

CONTESTS IN COMMITTEE ROOMS DELAY WORK OF BIG CONVENTION

(Continued from First Page.)
servative without a re-affirmation of any of its predecessors. The subcommittee is impatient because of the demands made on their time by petitions of all sorts. This morning the cattle raisers' association submitted a plank requesting protection by the interstate commerce commission and prevention of differential freight rates.

WHAT IT PROVIDES.
Ex-Senator Towne offered a petition with ten thousand signatures demanding the independence of the Philippines. The committee approved the planks dealing with irrigation, the separate statehood for the territories and the election of senators by direct vote.

WANTS ROOSEVELT IMPEACHED.
James Fullerton of Montana appeared before the committee and demanded a plank looking to the impeachment of President Roosevelt on the ground that the president condones the unlawful sale of liquor in Yellowstone Park and refuse to remove Superintendent Pilcher, who is held responsible for the alleged violation of the law.

Chairman Clark's address on taking the platform was as follows:
Clark said that had King David been in Chicago while Senator Lodge was reading the republican platform, he would not doubt have reiterated his opinion that all men are liars. For surely there never was more mendacity packed into the same space in any document purporting to be of grave state paper.

"Our contention is that the government shall be restored to the democrats. We insist that exorbitant taxation shall be reduced to just and reasonable rates; that extravagance in appropriation shall cease; that all departments shall be thoroughly investigated from top to bottom by congressional committees; that evildoers be driven from public service and properly punished; that trusts shall

be proceeded against indictment as are common and smaller criminals and that wherever the American flag floats right, it is accompanied by our constitution."

The proposition that we must support Roosevelt's Philippine policy is the veriest rot. President Roosevelt is not the whole country, and the time has not yet arrived when the people will accept the arrogant dictum of a Louis XIV. reappeared by the American president, "I am the state."
Clark denounced the cringing demerits of others who said the president should be supported in his Philippine policy, even if wrong, but asked "Has Roosevelt a policy?" He denied it, classing him as an opportunist waiting for something to turn up. Meantime our soldiers are being killed and dying of disease in hordes. A president cannot be better than his party, and he, Roosevelt, could not find worse political company this year.

Turning to the tariff question, the speaker said: "Where the tariff rates are so high that they enable the American manufacturers to sell their wares abroad cheaper than they do to Americans, here at home, we say they ought to be reduced. If this were anarchy or treason, 'make the most of it.' Will some stammerer explain why the Americans should be made to pay one-third more for American steel rails than citizens of other nations?" He claimed that the panic of '93 was clearly a republican panic.

Turning to American shipping he said: "When an American goes abroad he must sail under foreign flag, on foreign ship, under foreign officers. Why? Because our exorbitant tariff system had made it impossible for Americans to build ships in competition with the British. Yet the republican gang has infinite gall to prate about its patriotism."

Whacking away at the trusts, Clark said that under the republican rule, trusts have sprung up like mushrooms. The straw that indicated that the trusts would have nothing to fear from the republican trust busters, was the appointment of Knox to succeed Quay. Another straw was the recent report that Wall Street opinion had undergone a change of opinion toward Roosevelt. "Has the president changed his views, or have trust magnates changed theirs?"

HANDLING CITY FUNDS WITHOUT BONDS MAY DISRUPT COMMITTEE

"Unless the city treasurer is placed under bonds, I wish to be excused from the finance committee. Thus spoke Councilman Conrad last evening at the council meeting. This brought up again the vexed question of securing bonds for City Treasurer Atkins. A meeting of the finance committee has been called for next Tuesday to consider the matter. The integrity and honesty of Chas. D. Atkins, city treasurer, is not questioned in the least by the councilmen and not the slightest fear prevails among them. The books have always been found to be kept in first-class shape and the cash balances to a cent when the committee makes its monthly inspection.

Despite the present condition, however, it is contrary to the requirements of the city charter, and for that reason, if for no other, some of the councilmen declare

that a bond must be forthcoming. Councilman Conrad this morning stated that he was a good friend of the city treasurer, but would not serve on the finance committee unless the bond was furnished. He says the present method of procedure is unbusiness-like as well as contrary to the city charter. He says that the commissioner of public works and the city controller, both of whom handle very little money, were under heavy bonds and that it was not right to allow the city treasurer to handle the city's funds without a bond.

The city council recently appropriated \$200 to pay the premium on a \$50,000 bond for the treasurer, but the company which has written the bonds for the controller and commissioner will not touch the treasurer's bond under the present conditions.

MEAD STATES HIS POSITION

SPOKANE, July 7.—The republican campaign for 1904 was opened in Eastern Washington last night by A. E. Mead, of Bellingham, nominee for governor, in an eloquent address, assisted by brilliant short speeches by Governor John H. McGraw and Senator John L. Wilson, of Seattle; Congressman Wesley L. Jones, of Yakima; H. A. Fairfield, of Bellingham, and others.

Mr. Mead made the first statement last night in regard to his position on the railroad question. In that connection he said:
"So far as prospective railway legislation in this state is concerned, I desire it to be known that I have no stock in any railroad in this state, and that no railroad in this state or any other state has any stock in me. I desire to reiterate what I have previously stated, that if the people of this state want a regulative commission they should pursue the good old-fashioned legitimate remedy of ob-

jecting such legislation from the state legislature. If I should be commissioned to serve the people of this state as its governor for the four years commencing in January next and such legislation should be enacted I will honestly execute and perform the duties vested in the governor under the terms and conditions of such a law.

"This question, my friends, can be settled and will be settled through the agency and instrumentality of the republican party of this state, and in its discussion and consideration there is no need or necessity of the citizens of this state indulging in crimination or revilement. There is no need or necessity for precipitating a sectional issue between the people of Eastern Washington and the people of Western Washington."

