HOW TO BUILD IT.

Numbers ways and plans for building the canal has been suggested. Some desire to have the entire sum of money invested in the enterprise, owned by eastern capitalist, others wish the people of the valley to hold a one-third interest in project and bear their portion of the expense. THE DAWN has a plan to suggest and it is this:

Allowing that it will cost \$600,000 to construct a ditch that will practically cover all the arid land in the valley, we would induce local capital to the extent of \$200,000 which will perhaps furnish all the necessary money to buy that will be absolutely necessary to pay out. This would leave \$400,000 to be subscribed in work and material, for all of which stock could be issued, and in this way hundreds of farmers could work out a perpetual water right when it would be impossible for them to raise the necessary cash to put in the ditch.

Many of our farmers say they will give one-half of their land for water for the other half. This land could be put on the market, sold to poor deserving men and the price paid in labor on the ditch. This plan seems to us to be a very feasible one.

What we wish is that the ditch be built, owned and operated by the people of Kittitas county. This can be done and why not do it?

THE high line ditch is a feasible proposition and the building of it means millions to Ellensburg and the county.

THERE is plenty of capital in Kittitas county to build a high line ditch if only the proper course is adopted. Let labor and capital be combined and the scheme will move off like clock work.

WE fear the completion of the middle ditch with all its complication, would very materially cripple the valley, covering as it would, only 23,000 acres, 14,000 of which has more or less water now, while a high line ditch would cover 65,000 acres, including every acre that the middle ditch would cover.

Thousands Sent Into Exile

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. Don't be an exile when Dr. King's New Discovery for

From Liberty.

You have not heard from us for some time, but we read with interest each copy of the DAWN and chip in now and then.

Thomas Bozarth unearthed a pretty little nugget weighing 19 ounces, worth in the neighborhood of \$300.

Roy Barry found one on the Sound weighing more and worth more to him. Barry, our bachelor boy, was gone two weeks, and at the expiration of that time we were glad to welcome him back with his fair young bride.

The Sunday school is well attended and interest shown.

Mr. Hurley, one of our pioneer prospectors, is suffering from a pain in the back, while the other boys are busy searching for gold.

Mr. Grisson made a flying trip to Cle Elum, and reports a soft place in the road.

Mrs. Archie Morrison is staying a long time in Ellensburg.

But we feel that our space will be full, so we wind up.

Normal Notes.

Monday, Jan. 13th, the Intercollegiate Prohibition League had a very interesting business meeting. At the next meeting, Monday, Jan. 20th, Rev. Mr. Hanks is to address the league.

Tuesday morning Prof. Saunders entertained us by a very interesting and instructive talk on the geographical aspects of two well known features of western scenery—namely, the lower Columbia river and Great Salt Lake.

The weekly meetings of the Y. W. C. A. have a regular attendance of from 25 to 30 earnest and energetic young women. It wields a strong influence for good in the normal.

HER DAY'S WORK.

The maiden woke at early dawn
And split her features with a yawn.
Then slowly closed her facirl gap
And took her usual "Beauty nap."

At nine she yawied again and rose
And lazily assumed her clothes.

At ten she breakfasted, then made
A change of gown to finer grade.

At two she ate her luncheon, then
Went up and changed her gown again.

At five her hair she had to fix
And dressed for dinner called at six.

Picked up a novel just at seven
And read till quarter past eleven.

Then marked the place to which she'd
read.

And took a bath and went to bed.

A lazy girl? Nay, nay! Just pause
Add think a little bit. Because

Her papa was a money king,
'Twas all she had to do, poor thing.

From Thorp.

Miss Cora Vetto left here on Monday for Seattle.

Henry Jacobs returned to Thorp this week from Manila, P. I., where he has been in the employ of Uncle Sam for almost three years. He says he has all he wants of that country, and that is what about all the boys say who have returned from there.

John E. Veach has been improving the interior of his store by the application of paint and paper.

