

STREET TANGLE TO BE ADJUSTED

COUNCIL TAKES ACTION TO CHANGE THE NAMES OF SEVERAL STREETS.

The tangles resulting from street names are now to be straightened out. An ordinance providing for several changes was introduced in the council last night, and the whole street problem will be adjusted. In the past plans have been accepted in any old way and every fellow who made a plat named streets to suit himself without reference to the rest of the city. Now there is confusion in many sections.

South Thirty-sixth will be changed to Harrison, East P will be called Portland, Broadway will be changed to Union, Harrison in

Fernland addition will be Puget Sound avenue, Chester street in West Lawn addition will be Lawrence, Sheridan and Washington in Lincoln park will be Alder and Cedar respectively, Avoca in Unity addition and Bruce in Beatrice addition will be Pine street, Shelby will be Oaks, Pravin and Liberty will be Fife and Stellacom, Parker street in Topping addition will be Prospect.

On the south side Bryan will be Wapato, Station will be Sixty-fifth, Rigney will be Sixty-fourth, Worth will be Sixty-sixth, Duane will be Sixty-eighth, St. Paul will be Seventieth, Minnesota will be Seventy-second, Bilmore will be Seventy-fourth, Tahoma boulevard will be Clement, Sloan will be Seventy-sixth.

JAP BILL IS DROPPED

CALIFORNIA ACCEDS TO THE WISHES OF PRESIDENT AND KILLS MEASURE SEGREGATING JAPANESE STUDENTS IN PUBLIC SCHOOLS.

(By United Press Leased Wire.) SACRAMENTO, Cal., Feb. 11.—According to the wishes of President Roosevelt, the California assembly late yesterday afternoon reconsidered the Japanese school segregation bill and killed it by a vote of 41 to 37. It is probable that this will put a stop to most of the anti-Japanese legislation in the legislature.

The measure is still to be considered in the senate but there is little chance of its meeting with approval in that body.

The news of yesterday's vote was at once wired to President Roosevelt by Speaker Stanton and Governor Gillett and the president is more than "de-lighted." The president, in fact, is in ecstasies over the situation and, in messages to the governor and speaker declares the thanks of the nation and pledges himself officially and personally to safeguard the interests of California.

St. Luke rummage sale Friday and Saturday, Feb. 12-13 at 749 So. C.

JOHN CONSIDINE ASPHYXIATED

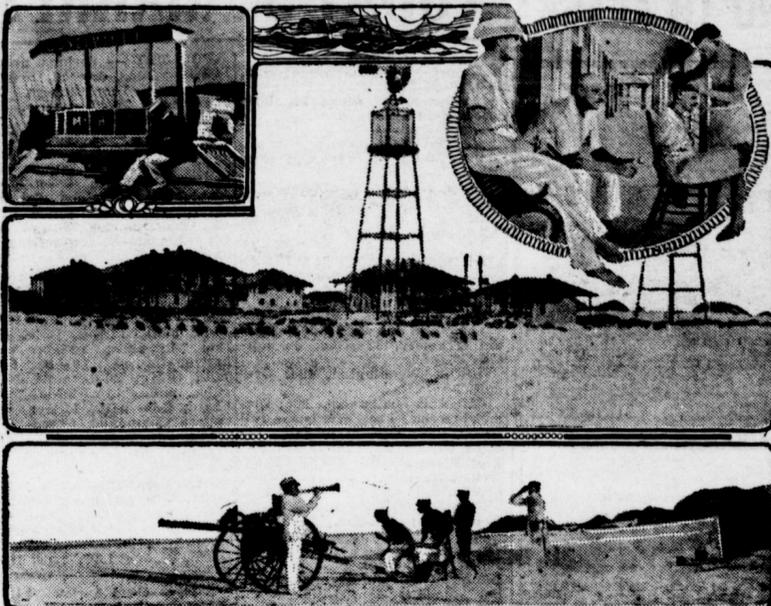

SEATTLE, Feb. 11.—John Considerine, father of John W. and Thomas J. Considerine, the well known vaudeville magicians, was accidentally asphyxiated last night in his room at the Stewart hotel.

He was a resident of Chicago and owned a great deal of valuable property in that city.

SUPREME COURT BILL PASSED

(Times Special Service.) OLYMPIA, Feb. 11.—Although opposed vigorously by Senator Paulhamus, Senator Cotterill and some other leaders in the senate, the upper house yesterday passed the bill to increase the justices of the supreme court from 7 to 9, the vote being 52 to 7.

LIFE ON MIDWAY ISLAND WHERE ONLY 21 PEOPLE EXIST IS DESCRIBED

By P. Gresley Cox, One of the 21 Residents of Midway Island.

