ATTEMPT ON LIFE OF U. S. AMBASSADOR

DR. RHODES MUST PROVE QUALIFICATIONS

ORDINANCE REQUIRES MILK INSPECTOR TO BE LICENSED—TACOMA VETERINARIANS CHALLENGE RHODES TO SHOW WHY HE SHOULD BE RETAINED.

It is up to Dr. Rhodes. The new milk and dairy ordinance requires the city milk and dairy inspector to be a "graduate licensed veterinarian." Can he prove it? The doctor declares he is a graduate. In his answer in court proceedings started against him some months ago he declared he was a graduate of the Western Veterinary college of Kansas City and that he graduated in 1901.

The state and county records do not show him to be a "licensed" veterinarian. An affidavit has been made by S. B. Nelson, state veterinarian and secretary of the state board of veterinarians, declaring Rhodes took an examination to be licensed that he failed to pass and Dr. Nelson further states that he is satisfied Rhodes is not a graduate veterinarian and that he is in his opinion incompetent.

Dr. Rhodes had a diploma from the Western Veterinary college of Kansas City. This was issued to him in 1907 and not in 1901, as he claims. On the face of it is written that it is issued to replace one destroyed by fire, the original Dr. Rhodes claiming to have won by graduation in 1901.

Awful Cruelty Cause of Most Divorces---But Note the Finish

"I have just been looking up the cause of cruelty that eventually leads to the divorce courts," remarked Anastasia's gentleman friend whilst making his usual Wednesday call last evening. "Indeed," replied our old friend Anastasia. Surely this was not an appropriate subject for the gentleman friend on a Wednesday evening. "And I find," continued the young man "that cruelty among people predestined to get shed of the tie that binds is awful."

The election of Hiram Johnson in California as governor means that at last the citizens of the Golden Gate have asserted themselves against Southern Pacific rule.