Orlando Beck of North Yakima has been visiting with relatives and friends in Thorp this week.

A goodly number of the Thorp boys attended the M. W. A. camp at Ellensburg Monday evening last, and report a good time.

Mrs. A. J. Schele has been suffering with neuralgia in her face this week, but we are glad to say that she is much improved.

E. R. Hatfield shipped 25 boxes of choice apples to Johnson Bros. at Easton this week.

Jas. Dunnean contemplates building a boarding house in Thorp at an early day.

Mr. and Mrs. Hiram Ames are the happy parents of a bouncing baby girl.

School Notes.

Provisions have been made by which pupils may escape the examinations. They must have an average of 90 in their studies, an average of 95 in deportment, must not be absent more than five days, nor tardy more than two times. When pupils have complied with these requirements their names will be placed on the "Roll of Honor." The following are those who have escaped examination and whose names will appear on the Roll of Honor:

High School—Senior class, Frank, Matilda and Anna Karrer, Nora Jude, Percy Colbert.

Room 10—Enoch and Sebastian Karrer, Fred Calkins, Emma Carrier, Beatrice Wilson, Hattie Sawyer, Iona Collier, Mamie Ingersoll.

Getting Thin

is all right, if you are too fat; and all wrong, if too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: over-work and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can. There's a limit, however, you'll pay for it

Scott's Emulsion of Cod Liver Oil is the readiest cure for 'can't eat,' unless it comes of your doing no work—you can't long be well and strong, without some sort of activity.

The genuine has his picture on it, like no other. If you have not tried it, send for free sample, its agreeable taste will surprise you.

Room 4—Erba Crane, Iris Worth, Mae Zetzsche, Anna Rowland, Ernest Norling, Anna Ippish, Ernest Schorman, Ruth Bartholot.

Pupils below room four are not required to take a formal examination.

The term examinations were held Thursday and Friday of this week.

Miss Heller gave an interesting talk to the high school last Friday on the "Chambered Nautilus."

The girls' basket ball team is progressing nicely, and they hope to give an exhibition in the near future.

While Prof. Calkins and some small boys were exercising one day last week the professor was so unfortunate as to injure his right arm. We have not been informed as to the effect of the exercise on the boys, but we are quite certain that no great harm has been done—to the boys.

UNDER CAREY ACT

Eight Applications Made for Arid Lands in Oregon.

Eight different companies have perfected applications for arid land under the Carey arid land act. These applications cover nearly 200,000 acres, all in Eastern Oregon. Many more applications are in course of preparation and have been forwarded to the State Land Office, but owing to some defect have not been placed on file.

By the provisions of the Carey act the Federal Government offers to donate to the state 1,000,000 acres of land when the same shall have been reclaimed. The state, in turn, gives the land to settlers upon the same terms. In fact, the state acts chiefly as a medium through which the man who reclaims lands gets his title from the Government. Applications for arid land are made to the State Land Board. After surveys have been made and a map filed, the state enters into a contract with the applicant whereby the state agrees to convey the title upon his reclaiming the land as required by the Federal Government. The applicant must pay all expenses of drawing papers, making surveys, reclaiming the land and making final proofs to the General Land Office. When the contract is made with the applicant the state applies to the United States for the land described in the application filed by the man who intends reclaiming the land. The Government transfers the land to the state when proof is made that the land has been reclaimed, and the state then makes the conveyance to the settler.

By the provisions of the state law 10 settler can acquire more than 160 acres.

Those persons, associations or corporations who reclaim more than 160 acres do not secure title in fee simple to the land. They are given possession of the land until it is conveyed to settlers, have a lien on the land for the cost of reclamation, and have the privilege of charging water rates to settlers, the rates to be fixed by the State Land Board. The settler who wishes to purchase land which has been reclaimed must pay to the reclaimers the cost of reclamation. The state gets nothing from the land, and bears none of the expenses.
