they are beginning to hatch out, causing an uneasy feeling.

The good prices realized for dairy products are quite encouraging to those engaged in that business.

Quite a number of our citizens have been attending court in Ellensburg this week, all more or less interested in the water litigation. When will this vexing question be settled? It seems to us that it is causing the people a great deal of unnecessary trouble and expense. Why not call in the Pope and a few other dignitaries and have the matter arbitrated.

Jake Filer has been dealing extensively in farm machinery lately. He has traded for a binder, a wagon and buggy.

Ben Filer made quite a deal in cattle lately.

Gardening is now in order, and everybody and his wife are now busy putting in garden "sass."

Talk about coon hunting. Now Bunnie Rogers had the awfulest coon fight the other morning before breakfast you ever heard of. After a hard fought battle he succeeded in killing five coons. Who can beat that story and tell the truth? Bunnie now goes around singing: "As I walked out by the light of the moon,

I spied that very same old raccoon; A settin on a limb sleeping very sound

A coteh him up by the tail, I fling him on the ground.

He began to scratch and began to bite, I bugged his eye, I spilled his sight."

Jim Woodyard has for sometime been down painting Ellensburg. Just what color he is putting on, we can't say, but we presume it is red.

You just ought to see Charley Nasen's new hack. It is a "daisy" and Charley is justly proud of it. George Charlton has been appointed road supervisor. He is the right man in the right place. Such a man as George merits promotion. We always thought he would "get there."

Elder Cleveland held services at Fairview last Sabbath. He reports an interesting time.

Charley Cleveland thinks of engaging in the agency business in the near future.

Crops are all in, and the hardest part of the work is done. Irrigating will be the next in order. Ranchers are now out digging worms preparatory to going fishing.

Who was it had the temerity to insinuate that "Old Green Horn" was no farmer? Now when it comes to farming we are "way up." We are leading a kind of a utopian life on the farm, so we can truthfully say:

"A cabbage on our head and a turnip in our hand."

How will that do for poetry? We "kinder" dropped a hint re-

**NEW STORE!!**  
On Saturday April 2d we will open a First-Class Grocery on Pearl Street.  
We will be First in New Goods,  
First in Low Prices,  
First in Quality  
And Greatest in Quantity.  
**STEINMAN BROS.,**  
Cash Grocers.

cently that we would accept an office if the dear people insisted on it. How about it? We suppose we will have to get us some good clothes and get out and "lectioneer" a little. We are waiting to hear the vox populi.

We promised the readers of THE DAWN that we would tell them what we know about chickens, but deem it inexpedient these troublous times so will defer it for the present. Now what we know about anything could be made very plain in a few words. What we don't know would fill several large volumes.

Prof. Thomas is teaching school in the Thomas school house.

Miss Sprague is teaching at the Nanum school house. She has a full school we learn.

We noticed a "pop" who had been imbibing rather freely recently trying to "keep in the middle of the road." He wobbled so that he made a signal failure. Now we hope in the coming campaign the whole party will not wobble.

West Side Items.

KINK.

Did the wind ever blow so hard before?

If any one wants the latest news concerning the war, ask Joe Shields. He expects to enlist if his services are needed.

We have heard that N. J. Weaver is undecided whether to try his fortune at Copper river or the Olympian gold field. Better fight for Uncle Sam, Mr. Weaver.

Edward Stevens has been very sick, but is much improved at present writing.

Mr. McAlvester, who has recently moved here from the sound, is very sick.

Mrs. Mary Stevens is improving in health, and expects to take a trip to Hot Springs soon.

Another young soldier arrived at the home of Mr. and Mrs. Burt Pease the 25th, inst. He is said to be one of the quiet kind. What a pity some more of Uncle Sam's citizens are not of that class.

Rev. Baker preached at the Cove school house last Sunday. He preaches at the Packwood next Sunday.

We understand that H. B. Gregory has purchased property in town and will move there in the fall.