GEORGIA PROMISED TO LEAVE TACOMA

Georgia Logan, the colored woman who was sentenced on Tuesday to serve 25 days, was released yesterday on promising that she would leave the city at once.

SHERIFF HAS THE SECOND BURGLAR

Charles Engel, the partner of Foster Knox in the recent burglary at Puyallup, has been captured by Sheriff's Denholm

and Eckhart at Chehalis. After skirmishing around a good deal, young Engel was located in an out-of-the-way shack and taken prisoner about midnight July 5. When arranged it is believed that he will plead guilty. His partner, Knox, was sentenced to one year in the penitentiary.

CENSUS SHOWS 621 INCREASE

According to the report of school census enumeration which was made at the meeting of the board of education yesterday afternoon, the school population of Tacoma has gained 621 during the last year. The total school population, including 347 in the recently annexed McKinley district, is 13,630. With this number as a basis, and multiplying by 5, the total population of Tacoma would be 68,150. As this is within about 200 of the total population, based on the number of names in the new city directory, there is little doubt that an actual census would show the population of Tacoma to be between 65,000 and 70,000.

A contract was awarded to the Standard Oil company to furnish paraffine-floor dressing for all the schools except the Horace Mann at 30 cents per gallon. For the Horace Mann school the Hickox-Crampton company will furnish a floor dressing at 45 cents per gallon.

The board accepted the resignation of Miss Huldah Mann, a teacher in the Willard school.

SCHOOL BOARD CASE ON AGAIN

Judge Rice of Lewis county is hearing the school board case in the superior court today. Fremont Campbell, on behalf of the school board, asked for a dissolution of the temporary restraining order on the ground that the law had not been complied with in that the plaintiffs had not been required to furnish a bond to insure the defendants from loss. He also stated that the board needed the proceeds of the bonds to pay for about \$50,000 worth of contract work that is to be completed September 1.

Judge Stallep, for the plaintiffs, asked for a continuance of the case, as both Attorney Leaders and Frank B. Cole, who were conducting the case, were out of town. Judge Rice stated late this afternoon that he was inclined to sustain the motion to dissolve the restraining order, but would not sign it until he had heard further arguments in the case.

CELEBRATORS HELP CLEAN THE STREETS

A. J. Kennedy and R. J. McFarlan came to Tacoma to help the big celebration along. They spent all of their own money, then began asking various other people for more. Officer Smith arrested the men for vagrancy yesterday, and this morning Judge Griffin ruled that they help clean up the streets for the next five days.

DIDN'T NEED THE MONEY

O. C. Hanson, charged with carrying concealed weapons, forfeited \$25 bail this morning, rather than to appear to defend himself. Hanson was arrested July 4.

MRS. GUNDER LANDS IN CITY JAIL AGAIN

Mrs. Grunder is drunk again. After being released from the city jail on probation about two weeks ago, she remained a teetotaler until the night after the Fourth. Then she commenced a belated celebration, which ended last evening in the police station.

She was committed for twenty days by Judge Griffiths this morning, and warned by the court that on her next appearance the penalty will be three months in the county jail.

VICTIMS OF GREEN-EYED MONSTER

SAN FRANCISCO, July 7.—The green eyed monster is stalking about in the ranks of the E. H. Sothern company. It is all due to the open preference shown Miss Jane Laurel by Sothern. When the company recently started out Cissy Loftus was the leading woman, but illness gave her understudy, Miss Artie Warner, an opportunity to display her talent and to become the leading woman by contract. Miss Warner was getting along very nicely, thank you, until Sothern "discovered" Miss Laurel. At his request Miss Warner gave way temporarily, she thought, to Miss Laurel, Sothern's interest in the young beauty having become so deep that he wanted to see what she

MANUFACTURERS' FIRST BANQUET

harbor and are now being put in place. The other repairs are being rapidly completed and it is expected that the boat will be ready for service within a few days. The machine work is being done by the Puget Sound Marine Works company.

The Blue Funnel liner Calchas will leave port late this afternoon on her return trip to Liverpool. She has taken on a large cargo of lumber, flour and general merchandise for Oriental ports. Enroute to England the boat will stop at Hongkong, Nagasaki, Yokohama and Kobe.

The government transport Dix will come to Tacoma Monday to take on supplies from the Government warehouse. The Dix has received general repairs since her return from Manila and is now said to be in first-class condition.

The second shipment of cable for the Sitka-Puget Sound line, consisting of six carloads, arrived at Tacoma this morning and is now being unloaded at the Government warehouse. Another consignment has been shipped from the factory. It is expected that the cable ship Burnside will return from the north the first of next week and take on another load of cable for the northern line. It has been reported that the Burnside has had to contend with bad weather since leaving here about three weeks ago, which may delay her return to this city.

SECOND HAND DEALER MUST OBEY ORDINANCE

Mrs. Sophia Zelinsky, a second-hand dealer, was arrested on a warrant last evening charging her with violating ordinance 1219. This ordinance provides that the owners of second-hand stores in the city must furnish a complete list of articles purchased to the chief of police. Under orders of Chief Maloney all violators of this law are to be rounded up, and Mrs. Zelinsky's arrest is the first of the raid.

PING SUEY ON FIRE

Word has been received that the China Mutual liner Ping Suey, which broke down off the south coast of England last week, took fire yesterday morning at her dock at Liverpool. The report stated that the fire broke out in her forward hold, but was extinguished after two hours of hard fighting. It destroyed part of her cargo.

Part of the cargo destroyed was loaded at Tacoma.
