NEWS and GOSSIP OF THE STAGE

AT THE TACOMA.

"GIRLS" HERE TONIGHT.

Ethel Gray Terry, who plays the youngest of the trio of man-haters in "Girls," the Clyde Fitch play which opens a two nights' engagement at the Tacoma tonight, is but 19 years old. She proudly states that she made her debut on the New York stage when she was only three months old, having a most juvenile part in James Herne's "Hearts of Oak." Miss Terry is the daughter of Lillian Lawrence, the Boston star.

"RIGHT OF WAY" SUNDAY.

It is said that Eugene W. Frebrey, who dramatized Sir Gilbert Parker's famous dramatic novel, "The Right of Way," can be praised for one thing—putting the play on the stage with a line of action almost identical to that followed out in the book. The dramatization has been elaborated on by Klaw & Erlanger, who are managing the present company. The play, as it will be seen here Sunday and Monday, will include the original famous cast, headed by Guy Standing and Theodore Roberts.

CURES ECZEMA QUICKLY

New Drug, Poslam, Now Obtainable in Small Quantities.

(Since its discovery one year ago the new drug, poslam, has successfully cured thousands of chronic cases of eczema and other distressing skin affections. Heretofore poslam has been dispensed solely for the benefit of eczema patients in large jars sufficient for a month's treatment. This was found to be an inconvenience to many thousands who use it for minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion, blemishes, itching feet, piles, etc., which require but a small quantity to cure. To overcome this, and in response to urgent appeals, the dispensers of poslam have been obliged to adopt, in addition to the regular two-dollar package, a special fifty-cent size, which in future may be found on sale at Victor H. Malstrom and Ryner F. Malstrom and other leading drug stores in Tacoma, or may be ordered direct from the Emergency Laboratories, No. 32, West 25th street, New York city. In all eczema cases poslam stops itching with first application, and proceeds to heal immediately; chronic cases being cured in two weeks. In less serious skin troubles, results are seen after an overnight application. Samples for experimental purposes may still be had, free of charge, by writing to the laboratories for them.)

THE NATURE DOCTOR

I'm called the Nature Doctor, because I help Nature cure. I found out years ago that drugs didn't do that, so I quit using them.

Nature wants something that gives strength, vitality and new energy. Drugs are poisons, and who ever heard of poisons building up vitality?

What Nature needs is Electricity. That is what makes vitality and nerve force. It's the power that runs the machinery of your body.

If you are sick, weak, diseased or ailing in any way, it is because some part of your body lacks Electricity.

Electro-Vigor is an Electric body battery which saturates your nerves with a glowing current of Electric life while you sleep. It does not shock or burn.