A magnificent example of what care of health will do for a man is presented in the life of Mr. Gladstone, the greatest statesman of the century. This "Grand Old Man" at eighty-six years of age, retained his intellectual vigor unabated, and had not lost the sinewy grip with which he fastened upon any subject that interested him.

Nearly every man has it in his power to live to a green old age like the great statesman of England. It is simply a matter of a little daily thought and regard for health. If, when a man feels that he is a little out of sorts, he will resort to the right remedy, he will never have to submit to the more serious ills of life. Most men, when they have a headache, feel drowsy during the day and their appetite falling off, pay little or no heed to these warnings. The inevitable result is some dangerous and possibly fatal malady. The doctor may call it consumption, malaria or biliousness, or perhaps some blood or skin disease. It makes but little difference. These troubles all have their inception in the same cause—improper and insufficient nourishment. Dr. Pierce's Golden Medical Discovery corrects that cause. It makes the appetite keen and hearty, the digestion perfect, the liver active and the blood pure and rich. It is the great blood-maker and flesh-builder. It facilitates the assimilation of the life-giving elements of the food, filling the blood with the nutriment that makes new and healthy flesh and nerve tissue. Medicine dealers sell it.

"Last summer," writes Miss Laura Pierce, of East Bethel, Conn., "I was going into consumption. Dr. Pierce's Golden Medical Discovery completely cured me." A man or woman who neglects constipation suffers from slow poisoning. Doctor Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

Normal News.

Nemo.

It is the unusual happenings that constitute news, hence it is always necessarily a varying quantity. When the machinery of the government is running smoothly, and a day occurs in which there are no suicides, no murders, no accidents, we say there is no news. Hence it is sometimes necessary to deal out something stale or philosophise. So it is in school news.

Dr. Winship's lecture left us thinking along the line of the importance of training in general, and has tended to disabuse our minds of the idea that the necessary training for our particular calling is the most beneficial training. By applying this principle, we can reach the conclusion that it is not necessary for the students or teacher to have practice in all the lines of work in the training school, and it even becomes a question as to whether it may not be better to have all the practice in one line.

The sickness of Miss Farnsworth prevented the Eclectics from having their literary meeting Friday evening, she being the president, and also having an important part in a farce which was to have been rendered. It was also her duty to install the new officers, and the postponement became a necessity.

The quotations given Tuesday morning by Misses Weaver, Weyer, Wallace Cunningham, Atteberry and Baker, and Messrs. Marsh and Shepardson, were all pertaining to birds, a kind of fore-runner of Bird Day, which is supposed to be observed Friday, May 6th, throughout the state.

Public School News.

Time.

Nos. 4 and 7 are banner rooms this week.

The 9th grade literature class had written review Monday.

A misunderstanding prevailed among the members of the literary society last Friday evening. The time was profitably spent, however, in a parliamentary drill.

The base ball team is still anxiously waiting for a match game.

The rhetorical programs in the past week in the assembly room are as follows: Friday Events—Anna Painter, Flora Flemming. Papers John Gilmour, Stella Voice, Fred Schnebly, Lida Olding, Witt Rogers. Recitations—Booth, Sherwood, Laura Welty, Abram Kreidel. Wednesday Events—Clara Steigler. Papers—Lillian Schnebly. Recitations—Mabel McDowell, Lena Emerson.

Following is the report for the week ending, Apr. 22, 1898:

Total no. enrolled, 428; days attendance, 18964; days absence, 110; av. no. belonging, 419.3; cases tardiness, 2; no visitors, 9.

Deafness Cannot Be Cured.

By local applications as they cannot reach only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rattling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh-Remedy for circulars; free.

F. J. CHENEY & CO., Toledo, O. Sold by druggists, 7c. Hall's Family Pills are the best. Scott & Latimer will frame your pictures in the most approved manner, and with the very finest moulding at prices that astonish the natives.
