

# ROOSEVELT DELIVERS GREAT SPEECH AT OXFORD COLLEGE

LONDON, June 7.—Col. Roosevelt found a defense for British and American imperialism in the "Biological Analogies in History" on which he spoke at Oxford university today.

"The all-important factor in national greatness is national character," was his final analysis.

He described the chief dangers threatening England and the United States as "the growth in luxury, in love of ease, in taste for rapid and frivolous excitement," and in "the diminution of the birth rate, a diminution so great that if it continues for the next century all the more highly civilized people will be stationary."

He closed a discussion of modern social problems, in which he attacked socialism, with the statement that "though hardness of heart is an evil, it is no greater than softness of head."

"The ethnic makeup of our people is slowly changing, so that constantly the race tends to become more and more akin to that of those Americans who, like myself, are of the old stock but not mainly of English stock. Yet I think that, as time goes by, mutual respect, understanding and sympathy among the English speaking people grow greater and not less. Common heirship in the things of the spirit makes a closer bond than common heirship in the things of the body."

UNIVERSITY HALL AND COLLEGE AT OXFORD, WHERE ROOSEVELT LECTURED TODAY

## Little Things That Happen Around Town

Charles Nelson, a captain in the Tacoma fire department, was yesterday divorced by his wife, Lillian Nelson, and the court ordered the husband to pay her \$40 a month alimony. It was shown that he was cruel and abusive. Two weeks ago he beat her, knocked her down and then when her father interfered, he knocked him down, punching out two of the old man's teeth by the blow.

Two hundred little Indians from Cushman Indian school yesterday held a picnic at Point Defiance park. The brass band of the school headed the crowd and there was a big time. Edwin Eels, who for 24 years was Indian agent, spoke to the students.

W. S. Gorman is up for trial today before Judge Arntson charged with offering an insult to a woman on Pacific avenue Sunday. He says he is a stenographer and ball was fixed at \$250.

## How Cort Smashed the Theater Trust

(Continued From Page One.) do one-night stands, too, and will visit large cities, where, thanks to the trust, they have not been seen in the last dozen years.

Mr. and Mrs. Playgoer, you'll see the best plays in your own town this coming season that the American stage affords. The trust is smashed and you can thank John Cort for it.

## PIPE LINES TO COST MORE

The Northern Pacific will grant the city an easement for its pipe line along the Northern Pacific tracks from the headworks down to Buckley, when the gravity water system is built, but it is going to cost more than was figured on.

The company is going to put in another track along its line and this will go right where the city wanted its pipe. This means the city will have to move over to another part of the right of way where it will be more expensive building.

After a conference between the commission and the railway men yesterday the latter agreed to send up a railway engineer to see what he can figure out that will be satisfactory to both parties.

NO REASON FOR PIMPLES  
New Healing Agent Causes Them to Disappear.

The dispensers of poslam, the new skin discovery, ask that notice be given that no one is urged to purchase it without first obtaining the sample package, which will be sent free to any one who writes to the Emergency Laboratories, 32 West Twenty-fifth street, New York. This is usually enough to clear the complexion and to rid the face of pimples. Every one who has tried poslam knows that the 50-cent box, on sale at Malstrom's, 9th and C sts. and 938 Pacific ave. and The Crown Drug Co., as well as all other drug stores, contains sufficient for the worst cases of eczema, where the surface affected is not too large. The itching ceases on first application. It will also cure acne, freckles, blotches, scaly scalp, hives, barber's and every other form of itch, including itching feet. Being flesh-colored and containing no grease, the presence of poslam on exposed surfaces, such as the face and hands, is not perceptible. Water and soap cannot be used in connection with it, as these irritate and prolong skin troubles, sometimes causing them.

"In five days' time, before anybody knew it, we had upset the results of 20 years of work by Klaw & Erlanger. Today there is not a city in the country where there is not an open door theater.

"The trust which left a trail of ruined, broken lives; which degraded the stage; which grafted and played holdup man with the weapon of booking rights, which the theater men themselves placed in its hands, is smashed completely. The public will never know how many plays have been withheld from it, how many stars have been thrust into private life, how many ambitious producers have been crushed, how much real art has been stamped out and killed by this theater trust.

"The country next season will see more better shows than it has ever seen before in any five years under trust rule."

Cort says that such stars as John Drew, Mary Manning, Jas. T. Powers and the very leaders of the stage will go scampering about the country like any other stage folks, from coast to coast; they'll

MEN'S TAILOR SUITS \$25 To \$60 O. HARRISON 115 So. 11th St.

Something doing soon in sample shoes in Fidelity building. Watch for announcement.

## TEACHERS GIVE DINNER FOR YODER

The men teachers in the Tacoma schools last night gave a dinner to retiring Superintendent A. H. Yoder at the Commercial club rooms.

Mr. Yoder in the course of his remarks took occasion to declare his sentiment in favor of more men teachers. He said it was desirable to have men over boys in their school lives and he also urged the teachers to get into the athletic games with the pupils.

## ORPHEUS CLUB CONCERT IS TONIGHT

The Orpheus club will give a concert at the High school auditorium tonight with Miss Grace Tallman of Tacoma and Nicholas Oeconomacos as soloists.

The club has a fine program prepared and in addition will give the two numbers recently sung by it for the Walter Damrosch concert at the Tacoma theater. The concert will be repeated tomorrow night.

## In the Public Eye

GEO. W. PERKINS.

Geo. W. Perkins is a partner in the banking firm of J. P. Morgan & Co. He is the human side of the firm. If there are any public speeches to make for Morgan, Perkins is sent to do it. He invariably has something to say to the National Civic Federation about the proper manner of treating the workman, and at the last meeting held out the theory that a firm ought to be kind to its employees just as a business proposition. J. P. Morgan himself never mixes up in public life; neither does Morgan's clamlike partner, Geo. F. Baker. But Perkins is supposed to atone for them and to prove to the public that the Morgan party isn't such a bloodless, soulless, unscrupulous clique as is generally believed. Therefore, Perkins belongs to societies that make parks for the people, that preserve historical relics, maintain art museums, establish and operate hospitals, support botanical gardens, and many other organizations.