MIDWAY ISLAND, North Pacific ocean, Jan. 2.—How many people in the United States ever heard of Midway Island? Yet Midway island, unknown to them, plays quite an important part in their daily life, for the news of the world passes to and fro over its less than a square mile of expanse in the solitude of the North Pacific ocean. The sole excuse for habitation of this desolate island is the location of a relay station of the Commercial Pacific Cable Co.

Only 21 people exist on this treeless sand heap—10 whites, five Chinese house servants and six Japanese laborers. At the head of them is B. W. Colley, the superintendent and "oldest inhabitant," who is assisted by five cable operators, a staff physician, engineer and batteryman. And don't forget Mrs. Colley. She is the only woman on this remote island. Life on Midway island may be

ON A SPECK OF LAND IN THE PACIFIC. Narrow-gauge tram humorously fitted up to resemble a street car. The large picture gives a view of all the buildings on Midway Island. Another picture shows the station barber at work. The lower picture shows United States marines at practice with a 6-inch gun.

summed up in four words: working, sleeping, eating and playing. The playing is the hardest part, because there is such a lack of variety of diversion. What there is, however, of play is unsurpassed, notably the bathing and fishing. There is sailing and tennis and an attempt at golf. There is photography, too, but it soon plays out, as there is so little to photograph. A phonograph and a pianola aid in whiling away the tedium. But it does become lonely, and the most cheerful sometimes give way to the blues. The average detail of service on Midway island is about 14 months, but some find they can stand it only six months. Supt. Colley and his wife have been here six years, with one three-month vacation in the Orient. When he came he had to live in a tent. The concrete buildings were erected under his direction.

The event of Midway island is the arrival of the supply schooner, Florence Ward, four times a year from Honolulu. It is hard to imagine the excitement of mail day, unless one is cooped up on a ship and like this. But, alas, when the boat departs, there is a depressing reaction.

Excitement there has been on Midway island, notably on the "Day of the Big Noise." Some years ago there was a detail of United States marines on the island and the magazine, with 300 rounds of 6-inch shells and several thousand rounds of small arm ammunition, caught fire. Think of this upon an island only a mile and a half long by a half mile wide! Everybody sought cover, waiting for the explosion. It came, but, miraculous to state, no one was hurt, and no damage was done to the station.

Another disturbance was the "Day of the Big Wind." The greatest hurricane recorded on this island seemed to threaten to obliterate the station, but the foundations withstood the waves. Supt. Colley has been gradually reinforcing the sand of the island with dykes and shrubs and long-rooted grasses so that in the future no danger is anticipated. By importing soil from Honolulu enough good ground has been secured for a garden, in which watermelons and tomatoes and even lettuce are raised.

There is no death of eatables. There is a good cold storage plant, in which meats and vegetables brought from Honolulu are preserved, and the table is not entirely dependent upon a canned goods menu—witness the Christmas dinner. Among the items were: Oyster cocktail, olives, radishes, squash on toast, roast turkey with cranberry sauce, potatoes, plum pudding, mince pie and champagne.

All in all, a year on Midway is not an unenviable experience for a person who is not too metropolitan. In his tastes, the mail comes only once in three months, but we, the residents, have the wires, before it reaches the public of the states or the Orient. And that keeps alive interest in the world's affairs.

THE SECRET OF LONG LIFE. A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. It's a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Mo., "but Electric Bitters cured me entirely." Only 50c at all drug stores.

MIDWAY ISLAND

Is a coral reef 15 miles in circumference in the North Pacific midway between California and Japan. Its nearest inhabited neighbors are Hawaii, 1100 miles to the east, and Guam 2300 miles to the west. The cable station is on a bare sand drift three-quarters of a square mile in area, encircled by the reef.

ACCUSE REAL ESTATE MAN OF ASSAULT

Claiming that L. S. Forest had assaulted them without provocation, M. D. Rome and Frank Pratt, solicitors for an Eastern police publication, had him arrested yesterday afternoon. Forest was released upon payment of \$100 bail and the case was set for this afternoon's session of police court.

Rome was taken to the office of Dr. McNethey, who found it necessary to take four stitches in the man's forehead, and three stitches above his left eye.

BIG BANQUET HELD BY SHRINERS

Imperial Potentate E. I. Alderman of Cedar Rapids, Iowa, left this morning with a company of Tacoma Shriners for Seattle where he will visit Nile temple.

His visit to Afla temple of Tacoma was a notable event and was topped with a great banquet last night in Masonic temple.

REGISTRATION SLOW

Only 3,200 voters in the city were registered yesterday afternoon out of more than 16,000 in the city. At the present rate of registration there will not be more than one-fourth of a vote at the coming spring election.

LOSES \$300 AT OLYMPIA

(Times Special Service.) OLYMPIA, Feb. 11.—S. M. Corwin, of Tacoma, a visitor in Olympia during the legislative session, gave notice to the senate and house yesterday that he had lost his wallet, containing \$300, somewhere near the capitol.
